REPORT OF INSPECTOR OF MEATS AND PROVISIONS

Tewksbury, Mass., December 31, 1926.

To the Selectmen of the Town of Tewksbury:
Gentlemen:

Following is my report for the year ending December 31, 1926:

Sides of Beef inspected	1282
Veals inspected	831
Sheep inspected	4
Hogs inspected	499
Sides of Beef condemned	12
Veals condemned	8
Hogs condemned	5

Respectfully yours,

HUGH CAMERON,
Inspector of Meats and Provisions.

REPORT OF INSPECTOR OF ANIMALS

Tewksbury, Mass., December 31, 1926.

To the Selectmen of the Town of Tewksbury:

Gentlemen:

Following is the report of the Inspector of Animals for the year ending December 31, 1926:

Cows inspected	723
Young Cattle inspected	103
Bulls inspected	17
Sheep inspected	35
Hogs inspected	437
Stables inspected	85

Respectfully yours,

HUGH CAMERON.

REPORT OF THE AGENT FOR THE SUPPRESSION OF THE GYPSY AND BROWN TAIL MOTHS

To the Honorable Board of Selectmen:

Gentlemen:

As Agent for the Suppression of the Gypsy and Brown Tail Moths I submit the following:

Gypsy moth conditions on street trees remain about the same with a slight increase in the woodlands. The Brown Tail moth infestation is light, conditions remaining the same as last year.. Extensive spraying was done during the summer months and cresoting on most of the streets in the late Fall. Some scouting was also done in the woodlands and a few small colonies were found which I would advise spraying.

Yours respectfully,

HARRIS M. BRIGGS.

REPORT OF HEALTH DEPARTMENT

To the Board of Selectmen, Tewksbury, Mass.,
Gentlemen:

As your agent the following is my report for the year ending December 31, 1926:

	Cases	Deaths
Scarlet Fever	5	0
Diphtheria	2	0
Measles	6	0
Mumps	1	0
Chicken Pox	10	0
Tuberculosis	2	0
Typhoid Fever	1	0
Infantile Paralysis	1	0

The first half of the year showed few cases of contagious disease, but the last three months have caused the department more or less worry. Scarlet fever showed its presence in November and has kept the agent rather concerned with its management. Unlike the disease of twenty years ago, it now presents itself in a very mild form on the majority of occasions; such as slight sore throat, mild fever, red tongue and a day or two slight blush upon chest or arms. This mild type may show no peeling of skin and is the one easily missed by parents, but from this slight illness may come many cases and serious ones. The first few days of all communicable cases we find to be the most contagious, probably from the breath and secretions of the nose and throat. The older theory of the contagiousness of the peeling stage has been disproved. Parents can be a great help to the Board of Health by keeping children, who show any sore throat whatever away from others until it has subsided. As in past years I have anticipated the presence of a tuberculosis case among our residents, which would require our financial aid; this aid must be given by the Health Dept. and taken from their appropriation. I have now on file a case of this kind and if this patient shows a legal residence with us, we will have to ask for an increase of about $1000, to cover a year's residence in a County Hospital at $18.00 per week.

To the milk producers I send warning, that they may not get into their employ typhoid carriers, as men who have recovered from the disease in so far as they themselves know, but who for many months to a year after may infect milk or food which they handle.

With these suggestions offered I thank you for your previous support.

Respectfully submitted,

HERBERT M. LARRABEE, M. D., Agent.

REPORT OF THE HIGHWAY COMMISSIONERS

Tewksbury, Mass., January 6, 1927.

To the Honorable Board of Selectmen:

Gentlemen:

We beg to submit our Annual Report for the year ending December 31, 1926. The following work has been done by the Highway Department:

Roads Graveled

French St.	16 loads		
Andover St.	135 "	or	294 yds.
Summer St.	21 "		
Chandler St.	210 "	or	315 yds.
River Road	11 "		
Kendall St.	5 "		
Woburn St.	393 "	or	589 yds.
Astle St.	26 "		
Salem St.	3 "		
Shawsheen St.	7 "		
Pleasant St.	8 "		
Rogers St.	50 "		
Billerica St	144 "		
Bow St.	95 "	of filling	
Whipple St.	1024 loads	or	2316 yds.

Special Appropriation of $2500 for Cinders

An order was placed with the Boston & Maine Railroad for fifty cars of cinders to be delivered at the side track in Wilmington in March. The price to be paid for same was $10.00 per car and forty-five cents per ton freight. Twenty-five cars were shipped and delivered and used on Lake and South Streets. The balance of the order has never been filled as they are using all their cinders at the present time for their own use. Therefore, it was impossible for us to buy cinders and finish the work on South, Brown and Shawsheen Streets.

Repairs Made on Sewer Pipe This Year

56 feet of 12 inch pipe laid in Chandler Street. 750 feet of 8 inch pipe was cleaned and flushed out on Woburn Street with the co-operation of the Eastern Mass. St. Ry. and the City of Lowell Water Works. This sewer had been lost and forgotten for the past number of years.

Hill Street in South Tewksbury has been laid out by the County Commissioners this past year, and 11 bound stones has been set in place by your Highway Department.

Special Appropriation of $3000 for Oil Used on the Following Streets:

Billerica Street, Whipple, Astle, North, Fisk, Hood Road, Trull, Clark Road, Pleasant, Summer, Dewey, Lee, East, French, Chandler, Livingston, Brown, State, part of South Street, Salem, Shawsheen, Kendall, Marshall, Rogers, Pike, part of Dock Street. 227 loads of sand was used this year to cover oil. Patching of your main roads has been done as usual.

This past year more attention has been paid to the maintenance of all your roads in regards to scraping and dragging. 59 days has been spent scraping and dragging your roads which is the only way possible to keep them in shape in our spring, summer and fall months. We have spent 8 days blasting boulders and ledge on the sides of your roads which we find is causing us our biggest trouble in our snow breaking work this last year. 49 days breaking roads with your town teams this year.

Brush was cut this year on the following streets to the amount of $648.18: Chandler Street, 2.6 miles, Rogers Street, 1.3 miles, Pike Street, 1.1 miles, Chapman Street, .3 of a mile, Pond Street, .5 of a mile, brush burned on Andover Street one mile. Making 6.8 miles of brush cut and burned this year by the Tree Warden for the Highway Department.

Woburn Street was scarified and reshaped before gravelling, one half a mile.

Clark Road was scarified and reshaped before oiling, one mile.

Chandler Street was scarified and reshaped before oiling, from the main road to Livingston Street.

Your town barn has been reshingled and the cupola retinned and painted this past year.

This past year, we have had the benefit and help of the Department of Public Works, Division of Highways, of what is known as Chapter 81 of the General Laws as amended by Chapter 281 of the Acts of 1922, and by Chapter 315 of the Acts of 1926 which was an

allotment of $5400 against $6750 of the Towns' regular appropriation making a sum of $12,150 which the State and your Board of Selectmen, signed a contract to cover this act. We recommend that this same contract be applied for this coming year, as it is in our opinion one of the greatest helps to your Highway Department.

We recommend for the coming year an appropriation of $12,000.00 and also a new road scraper of the latest type to work with our tractor.

Respectively submitted,

MARK ROPER,
WILLIAM I. BARLEY,
Board of Road Commissioners.

REPORT OF SEALER OF WEIGHTS AND MEASURES

Tewksbury, Mass., December 31, 1926.

To the Selectmen of the Town of Tewksbury:
Gentlemen:

Following is my report as Sealer of Weights and Measures for the year ending December 31, 1926:

Platform Scales sealed over 5,000 lbs	3
Platform Scales sealed under 5000 lbs.	6
Computing Scales sealed	21
Miscellaneous Scales sealed	2
Spring Scales sealed	7
Spring Scales condemned	2
Baskets sealed	1
Liquid Measures sealed	43
Gasoline Pumps sealed	35
Kerosene Pumps sealed	4
Oil Pumps sealed	10
Yard Sticks sealed	3

I have collected and turned over to the Town Treasurer $30.66 in fees.

Respectfully yours,

HUGH CAMERON.

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen:
Gentlemen:

As Park Commissioners we submit the following:

During the year the common has been raked and kept mowed also a small plot in No. Tewksbury.

The flagpole was painted and sheave replaced at the top.

The bandstand is badly in need of repairs and the flagpole should receive one coat of paint again this year. We would recommend an appropriation of $300.00.

Yours respectfully,

EDITH A. FAUSTALL
HARRIS M. BRIGGS
Park Commissioners.

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

Tewksbury Centre, Mass.,
January 1, 1927.

To the Honorable Board of Selectmen:
Gentlemen:

As Chief of the Fire Department I herewith submit the following total number of fires attended:

Forest Fires	46
House Fires	13
Chimney Fires	2
False Alarms	3

Total value of buildings and contents, seventeen thousand, seven hundred dollars.

Damage, fourteen thousand, seventy seven dollars.

Insurance paid, fourteen thousand seventy seven dollars.

Personal property of the Fire Department, twelve thousand, five hundred dollars.

Yours respectfully,

A. S. HAINES.

REPORT OF THE WORK DONE BY THE MIDDLESEX COUNTY EXTENSION SERVICE IN THE TOWN OF TEWKSBURY, FOR THE YEAR 1926

An appropriation of $150.00 was made at the annual meeting in support of the Middlesex County Extension Service, through the County Board of Trustees for County Aid to Agriculture. The following is an account of the work done by this organization in Tewksbury for the year 1926.

In agriculture the principal work developed this year has been with those farmers interested in dairying. One barn meeting was held where the question of growing more and better roughage, and the adopting of better feeding practices were discussed. One alfalfa meeting was held where farmers were given an opportunity to see a successful stand of this crop. A number of farm visits were made for the purpose of testing soil and making recommendations regarding the seeding of alfalfa and grass mixtures. Three farmers are receiving monthly visits from the cow test agent for the purpose of obtaining accurate milk production records and feed costs. One pruning demonstration was held during the year for the benefit of those farmers interested in the production of higher quality fruit. A total of twenty-seven farm visits were made during the year to those requesting this type of service.

In homemaking two millinery meetings were held for the benefit of those interested in this project. One of the largest groups of women interested in clothing instruction met in this town, under the local leadership of Mrs. M. P. Mahoney. A meeting was also held for the benefit of those who desired to learn the easiest and most satisfactory methods of canning fruits and vegetables. In West Tewksbury a series of Food Selection meetings were held for the purpose of helping homemakers in the selection and preparation of food for the family. In South Tewksbury a series of three meetings in clothing instruction were held.

In the boys and girls 4-H club activities work was carried on in food, canning, garden and poultry clubs. Ninety-three boys and girls were enrolled under the local supervision of Mrs. E. P. McLaren, Mrs. Clarence Foster, Mr. James Crosby, George Sloteriades and Clifford Haynes. Harriett King was awarded a prize in the county-wide room

beautiful contest, Mildred Obert, Margaret Pierce, and Fred Flaherty were awarded a two day trip to the Massachusetts Agricultural College for doing outstanding club work.

A series of seven motion picture shows were given to a total attendance of 1844.

In addition to local meetings held, several county-wide meetings were conducted such as the county picnic at the Market Garden Field Station, the annual meeting of the Extension Service at Waltham, and sectional meetings of fruit growers and poultrymen. These were attended by many Tewksbury people.

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen:

Gentlemen:

As Tree Warden I submit the following:

During the year brush was cut on the following streets, giving the approximate mileage.

Shawsheen St. 3 miles, Lowe St. 1-2 mile, Maple St. 1-2 mile, Park Ave. .03 mile, Whipple St. 1-4 mile, Andover St. 1 mile, Chandler St. 1.06 miles, Rogers St. 2 miles, Chapman St. 1-2 mile, Pike St 1.01 miles, Pond St. 1-2 mile, Streets recut: Cross St. .06 mile, North St. .03 mile, Foster St. 1.05 miles, and Whipple St. 2 miles.

Through an allowance from the State to the Highway Dept. we were able to cut and burn about 6 miles of brush under the supervision of the State engineer.

I would recommend cutting and burning on East St. 1 1-2 miles, Ballard St. .04 mile, South St. 2.05 miles, and Trull St. 2 miles; a total of 6.04 miles. Also the re-cutting of all streets that have been done the past year. Approximately 17 miles. All trees which we considered dangerous have been pruned or removed.

Yours Respectfully,

HARRIS M. BRIGGS.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY

The Trustees of the Public Library submit the following report:

Details of expenditures for the Public Library will be found in the Auditor's report.

The regular meetings, the first Saturday of every month, have been held during the year, with the exception of July and August.

During the year about 350 books have been added to the library.

The circulation of books especially for the children is growing each year and our need for more space is still with us.

The trustees wish again to call the attention of the patrons of the library that any book will be bought on notice to the librarian.

The trustees regret the resignation of Rev. Henry B. Mason, who has removed from the town.

Through the resignation of Mr. Edward Smith the library has lost an efficient keeper.

We wish to thank the librarians for there faithful and courteous service, the donors of books, and the the patrons of the library for their cordial co-operation.

The trustees respectfully request that the article in the warrant asking for the library an appropriation of $750, and the dog taxes be granted.

Respectfully submitted,

GEO. E. MARSHALL
HARRIETTE G. LEE
EDGAR SMITH
REV. C. F. FREDERICK
KATE FOLSOM
Trustees of the Public Library.

LIBRARIAN'S REPORT

To the Board of Trustees of the Tewksbury Public Library:

The following report is respectfully submitted:

During the month of August all books were called in for a stock-taking. At this time the books were checked up, loose pages were put in and many books were repaired.

Although the library was closed for a month the circulation of books both on Wednesdays and Saturdays has increased.

Donations of books were received from Mrs. M. A. Patten, Mrs. Brooks Stevens Jr., Mr. James Bancroft and the late Mr. James Higgins.

WARRANT FOR ANNUAL TOWN MEETING

Middlesex ss.

To either of the Constables of the Town of Tewksbury in said County:

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Tewksbury, qualified to vote in Town affairs, to meet and assemble at Town Hall in said Tewksbury, on Saturday the 5th day of February, 1927 at nine o'clock A. M., to act on the following articles:

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all necessary Town officers, to choose by ballot a Town Clerk, three Selectmen, three Overseers of the Poor, three members of the Board of Health, a Town Treasurer, an Auditor, a Collector of Taxes, a Tree Warden and Constables, (Three) all to serve one year: one Highway Commissioner to serve three years; one School Committee to serve three years; one Trustee of the Public Library to serve two years, two Trustees of the Public Library to serve three years; one Park Commissioner to serve three years; One Park Commissioner to serve two years; one Assessor to serve three years. The polls for the election of Town Officers to be opened at nine o'clock A. M., and close at four o'clock P. M.

ART. 3. To hear reports of Town Officers and Committees and act thereon.

ART. 4. To see what sums of money the Town will vote to raise by taxation to defray necessary expenses for the current year, and make appropriations for the same.

ART. 5. To see if the Town will vote the money arising from licensing dogs, for the ensuing year, to aid in support of the Public Library.

ART. 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current. financial year.
The vote to be as follows:
Voted:—That the Town Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1927, and to issue a note or notes therefor, payable within one year, and debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 7. To see what compensation the Town will vote for the collection of taxes, and at what rate and from what date interest shall be charged on taxes of 1927 unpaid after November 1, 1927 or to take any other action relative thereto.

ART. 8. To see if the Town will vote to borrow, if necessary a sum not exceeding one twenty-fifth of one percent, of the current year's valuation, such sum of money to be used in the suppression of the Gipsy and Brown Tail Moths, and not to be expended before December 1st next, and to be raised in the tax levy of the year 1928.

ART. 9. To see if the Town will vote to raise and appropriate the sum of $225.00 for the proper observance of Memorial Day, and appoint a committee to expend the money. Said committee to be taken from members of the G. A. R., Spanish War Veterans, and American Legion, and Sons of Veterans.

ART. 10. To see if the Town will authorize the Selectmen to institute suits on behalf of the Town or defend any suits that are, or may be brought against the Town.

ART. 11. To see if the Town will vote to raise and appropriate the sum of $150.00, or some other amount and elect a director; the money to be expended by and the director to serve in cooperation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, under the provisions of Sections 40 to 45, Chapter 128, General Laws of Massachusetts.

ART. 12. To see what sum of money the Town will raise for repairs, alterations or additions to the North Tewksbury school house, or take any action relative thereto.

ART. 13. To see what sum of money the Town will raise for the purchase of one or more buses for the transportation of school children, or what action the Town will take towards such purchase.

ART. 14. To see if the Town will vote to purchase or take by eminent domain land of Mary Lynch, an area of about two acres adjoining the Foster School House lot, for the enlargement of the present school house lot, and to see what appropriation of money the Town will make for said purpose, as provided in Section 14 of Chapter 40 of the General Laws.

ART. 15. To see if the Town will vote to raise and appropriate $3000 for oil or other binder or take any other action relative thereto.

ART. 16. To see if the Town will vote to raise and appropriate a sum of $2500 for cinders or gravel to be used in South Tewksbury.

ART. 17. To see if the Town will vote to accept Vernon Street as laid out on the plan filed with the Town Clerk.

ART. 18. To see if the Town will vote to accept Coolidge Street and Heath Street as laid out on the plan filed with the Town Clerk.

ART. 19. To see if the Town will vote to raise and appropriate the sum of $1000 to buy a new road scraper with scarifier attachment for the Highway Department or take any other action relative thereto.

ART. 20. To see if the Town will vote to cinder or gravel River Road, from Andover St., to the resi dence of Howard Foster, and raise and appropriate money for same, or take any other action relative thereto.

ART. 21. To see if the Town will vote to raise and appropriate a sum not to exceed $500, to lower the grade of the culvert on East St., near the land of Mr. Spaulding, or take any other action relative thereto.

ART. 22. To see if the Town will vote to sell the Town teams and buy one or more Ford dump trucks and raise and appropriate money for same, or take any other action relative thereto.

ART. 23. To see if the Town will vote to raise and appropriate the sum of $100, to rebuild culvert on Rogers St., above the junction of Pike St.

ART. 24. To see if the Town will vote to place cinders or gravel on Rogers Street from Main Street to the residence of Mr. Walsh, and appropriate a sum not exceeding $200, for same. Said sum to be raised and included in the regular Street department appropriation.

ART. 25. To see if the Town will vote to place one street light on Clark Road, near the property of George Garland.

ART. 26. To see what action the Town will take to continue the street lights from Baldwin's Station to the residence of Wm. Colby on Pinnacle St., appropriate money for same, or take any other action relative thereto.

ART. 27. To see if the Town will vote to install electric lights on Shawsheen St. from the present terminal, at Burtt's crossing to the residence of George Winters, make appropriation for same or take any other action relative thereto.

ART. 28. To see if the Town will vote to install electric lights on Ballard St., from Burtt's corner to Shawsheen St., and on Shawsheen St. to the residence of Anthony Silkinnis, make appropriation for same, or take any other action relative thereto.

ART. 29. To see if the Town will vote to install a warning signal on Main Street, at Chandler, appropriate money for same, or take any action relative thereto.

ART. 30. To see if the Town will vote to install one 1000-candle power electric light at the junction of Chandler and Main Streets, and make appropriation for same, or take any other action relative thereto.

ART. 31. To see if the Town will vote to instruct the Board of Selectmen to confer with the officials of the Eastern Mass. St. Ry., the Lowell Electric Light Corp., the New England Tel. & Tel. Co., and any other person or firm having poles located at on near the junction of Chandler and Main Streets; and have any or all poles used for the carrying of electric light power or telephone wires re-located so as to make automobile and other vehicular traffic safer at this point.

ART. 32. To see if the Town will vote to increase the salary of the Town Clerk from two hundred dollars to three hundred dollars per year or take any other action in regards thereto.

ART. 33. To see if the Town will vote to abolish the Highway Commissioners, and to vote for the care of the roads to be placed in charge of the Board of Selectmen.

ART. 34. To see what sum of money, if any the Town will appropriate for cutting and burning brush, or take any action relative thereto.

ART. 35. To see if the Town will vote to install electric lights on South St., from Salem Road to the residence of P. J. O'Neil or install lights on any other portion of said street, and make appropriation for same or take any other action relative thereto.

And you are directed to serve this Warrant by posting up attested copies thereof, one at each of the Public Meeting Houses, one at the Town Hall, one at each of the Post Offices, and leave one hundred copies for the use of the citizens at the Post Offices in said Town, 10 days at least, and over two Sundays, before the time of holding said meeting.

Hereof fail not and make due returns of this Warrant, with your doings thereon, to the Town Clerk at the time and place of Meeting as aforesaid:

Given under our hands, this eighth day of January, in the year of our Lord, one thousand nine hundred and twenty-seven.

IRVING F. FRENCH,
WILLIAM H. KELLEY,
JEREMIAH K. CHANDLER
} Selectmen of Tewksbury.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF TEWKSBURY

ALSO REPORT OF
THE SUPERINTENDENT OF SCHOOLS

FOR THE

FISCAL YEAR ENDING DECEMBER 31, 1926

REPORT OF THE SCHOOL COMMITTEE FOR THE YEAR 1926

The work and supervision of the Schools has been carried on as usual. The Foster School because of the previous remodelling has required very few repairs. The lunchroom has been supplied with extra tables making it possible for most of the children to be seated for their lunch.

For economic reasons it seemed advisable to the Committee to close the Spaulding School Building. The first grade has been moved into the extra room at the Foster School.

No repairs have been done at the North School, as a special committee was appointed at the last Town Meeting to report on plans for an addition which the Committee have felt was very much needed.

During the summer the school rooms and coridors of the Shawsheen School were painted. Electric lights have also been installed throughout the building.

Respectfully submitted,

HERBERT L. TRULL, Chairman
MAY L. LARRABEE
ARTHUR A. FOSTER, Secretary

REPORT OF COMMITTEE TO INVESTIGATE NORTH SCHOOL

Report of the Committee appointed at the last Annual Town Meeting to investigate conditions at the North School.

Final meeting held at the Town Hall, Friday evening, Jan. 7, 1927.

After examining several plans shown by the Chairman, Herbert L. Trull, it was voted to recommend that the Town build a one room addition, similar to plan shown.

It was also voted that the Committee recommend that the Town appropriate the sum of $10,000, for alterations and additions to the North School.

Respectfully submitted,

HERBERT L. TRULL, Chairman
JOHN L. FLEMING
ETHEL B. BENNETT
MAY L. LARRABEE

Dedicated to the Memory of

HECTOR JACKSON

A Gallant Soldier
A Faithful Official
A Loyal Friend
A Christian Gentleman

The School Committee recommend the following sums be raised to cover expenses for the year 1927:

Teachers	$ 17,100.00	
Supervision	1,500.00	
Superintendent	1,225.00	
Health	1,400.00	
Fuel	1,800.00	
Janitors	3,755.00	
Transportation	8,900.00	
Tuition	9,300.00	
Books and Supplies	2,000.00	
Insurance	800.00	
School Houses	900.00	
Miscellaneous	1,000.00	
		$ 50,380.00

FINANCIAL REPORT FOR 1926—EXPENDITURES

Tuition	$ 9,177.54	
Teachers and Supervision	18,426.35	
Fuel and Janitors	5,417.44	
Superintendent	1,225.08	
Transportation	8,838.99	
Books and Supplies	2,450.72	
Houses	1,044.84	
Nurse	1,148.33	
Medical Inspection	200.00	
Miscellaneous	1,496.94	
		$ 49,426.23
Unexpended Balance	1,013.77	
		$ 50,440.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Tewksbury,
Mrs. Larrabee and Gentlemen;

I herewith submit my fourteenth annual report which is the thirty-sixth in the series of Superintendents' Reports.

The school year has been marked by consistent, faithful work, and by distinct progress in several lines.

Supervisors and Teachers. Miss Elizabeth Ward, who had but started in her teaching career, resigned in June to be married. From among several applicants Miss Mildred Smith, a graduate of the Rhode Island School of Design, was selected for the position of Supervisor of Drawing left vacant by Miss Ward's resignation.

Miss Catherine Graham and Mrs. Sarah Loupret, each of whom had done satisfactory work, resigned to teach in Lowell.

Miss Pauline Angier who had taught successfully in Dracut was selected by the Principal of Lowell Normal School to fill the vacancy at the North, and Miss Anna Sullivan, a recent graduate of the Lowell Normal School, and a Tewksbury girl, was selected for the West School. Each of these new teachers is starting the year's work with promise of success.

I am very glad that no other change among our teaching staff occurred. It is of untold benefit to our schools to keep efficient teachers for a tenure of several years at least.

Miss Lena Coburn who has taught sewing in the Foster School for several years is absent this year with the consent of the School Board. We expect that Miss Coburn will resume her work in September. Her place is filled by a substitute.

North. Last year I called to your attention the situation at the North School. The situation is unchanged. There are more children in the primary room than can be properly cared for, you will remember that this room was never intended for a school room, but simply for a recitation room for the training teachers.

The committee selected a year ago has prepared plans for enlarging this building. If the town cares to adopt these plans and build and addition to this school money may later be saved by keeping the pupils of the eighth grade at the North instead of transporting them to the Foster School.

Spaulding. The Spaulding School has been closed this year and all grades placed under one roof at the Foster School. From this fact it may be argued that the addition to the Foster was not needed. However, this is not the case, the fact is that only six rooms were used at

the New Foster when it was completed less that two years ago. These six rooms with the two rooms at the Spaulding housed the pupils at the Center. We consider it much more economical to place all eight rooms in one building as long as we are able to do so. The Spaulding School will be retained to be used in an emergency, it may be re-opened soon.

Shawsheen. I am pleased to report that this school has been wired for electric lighting. The primary room is the darkest of any room in town, and on cloudy days it was impossible for the pupils to work with their eyes. The lights will be found most useful.

The heating plant here which has always been unsatisfactory has been remodeled and renewed. There has been no opportunity to prove the worth of these changes as yet this season, but it is hoped that it will be possible to heat the building, and to equalize the heat between the rooms. This school has hitherto lost many days each winter on account of failure to heat the building.

Change in Committee. The sudden death of the Chairman of the School Board in the latter part of March was a great blow to the pupils of the Foster School. All knew Mr. Jackson and respected him as Chairman of the Board, admired him for his war record, and personally liked him for his kindly, genial nature. The graduating class presented a large picture of Mr. Jackson to the school last June. And the present eighth grade has named their new school city, recently formed, Jackson City.

The School Board felt the loss of its chairman keenly but considered it fortunate that Mr. H. L. Trull, formerly a member and chairman of the Board, consented to return and again act in that capacity.

Census. There is no marked change in the enrollment in the schools this year. The report on the school census which has just been taken in accordance with a revision of the state law follows:

Number of boys 5 to 7	48	
Number of girls 5 to 7	47	total 95
Number of boys 7 to 14	175	
Number of girls 7 to 14	180	total 355
Number boys 14 to 16	48	
Number of girls 14 to 16	33	total 81
	Total	531

of these minors under 16 years of age 46 are in high school, one in vocational school, and 17 in private schools.

Institute. On Feb. 10, 1926 was held at the Parker Avenue School our second annual institute for the teachers of Dracut and Tewksbury In spite of one of the worst blizzards of the winter the day was a marked success.

There were sectional divisions in the forenoon in which the teachers with their classes took part. After a good lunch served by the ladies of the Hillside Church all met in the assembly room for a half hour of music under the direction of Miss Gregory. Two valuable and inspiring addresses were given by Supt. Bernard Sheridan of Lawrence and Rev. Percy E. Thomas of Lowell. Mrs. Larrabee who was present spoke in behalf of the Tewksbury committee and invited us to hold the institute in the New Foster School this winter.

Curriculum Activities. Since the change mentioned a year ago to departmental work in the seventh and eighth grades great interest has been shown among the teachers in developing the subjects which they are daily teaching. In order to encourage this interest, and also to take advantage of the special study on the part of the teachers, I have invited teacher co-operation in working out new courses in English, History and Georgraphy. Miss Howard and Miss Newbegin have prepared for me an outline in English which is now being tried. The same is true of Geography as prepared by Miss Spaulding and Miss Griswold, and of History by Miss Bragdon and Miss Bolton. I hope to enlist others in similar undertakings.

Banking. You will observe that Interest is kept up in the school banking. The sum of $1596.18 which your pupils have deposited within the year is a very considerable one. Often the deposits have been at the rate of $75 per week. In addition to the actual savings the habit of thrift is inculcated which it is hoped may reach over into the pupil's mature life. The dealings which the schools have with the Mechanics Savings Bank of Lowell have from the first been most pleasant.

Lunch Hour. About two hundred pupils at the Foster School carry their lunches, and must of necessity eat a cold lunch. The building committee of the New Foster School prepared facilities for a very good kitchen in the basement, with plenty of room for tables in the girls' "playroom". Tables have been built, dishes and utensils secured, arrangements have been made with Mrs. Maclaren to teach the girls and supervise the entire luncheon hour.

Simple, nourishing foods, soups, hot meat sandwiches, etc., together with hot cocoa are served at a minimum expense during the cold months of the year. Look in at 12-15 any school day and you will find some two hundred pupils with their teachers taking advantage of

the hot lunch. The school physician and the nurse working under his direction are doing all that is possible for the health of your pupils.

Transportation. It is always an important and unsatisfactory task to transport children. About ninety pupils come to the Foster from Wamesit, and about twenty from Shawsheen. Both of these groups by trolley, we pay the Eastern Massachusetts Street Ry. Co. approximately $300 per month for carrying these pupils. There are ninety-two pupils from Tewksbury in the Lowell High School who must be transported. The school bus owned by the town and driven by James Manley carries forty. The barge from the West driven by Asahel Jewell carries twenty, more or less. There is also a small car from the North with five pupils. The total cost for transportation at the Foster and to the High is from $8500 to $9000.

Besides the cost the fact is evident that there is considerable dissatisfaction with the trolley service. Many complaints come to the committee of the conduct of pupils on these cars. This is always the case where large numbers of pupils are transported by public conveyance, it is no more true of Tewksbury than of other communities, perhaps less, but the complaints constantly reach us.

Many towns are transporting all their pupils by motor trucks. I believe that the time is ripe to consider this matter very carefully. Two trucks could do the work. Take the high school pupils from the Town to the city in the morning, returning with the Wamesit pupils to the Foster. After which one truck would drive down the boulevard for the Shawsheen pupils, the other get the children from the West. I think that the scheme can be worked out successfullly.

Water at the Foster. It is a constant source of trouble and expense when the water system fails. Such a good school plant as the New Foster should have a good water supply. I mentioned last year an experiment that the town of Dracut was about to make with a well in which the water had been condemned. The experiment was carried out this past summer at the Kenwood School. The well was redriven, re-inforced, and is in constant use. Good water can be located in Tewksbury as well as in Dracut. I believe that this should be cared for by a special appropriation.

Parent Teachers Association. Tewksbury has had a Parent Teachers Association for five years. Every year the association does some especial thing for the schools of the town. This is at it should be; The mission of such an organization is two fold, to become more sympathetically acquainted with the teacher and the school, and to do some specific thing for the pupils which otherwise would not be done.

I quote directly from a letter written by Mrs. Mahoney, President of the P. T. A. of this town. "During the past year the association has given pictures to the new rooms in the Foster School, prizes to pupils in the different schools for perfect attendance, and pins to children in the seventh and eighth grades having 100 percent in a music test. The true significance of the Parent Teacher movement is to make our children happier and healthier, our homes better places in which to live, to help and encourage our childrens' teachers. If from every meeting of our association each member goes home with the conviction that he has an individual responsibility for the creation of better conditions for the children in the homes, the school and the community, then and then only are we performing the tasks with which we have been entrusted."

Playground. I can add nothing on this subject to what I reported last year. There are each day at the Foster School some 360 children. A playground is necessary. For about ten years we have hired the Lynch lot at the Northwest side of the school yard. The price of rental has increased. Besides this there are several places where a small amount of grading, such as dumping the ashes from the building would add to the value of the lot as a playground. I am firmly convinced that the town should own this land.

Manual Training and Sewing. No exhibit was held in wood working this past June on account of the protracted absence of the instructor, Mr. George Robeson who was the victim of a serious accident. The work is progressing this fall, and we hope for an excellent showing in June.

In sewing we are handicapped because of the absence of the teacher, Miss Lena Coburn. Miss Coburn has always done such excellent work that we did not try to fill her place permanently.

Miss Alice Hearn, a graduate from Lowell Normal School who possessed certain qualifications in sewing was selected to serve as a substitute. After some twelve weeks, Miss Hearn received a permanent position and gave up the work with us. At the present time Miss Gertrude Whelton, also a graduate of the "Normal School" is carrying on the sewing.

Graduation. On Friday, June 25, 1926 at the Town Hall the graduation of the eighth Grade from the Foster School was held.

After suitable exercises Mr. Herbert L. Trull, Chairman of the School Committee presented diplomas to the following pupils:

Florence Banville, Carolyn Blanchard, Alice Crosby, Thetis Darby, Dorothy Foster, Alice Garside, Dorothy Galucia, Adella Greene, Veronica Kazetta, Elsie King, Harriet King, Edith Marion, Irene Meister, Gladys Penney, Katherine Stevenson, Ella Sutherland, Wesley Barron, George Blair, John Blaisdell, Angus Cameron, Frank Flaherty, Fred Flaherty, Vincent Gelinas, Efraim Hedstrom, Donald Johnson, Joe Jordan, Antonio Lambert, Ernest Livingston, Collin McKillop, Louis Marion, Paul McCoy, Richard Morgan, William Pupkis, Eugene Sawitzky, Arthur Sparkes, David Sutherland, Francis Vogt, Emile Lambert.

Of these thirty-eight graduates, 25 entered high school, 1 attended vocational school, 7 remained at home, 4 left town, and 1 is taking a graduate course at Foster School.

High School. In September 1926 the following pupils were entered from Tewksbury at Lowell High School: Max Abrams, Helen Amiot, Wesley Barron, Mary Barousky, William Barousky, Francis Battles, Doris Blake, George Blair, John Blaisdell, Beatrice Bolton, Mildred Bolton, Julia Botos, Joseph Byron, Eileen Carmody, Nellie Chase, Alice Clancy, Gertrude Colby, Annette Cote, Thetis Darby, Dorothy Davies, George Davies, Janice Farmer, Robert Farmer, Ethel Fletcher, Ruth Fletcher, Bertha Flint, Alfred Forget, Dorothy Foster, Marion Foster, Evelyn Fuller, Mary Furtado, John Gale, Emma Galencia, Ruth Garland, Anna Gelinas, Vincent Gelinas, Adella Greene, Marion Guyer, Anna Haas, Olive Haines, Efram Hedstrom, Donald Johnson, Dorcas Johnson, Joseph Jordan, Ruth Jordan, Gertrude Kane, James Katsirebas, Louise Kelley, Ruth Kelley, Elsie King, Harriet King, Herbert Larrabee, Wilbur Livingston, John Mahoney, Viola Marr, Edith Marion, Louis Marion, Paul McCoy, Collin McKillop, Irene Meister, Nicholas Metaxas, Louise O'Connell, William O'Neil, Raymond Palmer, Herbert Parker, Marie Parsons, Gladys Penney, George Peterson, Edward Pineau, Alexander Pinkos, William Pupkis, Amy Rambotham, Marion Rambotham, Harold Roberts, James Roberts, Churchill Rood, Bernice Roper, Grace Roper, Eugene Sawitzky, Robert Sawyer, Ruth Sawyer, Carrie Scarlett, Dorothy Small, Thelma Small, Arthur Sparkes, Katherine Sullivan, David Sutherland, James Toothaker, Arthur Trull, Velma Trull, Mary Watson, Edward Wener, Ernest Livingston.

Conclusion. In conclusion I call to your attention the special reports which immediately follow and form a part of this report, and again do I wish to express my thanks and appreciation for the loyal co-operation of teachers and supervisors, and the cordial support of the School Board.

Respectfully submitted,

CHARLES L. RANDALL,
Supt. of Schools.

REPORT OF THE SUPERVISOR OF MUSIC

To the Superintendent and School Board of Tewksbury:

As a part of one's education it is worth while to learn to read music and sing in a chorus or glee club; to learn to play an instrument and sing to amuse one's self; to learn to read music and acquire a knowledge that can be used to advantage if one wshes to consider music seriously. The routine work of the school room includes individual and group singing, theory drill, music appreciation, and in the seventh and eighth grades a music memory contest.

The past year the teachers and pupils have given entertainments and in other ways helped earn money so that we now have new victrolas, where they were needed, also records for one of the greatest projects for music education ever put forth, that of music appreciation.

The entire plan of this course is based on the great educational principle "Proceed from the **Known** to the **Unknown**". The first records used contain songs which have become familiar to the class thro singing. Songs from their music readers are played by different orchestral instruments, both in solo form and in combination. The songs are the **known** factor in this experience, the **unknown**, the medium of expression. These form the first arch of the bridge over which the child passes with interest to the unknown field of instrumental music. Familiar songs characterized by strong rhythmic accents, are grouped as rhythmic songs and form the second arch over which the pupils pass to instrumental music which is unfamiliar. Thru familiar music the medium of expression become familiar, and so every step establishes the pupils in definite habits of discriminative listening, with cultural effects.

In the annual Music Memory contest the pupils made a very good average, but the banner went to Kenwood, whose average was the highest. The 100 percent pupils were presented with perfect score pins by the Parent-Teachers Association. Money earned at the last entertainment of the Foster School was used for records and playground necessities. The West School is buying a new victrola and have a complete set of records. The money was raised by a concert and social, given by the teacher and parents of West Tewksbury. The pupils entertained at one Parent-Teachers meeting during the year.

At this time I wish to thank our Superintendent, Mr. Randall, for his help and co-operation, and the teachers for their splendid co-operation, also the Parent-Teachers Association for their gift of score pins.

Respectfully submitted,

ISABEL M. GREGORY,
Supervisor of Music.

REPORT OF SCHOOL PHYSICIAN

To the School Committee of the Town of Tewksbury:

Gentlemen:

The past year has shown progress in improving the physical welfare of our school children. Warm lunches have been provided under the supervision of the nurse, at cost to the child, during the cold months and a fresh milk supply of excellent quality is delivered daily for those particularly, who are underweight. I commend the school committee for their interest and results obtained in this improvement of nutrition endeavor.

Our school nurse has been proving her value to the school system this past year in superlative way. She has supervised lunch hours and the quality and preparation of these lunches. Her attendance at the different clinics, driving the children in her own car and returning them to their homes has been constant and very helpful. Within a few weeks she has worked unceasingly with the school physician and the State physican and nurses, loaned us in our emergency, to stamp out scarlet fever. A good nurse has become an absolutely indispensable part of our system.

I want to express here my appreciation of the assistance, freely given me, by the State Infirmary physicians and nurses, through the consent of their superintendent in our recent daily examination of the 300 children in the Foster school. One more question is before me, which is made more pertinent each time we have an outbreak of disease in the Foster School. The water supply. I believe that another year we should have a driven well supply which would be acceptable to the Health Dept. If new land is acquired as anticipated I believe that we could find water there that would give us a permanent supply. This water supply problem must come sometime, why not next year. Let us keep it in mind as a near necessity.

Respectfully submitted,

HERBERT M. LARRABEE, M. D.,
School Physician.

REPORT OF SCHOOL NURSE

To the Superintendent and the School Committee of Tewksbury:

As school nurse I submit the following report for the year 1926:

I have made two hundred and ninety six visits to the school. Every child in school has been weighed and measured every two months and a record sent home. In September more than seventy one percent of our children were underweight and almost twenty percent were in the dangerously underweight class. In December most of the children had made substantial gains. I believe this is due to the establishment of regular habits that come with the opening of school but I do wish these good habits would carry through the summer months.

I have made one hundred and twenty seven visits to the homes. Most of the parents have been willing to co-operate with me to obtain corrections and control contagious diseases. I have taken one hundred and nineteen children to Dental clinics and thirteen to the hospital for the removal of tonsils and adenoids. I have obtained corrections in vision for four children.

Dr. Larrabee has vaccinated twenty eight children in school and thoroughly examined fifty children. I tabulated the defects found and will try to have them corrected. I have done eighty seven simple dressings in school.

During November and December the children of the Foster School were exposed to Scarlet Fever. Dr. Larrabee and I have done everything possible to prevent the spread of the disease. All children were examined at frequent intervals. All children with suspicious looking throats were segregated and their temperatures taken. Children with elevate temperatures were sent or taken home and told to remain at home until I called and found them normal. During the time children in five families have had the disease.

Last winter I borrowed slides from the State Dept. of Public Health and gave illustrated talks on Health subjects.

During January, February and March I served hot lunches to the children of the Foster School. I think the venture has been a success and is a decided benefit to the children. The first of December I began to serve hot lunches again and more than a hundred children are benefiting by them.

Respectfully submitted,

EMMA P. MACLAREN,
School Nurse.

January 7, 1927.

REPORT OF THE SUPERVISOR OF DRAWING

To the Superintendent and School Board of Tewksbury:

What a wonderful word—Art and how much it brings to our minds when mentioned. We immediately think of the beautiful. The child certainly appreciates the beautiful just as well as an older person. That is one reason why Drawing is taught in the grades.

In the first grade the young child learns the colors—next they trace around patterns and color.

This is all very slow at first but by the end of December the children are quite capable of drawing vegetables, fruits, flowers, and simple landscapes.

Lets step into a second grade room for just a minute, we find the drawing lessons practically the same as grade one, with the exception that grade two can carry the problems further along and their work is neater.

The drawing in grades three and four show a big change over the work in grades one and two.

In September they study carefully the wild flowers and berries. We find them noticing the way the leaves grow from the stem also the buds and flowers. This is a big step over the way their flowers were drawn in grades one and two.

In October the study of the ruler is taken up.

November finds the third and fourth grade child printing the alphabet on squared paper and by the end of December their little Xmas problems with measuring and lettering appearing on them, show us they have accomplished quite a bit in four months time.

In grade five I feel that it is safe to place Water Colors The child by this time has learned to be careful and economical. Paints are very expensive to buy, therefore children must be taught to use the paints sparingly and carefully.

Grade five also shows us another step in drawing. The teaching of "Perspective, or Appearance Drawing."

In grade six the color work we notice is of a better quality—this being because of practice in handling the brush and colors.

The problems given are practically the same as in grade five.

Into grade seven and eight and we find the class as a whole going into more detail. We especially notice this in Nature Work. The careful drawing of the way the buds and flowers grow from the stem, showing us the beautiful curves and twists that appear in nature, it is often times unnoticed unless studied.

The students choose units and motives suggested by their nature work and create very beautiful designs, which are used in their next problem an all-over pattern, which is painted in two colors and black.

In December, grade seven and eight review the upper and lower case letters and numerals.

Their lettering is worked up into attractive Xmas problems such as calendars and Xmas Greeting Cards.

The Aim of the course is to increase manual skill, develop creative ability and form habits of accuracy and neatness.

Respectfully submitted,

MILDRED D. SMITH,
Supervisor of Drawing.

Town Clerk.

RECAPITULATION

Births	43
Males	25
Females	18
Marriages Registered in 1927	36
Deaths Registered in 1927	41
Males	19
Females	22

Received and paid over to the County Treasurer seven hundred and four dollars and forty cents ($704.40) for dog licenses.

Received and paid to Town Treasurer one hundred ninety-four dollars ($194.00) license fees.

The Town Clerk hereby gives notice that he is prepared to furnish parents, householders, physicians and midwives applying therefor, blanks for the return of births as required by law. Births reported after this has gone to press do not appear in the above report, but are on the Town Records. That these records may be complete, the Town Clerk would appreciate any and all information of births occuring which are not in this report.

Attest:

HARRY C. DAWSON,
Town Clerk.

TRUST FUNDS

Condition of funds, January 1, 1928;

Foster School Fund	$ 1,110.41
Surplus War Bonus Fund	1,186.62
Samuel Jacques Fund	110.05
Ebenezer Page Fund	321.80
Jeremiah Kittredge Fund	110.05
Peter G. Clark	115.07
Louisa Bridge	141.50
Martha Shedd	490.88

I hereby certify that I have examined the accounts of Town officers who were authorized to receive and expend money, for the year ending Dec. 31, 1927 and to the best of my knowledge they are correct, with proper vouchers on file, and $6,232.01 in the treasury.

ROBERT E. GAY,
Town Auditor.

The above named Robert E. Gay appeared before me on this seventeenth day of January, 1928 and made oath that the foregoing statement was correct.

THOMAS F. FLYNN,
Justice of the Peace.

TREASURER'S REPORT

Dr.

Cash on hand Jan. 1st, 1927	$ 9,783.17

Collection of Taxes	2,000.00

REPORT OF INSPECTOR OF MEATS AND PROVISIONS

To the Selectmen of the Town of Tewksbury,
Tewksbury, Mass.,
Gentlemen:

Following is my report as Inspector of Meats and Provisions from January 1, 1927 to March 9, 1927:

Number of sides of beef inspected	268
Number of sides of beef condemned	4
Number of calves inspected	156
Number of calves condemned	2
Number of hogs inspected	130

Respectfully submitted,

HUGH CAMERON

INSPECTOR OF MEATS AND PROVISIONS

To the Selectmen Town of Tewksbury,
Gentlemen:

Following is my report from May 16th to December 31, 1927.

Sides of Beef	550
Calves	413
Sheep	23
Swine	334

Cattle Condemned

Sides of Beef	14
Sets of Lungs	36
Livers	14
Heads	12

Swine Condemned

Swine	8
Heads	14
Sets of Lungs	6
Livers	4

Calves Condemned

Calves	5

Respectfully submitted,

THOMAS P. SAWYER.

REPORT OF INSPECTOR OF ANIMALS

To the Selectmen of the Town of Tewksbury,
Tewksbury, Mass.,
Gentlemen:

Following is the report of the Inspector of Animals for the year ending December 31, 1927: :

Cows inspected	790
Young cattle inspected	127
Bulls inspected	20
Sheep inspected	4
Hogs inspected	392
Stables inspected	101

Respectfully submitted,

HUGH CAMERON

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Selectmen of the Town of Tewksbury,
Tewksbury, Mass.
Gentlemen:

Following is my report as Sealer of Weights and Measures for the year ending December 31, 1927:

Platform scales over 5000 lbs.	3
Platform scales under 5000 lbs.	3
Computing scales	14
Spring scales	16
Liquid measures	18
Gasolene pumps	32
Kerosene pumps	11
Beam scales	1
Molasses pumps	2
Yard sticks	2

I have collected and turned over to the Town Treasurer $27.53.

Respectfully submitted,

HUGH CAMERON

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen,
Gentlemen:

As Tree Warden I submit the following:

During the past year brush was cut on the following streets with the mileage of same: Andover St. 1 mile, Trull St. 1.02 miles, Bailey Road, .02 mile, Kendell St. 1.06 miles, Maple St. .06 mile, East St. 1 mile, Lowe St. .05 mile, Shawsheen St. 4 miles, Foster St. 1.02 miles, Chandler St. 2.06 miles, Pleasant St. 1.01 miles, Whipple St. 2.05 miles, Park Ave. .02 mile, Rogers St. 1.08 miles, Marston St. 1.02 miles Marshall St. .05 mile, Cross St. .06 mile, Pond St. .07 mile. This makes a total of 22½ miles cut and burnt to date which is more than half of the total mileage to be cut. I would recommend that money enough be appropriated to cut and burn brush on South 3 miles, Bridge St. .03, Whipple St. 1.04, Astle St. .08, French St. .05 and the upper end of North St. about .06 of mile. Also the recutting of all streets that have been done the past two years. Trees which were considered dangerous have been pruned or removed as far as our appropriation would allow.

Yours Respectfully,

HARRIS M. BRIGGS,
Tree Warden.

REPORT OF AGENT FOR SUPPPRESSION OF GYPSY AND BROWN TAIL MOTHS

To the Honorable Board of Selectmen,
Gentlemen:

As Agent for the suppression of the Gypsy and Brown Tail moths I submit the following:

Gypsy moth conditions show a slight increase over last year both on street trees and in the woodlands. The Brown Tail moth infestation is light and seems to be held in check by parasites. The usual spraying was done during the larvae season. Owing to large increase of Gypsy moths in neighboring towns considerable scouting was done in the woodlands. Am glad to report that very few colonies of any consequence were found and I think these can be checked with spraying.

Yours Respectfully,

HARRIS M. BRIGGS,

REPORT OF HEALTH DEPARTMENT

Gentlemen:

As agent of this department, the following is my report for the year ending December 31st, 1927:

Reportable Cases

Diseases	No. Cases	Deaths
Scarlet Fever	5	0
Diphtheria	5	0
Measles	4	0
Mumps	2	0
Chicken Pox	1	0
Tuberculosis	2	1
Pneumonia	4	1
Typhoid Fever	0	0
Total	23	1

The health condition has been average in its course the past year, our few outbreaks of contagious diseases have been quickly surrounded and stopped with relatively few cases. A few cases in volume house drainage, in the South part of our town, have been presented to us for investigation. These we have tried to correct, but as there have been no contaminations, that seemed to be accountable for any contagious diseases, we could not see our way clear to enforce too strict regulations as this would lead to some general system of drain of sewerage. This seemed impracticable, because of the large increase in taxes, which would result; and health conditions did not warrant that.

On account of the fact that one of our townsmen was receiving treatment for tuberculosis at a state sanitarium, we had a larger health expense than usual, so that the examination and giving of permits for the making and selling of milk in our town had to be deferred until the coming year. This is to be done so that our town will be in a position to quickly investigate and stop the spread of any disease, which might come through a milk supply and cause general contamination and disease.

I believe this survey should be done at the expense of the town and from the health appropriation, rather than levy any additional tax upon the farmer, as the benefit derived will be enjoyed by all milk users.

Respectfully submitted,

HERBERT M. LARRABEE,
Agent.

REPORT OF HIGHWAY COMMISSIONERS

Board of Selectmen:

Tewksbury, Mass.

Gentlemen:

We herewith submit our annual report for the year ending December 31, 1927.

Before proceeding further, however, we wish to state that we endeavored to make this report as comprehensive as possible and outline the work in the various sections of the town during the past year.

The snow removal on Main Street (State Highway) has been a problem confronting your various highway officials for some time past. Last February, however, the Department of Public Works of the Commonwealth loaned our department a ten foot Champion blade plow with truck attachment which was used effectively on this thorofare, and also on Andover Street as well as other important routes in the town. Since then, a new statute has been enacted whereby the State assumes all responsibility for the removal of snow and ice on its highways, and our Highway Department is no longer required to do this work.

Special Appropriation $1000.00

After carefully considering the various types and makes of road graders, and their advantageous points as regards their use in our town, we decided to purchase an Adams No. 8 leaning wheel grader. This grader is designed to be used in connection with a five ton tractor. In the event of horses being used, it would require at least eight horses to operate successfully. It has been used during the past year both as a scarifier, grader, and snow remover, and has performed every operation successfully. The town is fortunate in having so valuable a piece of machinery.

Special Appropriation $2500.00

As soon as favorable weather conditions prevailed, an order was placed for cinders to be used on streets in South Tewksbury as provided for in the special appropriation. We were able to purchase the cinders at the rate of one dollar per cubic yard delivered on any street designated by the Commissioners, and consequently were able

to purchase twenty-five hundred cubic yards. The cinders were used on Vernon Street, entire length; State Street, entire length; South Street, from a point near mud pond to Foster's Corner. Brown Street from South Street to a point near the Boogusch residence, and a portion of Shawsheen Street.

Cinders were also used on Trull Street, French Street, Astle Street, and Rogers Street, but these were purchased through our regular appropriation. We recommend the use of cinders on muddy roads in the outlying sections, as they will not form into ruts in the spring or fall, and they make an excellent base for a good gravel road bed.

Dynamite Magazine

Previously, the Highway Department had no official place, other than the town barn, to store dynamite or other high explosives used by the department. As the amount of dynamite kept on hand usually averages around two hundred pounds, it was deemed advisable to construct a dynamite magazine as a safety measure. It has been erected off Whipple Road near the old gravel pit, and is constructed of cement blocks, with a reinforced concrete roof and sets well into the hillside. Explosive experts have informed us that it is second to none in this vicinity. When the state fire marshall ordered all dynamite in the town confiscated by the fire department during the Sacco-Vanzetti trouble it proved it's worth to the town as a storage place.

Special Appropriation $500.00

The work of lowering the grade, and rebuilding the culvert on East Street near the residence of Mr. Spaulding, was done by our own department, and is in accordance with the blue print specifications furnished us by the surveyors. A reinforced concrete pipe culvert, four feet in diameter has been installed, and will last for years. It is also easily accessible for cleaning, as a man can walk through it. The portion of the street which was torn up for excavating has been patched with crushed stone and asphalt, and is in good shape. It is the intention of the Superintendent of Streets to erect a concrete wall on the northerly end of the culvert the coming season.

Special Appropriation $3000.00

Following the recommendation of the state engineer 45% asphaltic road oil was used on all our roads the past year, except where repairs were made on macadam roads, in which case asphalt was used. The object of using this oil is to bind the surface, as this oil pene-

trates and binds. The coming year, it is intended to apply 60% oil or tar and pea stone, which will give our main streets a good surface which will last for some time. Of course these streets, or portions of them, will have to be made smooth by scarifying and rolling before this final treatment is applied.

The following streets were oiled, full widths, and as a binder in preparation for tar or heavy oil at approximately one half gallon to the square yard. North Street, from the railroad crossing near East Street to Andover Street; Pleasant Street, from Main Street to Whipple Road; Chandler Street, from East Street to Pine Street; Pine Street from Chandler Street to the residence of Lewis Small; Whipple Road, from French Street to the residence of Melvin Rogers, and from the Furtardo residence to Elmhurst Farm; Woburn Street, from the Lowell line to the entrance of the Lowell Fertilizer Works; Salem Road from Main Street to the Wilmington line. All of these streets were well covered with sand after being oiled, and were dragged frequently during the summer. Oil applied on all other streets was at the rate of approximately one quarter gallon to the square yard, and was intended principally as a dust layer.

Through the courtesy of the manager of the Lowell Fertilizer Works, we were able to obtain, without cost to the town, large quantities of screened pea stone which was used in mixing cold patch to repair holes in our oiled streets. With the use of this stone, we were able to obtain excellent results in this work.

The use of a power mixer would be a valuable aid to our department for this work.

Streets Widened

The past year more attention was given to widening and straightening of our roads than to actual surface treatment. On Andover Street the grass growth was cut back from the macadam, and also from under the guard fence. North Street was widened practically the entire length. The grass growth ranging from two to six feet in width being removed from the edges of the street. The same is true of Whipple Road, Billerica Street, Pleasant Street, Rogers Street, Salem Road, Shawsheen Street, Lake Street, Chandler Street, East Street, James Street, River Road, Marshall Street, Pine Street, and Maple Street.

Nearly every principal street in town was scarified, reshaped, and rolled. Oil was applied in whole or part of the thoroughfare depending on conditions, and except in a few cases where the work was done so late, so as not to warrant the use of oil.

Andover Street

The condition of Andover Street caused our department much concern last spring, because of the rough condition of the surface.

When this road was built, it is evident that large boulders were not removed from the road bed. Consequently, these being within the frost area, are being upheaved each year, and thereby causing an unusually rough and dangerous surface. Tons of these were removed last summer, with the aid of the five ton tractor, and the places where they were removed filled with crushed stone which was penetrated with asphalt.

A large blind drain was constructed near Trull Street to take care of the water running from a spring at this point. Two more will have to be built the coming season to carry off the water from another spring nearby. The guard fence, which is by no means a small item was treated with creosote and painted with white lead to prevent deterioration and make it more visible especially at night.

Traffic markers in the form of white crosses were painted on the macadam at the various intersections, and these proved quite effective and an aid to motorists in determining their close proximity to cross roads.

All our bridges, and one culvert were posted with good substantial signs, giving the safe load limit each will carry.

New guard fence was erected in many dangerous places, and in each case where new fence was erected the posts were treated with creosote, and the fence painted white. In cases where autos have damaged guard fence, a bill was mailed to the offending autoists for the full cost of replacing the same, as we do not believe that the town should suffer such losses. On Andover Street large portions of guard fence were destroyed in this manner last fall.

A portion of Bridge Street was closed last summer because of it's dangerous condition, and we recommend that it be closed and abandoned permanently by the town.

Through the co-operation of Chief Haines of the Fire Department in assigning Engine 2 to pump water for us, and Supt. of Streets Shanks of Chelmsford in loaning our department a root cutter and pipe cleaner which was operated by water pressure from a fire hose, we were able to flush the entire drainage system at Tewksbury Center. During the process of flushing, we discovered our main sewer pipe was broken under North Street and a gas main run through it. We believe this to be the principal cause of the water collecting on Pleasant Street in front of the town hall, as we have not had this occur since the obstruction was removed. The work of removing the trouble was done by the employees of the Lowell Gas Light Company.

The two tractor snow plows were repainted with so-called federal orange and black paint for preservation purposes, and to make them more visible in a snow storm. The horse drawn plow was also painted with the same colors.

The culvert on East Street near the State Infirmary which had become blocked some time ago was reopened and cleaned. An extension of fifty feet of ten inch tile sewer pipe was laid so as to carry both surface water, and that which ran through the culvert, thus eliminating an undesirable condition at this point.

On Bridge Street, we are confronted with a serious situation. The bridge over the Shawsheen River is in very dangerous condition, and will either have to be closed or rebuilt in the near future. This bridge was condemned by our Superintendent of Streets in September, and by the state bridge engineers in December. Both supporting walls have buckled, while the wooden supports have all decayed. We recommend that a new concrete structure be erected at this point.

The bridge on Mill Street will have to be replanked and strengthened considerably, but the cost of this probably will not exceed two hundred fifty dollars.

A special study was made during the past year to obtain the cost of the various operations in the department, as we believe this to be of more value than to state the amount of work done or the amount of gravel placed on a certain street. The cost of using horse drawn equipment is exceedingly high, and the process slow. An immediate change is recommended, and it is hoped that the voters will look favorably on this recommendation.

As regards snow equipment the town is in dire need of a new tractor and snow plow,and unless this is forthcoming, the process of removing any large amount of snow will be slow and inconvenience will result.

Respectfully submitted,

WILLIAM I. BAILEY, Chairman
JOHN T. GALE
Highway Commissioners of Tewksbury.

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen,

Gentlemen:

As Park Commissioners we submit the following report:

The common at the Centre has been exceptionally well kept as has been the plot at North Tewksbury.

Repairs to the band stand that were so badly needed have been completed. (These included construction of cement posts, relaying of the floor, and painting of the entire structure.)

At the present time the Commission has on hand enough dressing to meet the needs of the common for the year 1928.

Another accomplishment of interest to all was the erection of a beautiful community Christmas Tree during the Christmas and New Year holidays.

The Commission at this time wishes to thank all who so kindly contributed their services in the erection of the temporary tree.

The Commission most heartily recommends the planting of a suitable tree to be decorated and lighted at each Christmas season. We recommend an appropriation of three hundred ($300.00) dollars.

Yours Respectfully,

EDITH A. FORISTALL

REPORT OF CHIEF OF THE FIRE DEPARTMENT

Tewksbury, Mass.,
January 1, 1928.

To the Honorable Board of Selectmen,
Gentlemen:

As Chief of the Fire Department I herewith submit the following total number of fires attended:

Forest fires	31
House fires	7
Chimney fires	8
Automobile fires	1
False alarms	5
Out of town calls (Wilmington)	1

Total value of buildings and contents. Twelve thousand seventy-five dollars.

Damage, eleven thousand six hundred, seventy-five dollars.

Insurance paid. Ten thousand, one hundred and fifty dollars.

Personal property of the Fire Department, twelve thousand, seven hundred dollars.

Yours respectfully,

A. S. HAINES,
Chief of Fire Department.

REPORT OF MIDDLESEX COUNTY EXTENSION SERVICE

The town of Tewksbury appropriated $150.00 in support of the Middlesex County Extension Service, through the Trustees for County Aid to Agriculture, for 1927. Following is a report of the work accomplished during the year.

In Agriculture the work this year was largely carried on by means of personal farm visits. Twenty-two such visits were made, and assistance given on orcharding, dairying, and field crops. Much local interest has been shown in the work of the Cow Test Association, and information gained from this organization has been of much value to the local dairymen.

A complete mailing list is maintained, and the timely notices on fruit growing, poultry, and gardening which were sent out were received by many Tewksbury citizens.

In Home-Making four different groups have been organized for the purpose of carrying on the Home Improvement program. These groups are located in Tewksbury Center, North Tewksbury, South Tewksbury, and West Tewksbury. One series of meetings was held for clothing and millinery work, and talks given on Convenient Kitchens, Child Feeding, and Food Selection.

The women of the town, under the leadership of Mrs. Harry Dawson, the Town Home-Making Chairman, held a reception for the County Home Demonstration Agents, and Boys and Girls 4-H Club Agents, at which time the program for the coming year was outlined.

In Boys and Girls 4-H Club Work forty-four were enrolled in the Lunch-Box, Garden, Poultry and Pig Clubs. Mrs. E. P. MacLaren served as local leader, and did an unusually fine piece of work.

Manuel Furtado was one of the county winners in the Garden Club Contest, and Harriet King received honorable mention in the Girls Room Beautiful Contest. Dorothy Foster, Lucy Kaulen, and Manuel Furtado were awarded a two day trip to the Masachusetts Agricultural College for outstanding club work.

An Achievement Club program was held in conjunction with the Extension Service educational motion pictures, at which time the boys and girls exhibited the results of this season's work and told of the benefits of 4-H Club Work.

A series of eight educational motion picture shows was given to a total attendance of 2,561.

In addition to the local work, many Tewksbury people attended the County Picnic, and the Annual Meeting of the Extension Service, held in Waltham; as well as the county-wide meetings in fruit growing, poultry, and dairying which were made available to them.

REPORT OF TRUSTEES OF TEWKSBURY PUBLIC LIBRARY

The Trustees of the Tewksbury Public Library respectfully submit the following report:

The report of the Auditor will give in detail the expenditure of the Public Library.

The Trustees held monthly meetings during the year with the exception of July and August. At these meetings new books have been looked over and those books that were thought necessary to censor have been distributed among the Trustees for examination.

During the year there have been some excellent children's books added. They have been appreciated, judging by the large number of children now taking books from the Library.

There are unfortunately very few people of the town who care to read non-fiction books, but want the very latest fiction. As there are very few real good modern fiction books written it has been more difficult to secure books for the adult. The Trustees realize that for the Library in a small town, books must be purchased that the general public care to read, while in the larger places the best non-fiction can be purchased and enough people will read them to warrant their purchase. The Trustees do not feel that the purchase of expensive books is warranted when probably they would not be taken from the Library by more than three or four people during the year. This is greatly to be regretted as the Trustees would gladly purchase such books if the people want them. A library should furnish instruction as well as entertainment to be of greatest value.

As the voters all know the Library is very small. There is absolutely no room for reading tables. The magazines have to be piled four and five high on one small table. This is to be regretted as the circulation of magazines is not as large as could be hoped for, and would probably gain if there were ample space for the public to examine them. There is a children's table with three chairs and very often there are from ten to twelve children in the Library at one time. We would like to remind the voters of the town that the present quarters of the Library are very inadequate to supply the needs at the present time. The Trustees sincerely hope an effort will be made to have a more suitable place in the near future.

The Trustees would also like to mention the death of Mr. George E. Marshall who served on this board for twenty eight years. He was a faithful worker and gave his best advice for the welfare of the Library at all times.

During the year Rev. Charles F. Frederick resigned from the board and Mr. George A. Marshall was chosen for his place.

Our thanks are due the Librarian and assistants for their faithful work and to those who have generously donated books.

Respectfully submitted,

EDGAR SMITH
BLANCHE KING
R. H. TINGLEY
KATE FOLSOM
GEORGE A. MARSHALL

LIBRARIAN'S REPORT

To the Board of Trustees of the Tewksbury Public Library:

The following report is respectfully submitted:

The circulation of books at the Library on Wednesdays and Saturdays has shown a marked increase. There has been an increase in the circulation in all the districts.

Three donations of books have been received. Mrs. Brooks Stevens, Sr., Rev. James L. Hill, Lynn, Mass., and Mr. David Dickinson, Lowell, being the donors. For these gifts we are very grateful.

The library is open to the public Wednesday evenings from 7.00 to 8.30 and Saturday afternoons and evenings from 2.00 to 9.00. Legal holidays excepted.

WARRANT FOR ANNUAL TOWN MEETING

Middlesex ss.

To either of the Constables of the Town of Tewksbury in said County:

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Tewksbury, qualified to vote in Town affairs, to meet and assemble at Town Hall in said Tewksbury, on Saturday the 4th day of February, 1928 at nine o'clock A. M., to act on the following articles:

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all necessary Town Officers, to choose by ballot a Town Clerk, three Selectmen, three members of the Board of Public Welfare, three members of the Board of Health, a Town Treasurer, an Auditor, a Collector of Taxes, a Tree Warden and Constables, (Three) all to serve one year: one Highway Commissioner to serve three years, one Highway Commissioner to serve two years; one School Committee to serve three years; two Trustees of the Public Library to serve three years; one Park Commissioner to serve three years; one Assessor to serve three years. The polls for the election of Town Officers to be opened at nine o'clock A. M., and close at four o'clock P. M.

ART. 3. To hear reports of Town Officers and Committees and act thereon.

ART. 4. To see what sums of money the Town will vote to raise by taxation to defray necessary expenses for the current year, and make appropriations for the same.

ART. 5. To see if the Town will vote the money arising from licensing dogs, for the ensuing year, to aid in support of the Public Library.

ART. 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

The vote to be as follows:

Voted:—That the Town Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1928 and to issue a note or notes therefor, payable within one year, and debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 7. To see what compensation the Town will vote for the collection of taxes, and at what rate and from what date interest shall be charged on taxes of 1923 unpaid after November 1, 1928 or to take any other action relative thereto.

ART. 8. To see if the Town will vote to borrow, if necessary a sum not exceeding one twenty-fifth of one percent, of the current year's valuation, such sum of money to be used in the suppression of the Gipsy and Brown Tail Moths, and not to be expended before December 1st next, and to be raised in the tax levy of the year 1929.

ART. 9. To see if the Town will vote to raise and appropriate the sum of $225.00 for the proper observance of Memorial Day, and appoint a committee to expend the money. Said committee to be taken from members of the G. A. R., Spanish War Veterans, and American Legion, and Sons of Veterans.

ART. 10. To see if the Town will authorize the Selectmen to institute suits on behalf of the Town or defend any suits that are, or may be brought against the Town.

ART. 11. To see if the Town will vote to raise and appropriate the sum of $150.00, or some other amount and elect a director; the money to be expended by and the director to serve in cooperation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, under the provisions of Sections 40 to 45, Chapter 128, General Laws of Massachusetts.

Art. 12. To see if the Town will vote to build and maintain a sidewalk on East St., beginning at the land of Mrs. Scott and ending with the land of Mr. Robinson, and make an appropriation of three hundred dollars ($300.00) be made for the building thereof, or take any other action relative thereto.

ART. 13. To see if the Town will vote to appropriate $500 to gravel or cinder Maple Street or take any other action relative thereto.

ART. 14. To see if the Town will vote to cinder or gravel Livingston Street from North Street to Kendall Street and make appropriation for same or take any other action relative thereto.

ART. 15. To see if the Town will vote to cinder or gravel River Road, from Andover Street, to the residence of C. L. Barker, make appropriation for same or take any other action relative thereto.

ART. 16. To see if the Town will vote to macadamize North Street, from the railroad tracks at Tewksbury Centre to Almont, appropriate money for same or take any other action relative thereto.

ART. 17. To see if the Town will vote to cinder or gravel Chapman Street, from Whipple Street, to the Billerica line, make appropriation for same, or take any other action relative thereto.

ART. 18. To see what action the Town will take in regard to accepting Sec. 26, Chapter 81, of the General Laws as amended by Chapter 315 of Acts of 1926, whereby the Town receives State aid on highways, or take any other action relative thereto.

ART. 19. To see if the Town will vote to place cinders on Trull Road, from the Nesmith's driveway to the residence of Mr. Buchanan, make appropriation for same or take any other action relative thereto.

ART. 20. To see if the Town will vote to raise and appropriate two-hundred ($200.00) to cinder Fisk Street, or take any other action relative thereto.

ART. 21. To see if the Town will vote to raise and appropriate the sum of $6000.00 or any other sum for the erection of a suitable bridge on Bridge Street over the Shawsheen River, to replace the present structure, or take any other action relative thereto.

ART. 22. To see what sum of money the Town will vote to raise and appropriate, if any, for the purchase of a new gravel pit for the Highway Department, or take any other action relative thereto.

ART. 23. To see if the Town will vote to raise and appropriate the sum of $3000.00 for oil or other binder or take any other action relative thereto.

ART. 24. To see if the Town will vote to raise and appropriate the sum of $3000.00 for cinders or gravel, or take any other action relative thereto.

ART. 25. To see if the Town will vote to raise and appropriate the sum $10,000.00 or any other sum to macadamize Salem Road; from Main Street to the Wilmington town line, or any portion thereof; provided the state and county each appropriate a similar amount, as provided in chapter 90 of the General Laws.

ART. 26. To see if the Town will vote to raise and appropriate the sum of $2000.00 or any other sum, to be used exclusively for the removal of snow and ice from its highways, or take any other action relative thereto.

ART. 27. To see if the Town will vote to raise and appropriate a sum sufficient to purchase one or more dump trucks for the highway department. The price of same not to exceed $1000.00 per truck.

ART. 28. To see if the Town will vote to raise and appropriate the sum of $1000.00 for specific repairs on Andover Street, provided the state and county each appropriate a similar amount as provided in Chapter 90, of the General Laws.

ART. 29. To see if the Town will vote to raise and appropriate the sum of $1000.00 for specific repairs on East Street, provided the state and county each appropriate a similar amount as provided in Chapter 90, of the General Laws.

ART. 30. To see if the Town will vote to discontinue that portion of Bridge Street extending from a point near the bridge over the Shawsheen River to Shawsheen Street, at a point near the bridge over Strongwater Brook. Being the same portion now temporarily closed by the Highway Commissioners as a dangerous thoroughfare.

ART. 31. To see if the Town will vote to raise and appropriate the sum of $300.00 for specific repairs to the bridge on Mill Street over the Shawsheen River, or take any other action relative thereto.

ART. 32. To see what sum of money, if any, the Town will vote to raise and appropriate to purchase a new tractor or tractor tread truck and snow plow. Also to determine what type of tractor or tractor tread truck is best suited to the needs of the Town, or take any other action relative thereto.

ART. 33. To see if the Town will vote to accept Bay State Road as laid out as shown on the plan on file with the Town Clerk.

ART. 34. To see if the Town will vote to raise and appropriate the sum of $300.00 to rebuild the culvert on South Street near the Lowell and Salem R. R. crossing, or take any other action relative thereto.

ART. 35. To see if he Town will authorize the Highway Commissioners to sell any or all of the horses or horse drawn equipment and to see if the Town will appropriate the proceeds of the sale to the operation of the highway department.

ART. 36. To see if the Town will vote the sum of $1500 to gravel South Street, from Main Street, to the Andover line, make appropriation for same, or take any other action relative thereto.

ART. 37. To see if the Town will vote to raise and appropriate $500, to gravel Brown Street, from Michigan Road to Shawsheen River, or taken any other action relative thereto.

ART. 38. To see if the Town will vote to raise and appropriate the sum of $1068.60, to pay unpaid bills contracted by the highway department during 1927, or take any other action relative thereto.

ART. 39. To see if the Town will vote to have a real estate valuation book printed for 1928 make appropriation for same or take any other action relative thereto.

ART. 40. To see what action the Town will take in regard to continuing the lease on the Legion quarters.

ART. 41 To see what action the Town will take to pipe Legion quarters from Town Hall plant for heating purposes, or put in a separate heating system for the Legion quarters, make appropriation for same or take any other action relative thereto.

ART. 42. To see what sum of money the Town will raise for repairs, alterations or additions to the North Tewksbury schoolhouse, or take any action relative thereto.

ART. 43. To see if the Town will vote to erect a four room schoolhouse in North Tewksbury, appropriate money for the same, or take any other action relative thereto.

ART. 44. To see if the Town will vote to install electric lights on Coolidge St., (Shawsheen River Park), make appropriation for same, or take any other action relative thereto.

ART. 45. To see if the Town will vote to install electric lights on Heath St., (Shawsheen River Park), make appropriation for same, or take any other action relative thereto.

ART. 46. To see if the Town will vote to install electric lights on South St., from present terminal to the residence of Dennis O'Connell, and make appropriation for same or take any other action relative thereto.

ART. 47. To see if the Town will vote to install electric lights on Mill Street, from Shawsheen Street to the residence of Henry Pringle, and make appropriation for same or take any other action relative thereto.

ART. 48. To see if the Town will vote to install electric lights on Shawsheen Street, from present terminal to Vale Street, and on Vale Street to the residence of N. F. Saunders, and make appropriations for same or take any other action relative thereto.

ART. 49. To see if the Town will vote to install electric lights on Woburn Street, from the present terminal at end of So. Lowell car line to the Tewksbury-Billerica boundary line, make appropriation for same or take any other action relative thereto.

ART. 50. To see if the Town will vote to install electric lights on Foster Street, from Chandler Street, approximately twelve hundred feet, to the property of Mr. Belton, make appropriation for same, or take any other action relative thereto.

ART. 51. To see what sum of money, if any the Town will appropriate for cutting and burning brush, or take any action relative thereto.

ART. 52. To see if the Town will vote to discontinue the annual appropriation for the cutting of brush and make the salary of the tree warden $1300 per year, thereby enabling him to continue this work throughout the year.

ART. 53. To see if the Town will vote to raise and appropriate the sum of $2000 to be paid to the estates of the two Wilmington firemen who lost their lives in a fire, provided the legislature votes permission, or take any other action relative thereto.

ART. 54. To see if the Town will vote not to accept any streets or ways unless first provided with a suitable sub-grade, and laid out acceptable to the highway commission.

ART. 55. To see what sum of money the Town will vote for electric light extensions, or take any other action relative thereto.

And you are directed to serve this warrant by posting up attested copies thereof, one at each of the Public Meeting Houses, one at the Town Hall, one at each of the Post Offices, and leave one hundred copies for the use of the citizens at the Post Offices in said Town, 10 days at least, and over two Sundays, before the time of holding said meeting.

Hereof fail not and make due returns of this Warrant, with your doings thereon, to the Town Clerk at the time and place of Meeting as aforesaid:

Given under our hands, this fourteenth day of January, in the year of our Lord, one thousand nine hundred and twenty-eight.

IRVING F. FRENCH,
WILLIAM H. KELLEY,
JOSEPH W. JORDAN

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF TEWKSBURY

ALSO REPORT OF

THE SUPERINTENDENT OF SCHOOLS

FOR THE

FISCAL YEAR ENDING DECEMBER 31, 1927

REPORT OF THE SCHOOL COMMITTEE FOR THE YEAR 1927

All the schools in the town with the exception of the North School have had numerous repairs and improvements, putting them in very good condition.

The Foster School has required very little repairing during the past year. The lunch room which has been most successful in every way has had new benches made for all the tables. A new gas stove has also been installed in the kitchen. A more convenient system of electric switches have been placed in all the corridors.

During the summer the Spaulding School was thoroughly painted both inside and out. Electric lights have been placed throughout the building. The ceilings and outside of the West School were also painted.

The Shawsheen School has been greatly improved with a new shingled roof, and outside painting.

Last year a special committee reported on repairs needed at the North School. As your Committee did not receive the money necessary to make these repairs, the school still remains in the same condition. The School Committee ask you to consider again the much needed improvements for this building. These are, an addition of one large school room, an efficient heating plant which will comfortably heat all the rooms and more modern and convenient sanitary conditions.

Respectfully submitted,

HERBERT L. TRULL, Chairman
ARTHUR FOSTER
MAY L. LARRABEE, Secretary

The School Committee recommend the sum of $50,730.00 be appropriated for the Schools for 1928, based upon the following proposed budget:

Teachers	$ 18,450.00
Supervisors	1,500.00
Superintendent	1,225.00
Health	1,300.00

Fuel	1,800.00	
Janitors	3,755.00	
Transportation	8,900.00	
Tuition	9,000.00	
Books and Supplies	2,000.00	
Insurance	1,000.00	
Repairs	800.00	
Miscellaneous	1,000.00	
		$ 50,730.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Tewksbury,

Mrs. Larrabee and Gentlemen;

I herewith submit my fifteenth annual report which is the thirty-seventh in the series of superintendent's reports. The year has been one of consistently good work on the part of the teachers, but of no marked changes from other years.

Teachers and Supervisors. I am pleased that so few changes have taken place among our teachers. Miss Mildred Smith, supervisor of drawing last year, accepted a position elsewhere in June. Miss Mary E. Brackett, a graduate of the Massachusetts School of Art, was chosen for the position. Miss Brackett has made a splendid beginning in her work, winning the esteem of both teachers and pupils. Among the teachers you will find but two new names this year. One is that of Miss Bernice McCann who is in the primary room at the North in place of Miss Angier who resigned last June to marry. The other is that of Miss Elsie Hicks, assistant to Miss Eagles. Each of these teachers is a graduate of Lowell Normal School. Miss McCann had taught one year at Medford with marked success, Miss Hicks, one of Tewksbury's young people, is without experience.

The fact that our schools are good schools is due to the fact that for several years we have been able to keep satisfactory teachers.

The School Situation. There are more pupils enrolled at the Foster school than ever before. The fact that both the seventh and the eighth grades are very large obliged us to use the spare room in the building, occupied, for the last half year by grade one, Miss O'Brien serves as "opportunity" teacher in the upper grades, with classes from each grade. This arrangement seems to prove a success.

Grade One was again placed in the Spaulding School in September and proved so large that it was necessary to hire an assistant teacher, so that both rooms are in use in this building. It was found desirable to place electric lights in the school, which was done from the regular appropriation, and is much appreciated by teachers and pupils.

There has been no increase in enrollment at the other schools.

All of the other schools are in excellent repair except the North which I will describe in the following topic.

North. The situation at the North is the same as for the past two years in which I have mentioned conditions in my report. The number of pupils has not increased. It is not that there is not enough room for the 33 pupils in each room; it is that the heating and ventilating in both rooms rooms is entirely inadequate, while the primary room was never built for a school room, simply for an emergency six years ago.

You will remember that two small recitations were built for the use of the student-teachers from the Normal School, each opening from the room, then the only one, now commonly called "Miss Hersey's room." Six years ago the partition was partially removed from these two small rooms, and a primary teacher placed in this improvised room with the first three grades. The student-teachers from that time have taken their classes in the small entries. Absolutely no changes were made in heating, ventilating or lighting at the time of the removal of the partition. The boys of the primary room cannot even pass to the toilets without going through the upper grade room, while the girls of Miss Hersey's room can reach their toilets only through the primary room. The State Inspector of Buildings has assured me within a few weeks that changes must be made in this school, or it should be closed.

I recommend a one room addition to the North school, together with toilets and coat rooms on the ground floor. This would include a new heating and ventilation system for the entire building. If the two small rooms should be retained for their original use, the North school would be comfortably housed for many years, and at a minimum expense.

Playground. Now that the field on the west of the Foster school has been purchased it is desirable that it be graded to a small extent, and that some simple playground equipment be secured. By simply filling some of the large holes, or sinks, the field could be made suitable for a ball field with little expense. You will see by the next topic that the Parent Teachers Association is interested in securing equipment.

P. T. A. I quote directly from Mrs. Drake, president of the local association that part of the activities for the past year that have close application to the schools.

"In May a pre-school clinic was held for children who were to enter school in September. The organization has tried to assist in maintaining good attendance by honoring such with a book.

The greatest interest has been shown in the playground movement for which considerable money has been raised. Swings were erected at the Spaulding School and proportionate amounts given to the other schools with the exception of the Foster School. The amount belonging to the Foster School is to be expended in equipping the lot, recently obtained for a playground, as soon as the plans are completed.'

Lunch serving. The plan begun last year has been carried on this year with marked success. New equipment has been purchased as needed, new benches made for the tables in the basement. All the winter weeks fromThanksgiving to April Mrs. Maclaren is in charge, assisted by several upper grade pupils, serving warm lunches. Each child brings something from home, he also buys at a nominal price something hot, together with a cup of hot cocoa. About two hundred pupils are served daily in an orderly and capable manner.

Milk is served at recess for the underweight pupils.

Middlesex County Club. Club work has been carried on among our pupils with success, as you may judge from the report of the County Agent, Mr. George Erickson, which I quote in full.

REPORT OF 4-H CLUB WORK IN TEWKSBURY FROM NOVEMBER 1926 TO NOVEMBER 1927

"Forty-four boys and girls were enrolled in 4-H Club work in Gardening, Lunch-Box, Poultry and Pig projects.

The Lunch-box and Poultry Clubs were under the leadership of Mrs. E. P. Maclaren who deserves a great deal of credit in giving the young people valuable information in both subjects. Mrs. Maclaren has not been satisfied with doing just the required work, but has made the work interesting by means of plays, demonstrations, and other methods.

The work of the year was completed by having an achievement program and exhibit in conjunction with the Extension Service Movies at the Town Hall.

Mrs. Maclaren's work as a leader was recognized at a County-wide leaders' party at which time she was one of twenty leaders in the whole County who were awarded a leadership pin by the Extension Service.

The Garden and Pig Club work was carried on under the direction of Mrs. Ruth Howe, an out-of-town leader.

The Two-Day Trip to the Massachusetts Agricultural College was awarded to Manuel Furtardo in Gardening, Lucy Kaulen in Lunch-box and Dorothy Foster in Canning."

Banking. The banking with the Mechanics Savings Bank in Lowell has been continued for another year. Fully half the rooms have won certificates for 100% of depositors, that is, every pupil in the room is taking part in the banking if only to the extent of a few cents per week. Moreover about half of all the pupils in school have a "blue" bank book, that is, a real book with money at interest. Many children deposit a considerable amount, several dollars per week, as you may judge from the fact that Tewksbury pupils within the last year have deposited $2394.92.

All of this has been done in precisely the same manner as if each transaction was actually made at the bank. It seems to me to be the foundation of excellent habits of thrift.

The relations between the teachers and the bank officials have been most cordial.

Institute. It has become an annual custom to hold an "Institute" for the teachers of the two towns comprising the union. The last was held Friday, Feb. 19, 1927 in Tewksbury and proved a success. The teachers seem to feel that they receive more practical help from these small institutes than from the mammoth conventions held at Boston.

Graduation. The graduation exercises were held at the Town Hall on Thursday evening June 23, 1927. After the program Chairman Herbert L. Trull, presented diplomas to thirty-seven pupils, Gilbert Gordon Ackroid, Marcelle Mary Aubut, Mary K. Blair, Carolyn A. Blanchard, Virginia C. Briggs, Mary Carmody, Robert Carmody, Bruno Cislauycis, Joseph Cislauycis, Ernest C. Cote, Ferdinand L. Cuccoli, Vincent L. Flynn, Edna E. Gale, Richmond T. Gale, Gerish A. Lincoln, Paul Gineres, Marie Teresa Gray, Hector Lewis Jackson, Elizabeth Helen Jewell, Lucy Kaulen, Bronslaw Kohanski, Fanny Lipomi, Harry L. Mann, Jr., Volfred Martinson, Thomas B. McCormack, Jr., Charles K. Meister, Mildred Catherine Obert, Thelma May Olson, George A. Peirce, Jr., Margaret Peirce, Lyman J. Penny, Edward Sawyer, Ruth Edna Small, Annette Suslovich, Sotira Tatseos, Arnold J. Zambeck, Monica L. Zambeck.

Of these thirty-seven graduates, 26 entered high school, 3 vocational school, and 8 are working.

High School. There were in September 1927 eighty-seven pupils registered at Lowell High School, and two in Billerica. Simply as a matter of record their names will be given below.

Max Abrams, Gilbert Ackroid, Marcelle Aubut, Wesley Barron, George Blair, Mary Blair, Carolyn Blanchard, Ruth Blanchard, Mildred Bolton, Virginia Briggs, Joseph Byron, Mary Carmody, Robert Carmody, Nellie Chase, Bruno Cislauycis, Joseph Cislauycis, Alice Clancy, Gertrude Colby, Ernest Cote, Alice Crosby, Ferdinand Cuccoli, Thetis Darby, Dorothy Davies, Frederick Flaherty, Ruth Fletcher, Bertha Flint, Vincent Flynt, Alfred Forget, Dorothy Foster, Mary Furtado, Edna Gale, Richmond Gale, Vincent Gelinas, George Georgoumetros, Paul Ginieres, Ardella Greene, Marion Guyer, Anna Haas, Olive Haines, Efraim Hedstrom, Hector Jackson, Donald Johnston, Joseph Jordan, Ruth Jordan, James Katsirebas, Lucy Kaulen, Louise Kelley, Elsie King, Harriet King, Pauline Kokinacis, Ernest Livingston, Margaret Livingston, John Mahoney, Harry Mann, Edith Marion, Viola Marr, Paul McCoy, Charles Meister, Irene Meister, Valfred Mortinson, Louise O'Connell Thelma Olson, Richard O'Neill, William O'Neill, Herbert Parker, Marie Parsons, George Peirce, Margaret Peirce, Gladys Penney, George Peterson, Edward Pineau, Amy Rambotham, Marion Rambotham, Eugene Sawitzky, Edward Sawyer, Robert Sawyer, Ruth Sawyer, Dorothy Small, Ruth Small, Thelma Small, Arthur Sparkes, Annette Suslovich, James Toothaker, Arthur Trull, Edward Wener, Arnold Zambeck, Wilbur Livingston.

Conclusion. In conclusion I call to your attention the reports of the supervisors and of the health department which follow and form a part of this report, and again I wish to express my appreciation of the loyal co-operation of teachers and supervisors, and the cordial support of the school committee.

Respectfully submitted,

CHAS. L. RANDALL,
Superintendent.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent and School Board of Tewksbury:

The true purpose of education is to cherish and unfold the seed of immortality already sown within us, and to develop them to their fullest extent. In our music course we try to keep this purpose in view through our aims, which are: A. To enjoy music through participation in worth while music, thus forwarding taste and developing habits of preferment for good music. B. To appreciate music through active listening. This active listening is acquired by technical preparation of note reading and part singing systematically developed. C. Finally to have our music mean a close articulation with the other subjects. That is by the study of music of the nations, composers of the different periods, and their compositions.

Last May, the schools during music week celebrated the Beethoven centenary; some of his compositions were sung and played, articles were read on his life, on contemporaries, and historical events of interest in Europe and America at the time.

An operetta was successfully presented as well as several small entertainments at the Parent-Teachers meetings at which, among other developments the rhythmic band was featured. It is an old, yet new project, because it is just lately worth while instruments and adequately arranged music has been offered. The pupils discover the rhythm, are told what measures, and how, to play them. The music starts, and they do the work. The more advanced classes have music scores to read. It teaches concentration as well as rhythm, two real values.

The annual music memory contest in the seventh and eighth grades was held in April. Much credit is due to the good work of the pupils. Thirty three perfect score pins were presented by the Parent-Teachers Association.

It is through the splendid co-operation I receive from the teachers that our aims are being realized.

Respectfully submitted,

ISABEL M. GREGORY,
Supervisor of Music.

REPORT OF SUPERVISOR OF DRAWING

Mr. Charles L. Randall,
Superintendent of Schools,
Tewksbury, Mass.

Dear Sir:

The following report is submitted covering instruction in elementary drawing in the schools of the town of Tewksbury.

The school year was opened by studying nature. I believe this makes the child observe more carefully, and also, makes his technique more delicate.

Hallowe'en, Thanksgiving, and Christmas, followed bringing many pieces of construction work. These, I hope will prove of some benefit to the pupils. This teaches the child accuracy and neatness.

The projects consisted of, calendars, blotters, greeting cards, boxes, window decorations, notebook covers, shopping pads, book marks, and other things.

Along with these a few steps in design were started, so that we might decorate our projects, which have since been continued. Repetition, repetition with alternation, central balance, axial balance, and progression were subsequently studied.

The above comprises the extent of the ground covered to this time.

Now, we hope to be able to adapt these designs to many useful articles.

Lettering, work in color, a few steps in perspective, figure drawing, some work in representation will then be taken up.

There are more steps of construction work which will enter at Valentine's Day, Washington's Birthday and Easter. Object drawing will also be included in our efforts with a final return to nature work.

I have noticed that some children like design, others like nature work. Most children enjoy the construction best for when completed it is something which they can use immediately. In case of design and nature work this may not be of as great importance to them at present, but is very necessary in all art work.

In closing I want to thank all the teachers for co-operating with me in my work, and also, to thank you, Mr. Randall, for your kind assistance.

Respectfully submitted,

MARY E. BRACKETT,
Supervisor of Drawing.

January 6, 1928.

REPORT OF SUPERVISOR OF SEWING AND COOKING

Mr. Charles L. Randall,
Superintendent of Schools,
Tewksbury, Massachusetts.

Dear Sir:

I take pleasure in presenting to you, my report of the work in Sewing and Cooking in the Foster School.

The girls in the seventh grade have made quilted pillows and are now learning to sew on the sewing machine and to cut from patterns. They have started articles of underwear.

The girls in the eighth grade have made little novelties of felt, linen napkins, handkerchiefs, towels, underwear, bags, and pajamas.

As an experiment, a group of eighth grade girls are taking cooking the last forty-five minutes on Thursday. Although rather a short time to accomplish a great deal, they have learned how to make baking powder bicuit, muffins, chocolate custard pudding, cake, pop-overs, and boiled custard.

They also have made chocolate drop cookies and raisin cookies which were sold in the cafeteria

The girls are quite enthusiastic, and, I understand, are putting into practice at home, the things they have learned to cook in class.

I endeavor to teach the girls only those things which are inexpensive, and which they can make in their own kitchens.

I wish to take this opportunity of expressing my sincere appreciation of the hearty co-operation of the Teachers and Mr. Randall.

Respectfully submitted,

LENA M. COBURN.

January 12, 1928.

REPORT OF INSTRUCTOR OF MANUAL TRAINING

Tyngsborough, Mass.,
January 10, 1928.

Mr. C. L. Randall,
Supt. of Schools,
Tewksbury, Mass.

Sir:

I have the honor to submit the following report of the Manual Training work in the Foster School.

Under the present system the Manual Training is carried on by the seventh and eighth grade boys only.

Grade VII boys are making small articles during the first part of the year while later they are allowed to select larger projects. Foot stools, knife and fork boxes, bench hooks and plant stands are being built, while later tabourets and book cases are to be constructed.

These boys are also getting the elements of mechanical drawing.

Grade VIII is doing more advanced work, hall trees, electric lamps, tabourets, small tables, have been built. More advanced projects are under way and are showing that the pupils are getting a renewed interest. Both grades do a limited amount of toy making.

Our exhibition of last year showed a large variety of articles which were finished in a very creditable manner. These showed initiative by the boys in their selection of projects as well as excellent workmanship.

Each class is taught shop management. A tool clerk is on duty every period who cares for tools and equipment. Each boy keeps a record of his work which shows the amount of time and material used in each article made.

As we wish to make this course of real value to the boys I would welcome suggestions from the parents at anytime. Particularly as to articles which they would care to have the boys make.

I wish to take this opportunity to thank the Superintendent, Teachers, Parent-Teacher Association, in fact all, who by their co-operation are contributing to the success of my work.

Yours respectfully,

GEORGE R. ROBESON,
Instructor of Manual Training.

REPORT OF SCHOOL PHYSICIAN

January 1, 1928.

To the School Committee of the Town of Tewksbury:

The past year has shown increasingly good results of health inspection and school nursing. Every child has been examined and checked up and very evident general improvement noted. The sanitary conditions in all the schools seem very average and well looked after except in the North, which has been condemned and needs altogether new arangements. Our school nurse has been very conscientious and interested in her work and results have been shown in her personal follow up, of those cases absent from class, when any contagious case has been found in our schools. This more than any other method helps to control the spread of contagious cases.

Respectfully submitted,

HERBERT M. LARRABEE, M. D.
School Physician.

REPORT OF SCHOOL NURSE

To the Superintendent and the School Committee of Tewksbury:

As School Nurse I submit the following report for the year 1927:

I have made two hundred and sixty five visits to the schools. Every child has been weighed and measured every two months and a physical record card sent home. If a child has a white card he is up to standard weight or over, if a blue card he is underweight, if a red card he is underweight ten per cent or more. The younger children are very much interested in gaining but the girls in the upper grades (for the most part) want to be painfully thin. Parents should insist on a proper diet for these girls if they want them to stand the strain of High School and advanced education.

I have made eighty four visits to the homes and the parents have been willing to co-operate with me in every way. I have taken eighty children to the Dentist and obtained corrections in vision for twenty three children. Five children have been with me for the removal of tonsils and adenoids. I have obtained Orthopaedic corrections for one child and given treatments to a boy whose arm muscles had begun to atrophy. I have done one hundred and fifty two simple dressings in school.

Dr. Larrabee has vaccinated twenty seven children in school and thoroughly examined every child in school. I have tabulated defects found and will notify parents and obtain corrections just as soon as possible.

The Parent-Teacher Association and the State Board of Health co-operating, held a clinic for children of pre-school age in May. I assisted in every way possible. Forty six children were examined and the parents received much helpful and valuable information. As a result the children entering school this September were in much better physical condition than ever before.

Respectfully submitted,

EMMA P. MACLAREN.

HARRY C. DAWSON,

Town Clerk.

RECAPITULATION

Births	45
Males	24
Females	21
Marriages	28
Deaths	27
Males	17
Females	10

Received and paid to the County Treasurer five hundred sixty-eight dollars and twenty cents ($568.20) for dog licenses.

Received and paid to the Town Treasurer two hundred and twenty-nine dollars ($229.00) for license fees.

The Town Clerk hereby gives notice that he is prepared to furnish parents, householders, physicians and midwives applying therefor, blanks for the return of births as required by law. Births reported after this has gone to press do not appear in the above report, but are on the Town Records. That these records may be complete, the Town Clerk would appreciate any and all information of births occuring which are not in this report.

Attest:

HARRY C. DAWSON,
Town Clerk.

No. of swine condemned	24
No. of heads condemned	30
Sets of lungs condemned	9
No. of livers condemned	14

Calves Condemned

No. of veals condemned	16

Sheep Condemned

No. of sheep condemned	2

Respectfully submitted,

THOMAS P. SAWYER.

REPORT OF INSPECTOR OF ANIMALS

To the Honorable Board of Selectmen:

Dear Sirs:

I take pleasure in offering my report as Inspector of Animals for the year ending Dec. 31, 1928:

Number of Stables inspected	90
Number of Cows inspected	809
Number of young cattle inspected	135
Number of Bulls inspected	33
Number of Sheep inspected	10
Number of Swine inspected	471

There were three dogs quarantined for rabies and released at the end of fourteen days.

Respectfully,

HUGH CAMERON.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen.

I take pleasure in submitting my report as Sealer of Weights and Measures for the year ending Dec. 31, 1928:

Number sealed	
Platform Scales over 5000lbs	3
Platform Scales under 5000lbs	11
Computing scales	10
Spring scales	18
Liquid measures	52
Gasoline Pumps	40
Kerosine Pumps	4
Beam scales	4
Yard sticks	1
Molasses Pumps	1

I have collected and turned over to the Town Treasurer the sum of $30.45 in fees.

Respectfully,

HUGH CAMERON.

REPORT OF AGENT FOR SUPPRESSION OF GYPSY AND BROWN TAIL MOTHS

To the Honorable Board of Selectmen:
Gentlemen:

As Agent for the Suppression of the Gypsy and Brown Tail moths I submit the following:

Gypsy moth conditions show a slight increase while the Brown Tail moth seems held in check by parasites.

Owing to conditions in our border towns where the infestations are very heavy and large areas of stripping was reported the past year, I would recommend a thorough spraying of all main arteries leading into our town. Also scouting of woodland bordering these streets so that any colonies which might be found could be held in check by spraying.

Yours Respectfully,

HARRIS M. BRIGGS.

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen:
Gentlemen:

As Tree Warden I submit the following report:

During the past year brush was cut on the following streets with the mileage of same: Shawsheen st., 4 miles, Whipple st., 2.05 miles, East st., 1.02 miles, Lowe st., .05 mile, Chandler st., 2.08 miles, Pleasant st., 1.01 miles, Pond st., .07 mile, Marshall st., .05 mile, Chapman st., .04 mile, Marston st., 1.02 miles, Rogers st., 1.08 miles, Park ave., .02 mile, Astle st., 1.01 miles, French st., .03 mile, Clarke road, 1.04 miles, Trull road, 1.02 miles, Andover st., 1.05 miles, Bailey road, .02 mile, Fiske st., .05 mile, North st., 2 miles, Kendall road, 1.06 miles, Foster st., 1.02 miles, Maple st., .08 mile, Cross st., .06 mile. This makes a total of 29.04 miles. Of this amount 22½ miles was recutting. 6.09 miles of the total was brush cut and burned on streets where brush had not been cut for years. With a total of 54.03 miles of streets in our town and eliminating streets where there is no brush, I should say about ¾ of the streets have been cut. I would recommend an appropriation large enough to cut the remaining streets and recut those already done. Trees which were considered dangerous have been pruned or removed as far as our appropriation would allow.

Yours Respectfully,

HARRIS M. BRIGGS.

BOARD OF HEALTH.

The following is my report for the year ending December 31, 1928:

Diseases	No. Cases	No. Deaths
Scarlet Fever	3	0
Diphtheria	6	0
Measles	12	0
Mumps	0	0
Chicken Pox	5	0
Whooping Cough	4	0
Tuberculosis	3	1
Pneumonia	4	1
Total	37	2

The health situation in our town for the first six months, was about average, with reference to contagious diseases, and sanitary matters.

There were two startling outbreaks of serious disease, one of scarlet fever in June, which we stamped out with only three cases developing, and a more serious situation of diphtheria, in thru the last month. This last disease was found in our schools in a mild form and through the earnest assistance of Doctors O'Donoghue, in his laboratory work and Roche, in examining and immunizing contact cases, your agent believes that a very trying situation has been averted. I wish to express my appreciation to the chairman, and members of the Board of Health, for their support in this particular instance, as it made possible immediate organization to combat, what seemed like the most serious situation in my experience as agent. I believe that this event has brought to our mind very forcibly, the necessity of testing and immunizing our children against diphtheria. This procedure has been simplified and brought up to a standard of perfect safety. The coming year I hope that we may be able to present this safeguard against this trying disease, to the children of our town.

Respectfully Submitted,

HERBERT M. LARRABEE, M. D.
Agent.

REPORT OF THE HIGHWAY DEPARTMENT

Board of Selectmen.,
Tewksbury, Mass.
Gentlemen:

We herewith submit our report for the year ending Dec. 31, 1928.

Owing to the fact that the Auditor's report will cover in detail the financial expenditures of the department we will not go into detail in this respect only where necessary for a comprehensive explanation of the subject involved.

During the past year more work was accomplished on the highways of our town, than has ever been done before in any one year. This of course was largely due to the acquisition of more modern equipment, and an efficient working personnel in the department. It certainly must be heartening to the taxpayers to note the large increase in production, and decrease in cost of construction, with the use of trucks, as compared with the old horse drawn equipment, which the voters so wisely directed us to dispose of at the last annual town meeting. We respectfully call your attention to the fact that nearly every article in the warrant of the last annual town meeting, which called for highway repairs etc., and referred to our commission for attention; the work in each case has been completed, or will be in the near future. In many cases we exceeded what was asked for in the warrant.

The following is a summary of the work done during the year.

Mill Street Bridge

A complete new deck was placed on this bridge in February. All the trusses and stringers were thoroughly scraped and treated with creosote, while the stringers were covered with asphalt treated felt so as to shed surface water; thereby reducing deterioration to a minimum. Spruce plank 3 inch by 6 inch by 16 feet was used for the deck, this also was treated with creosote. The cost of this work including material was $140.00.

South Street Culvert

A new culvert was constructed on South Street near what was formerly the Fitch farm, over Sutton Brook. This construction abolished not only an eyesore, but a dangerous condition at this point. The old wooden bridge which was only ten feet wide, was removed, and two lengths of Toncan corrugated iron culvert used in the new

work; each being three feet in diameter and thirty feet long. There is now ample waterway and safe road width at this point. The cost of the culvert was $240.00 and labor $81.25, making a total installation cost of $321.25.

Other Culverts Rebuilt

The culvert on Rogers Street near Pike Street was rebuilt, and also the culvert on Kendall Street near North Street. Toncan corrugated iron being used, and of sufficient diameter to give ample waterway.

We recommend an appropriation for the purchase of additional culverts of this type for 1929 as the old stone culverts are continually breaking down under the increased traffic. New installation will have to be made on North Street, and Trull Street during the coming year.

Special Appropriation for Oil or other Binder

The following streets were oiled full width during the past year. Chandler Street, from Livingston Street to Pine Street; North Street, from Andover Street to railroad crossing at Tewksbury Center; Woburn Street, from Lowell line to Billerica line; Park Street, from Woburn Street to Billerica Road; Billerica Road, from Billerica line to Park Street, and from French Street to Lowell line; French Street, from Billerica Road to the West School; Whipple Road, from French Street to Elmhurst Farm; Pleasant Street, from Main Street, to Whipple Road; Livingston Street, from Chandler Street to Pinnacle Street; Kendall Street, from North Street to Orchard Ridge; Pine Street, from Chandler Street, to residence of Mr. Lewis Small; and Clark Road from Main Street to the Lowell line. All of these streets were well covered with sand after being oiled, and streets where it was necessary were dragged at frequent intervals during the summer and fall. Much attention was also given to bituminous patching which we are now doing with 65% Asphaltic road oil rather than the regular tar patching material. This has proven much more satisfactory, and is considerably cheaper. The following is a table of the quantity of sand used on the various streets to cover the oil.

Pleasant Street	142	cubic yards
Whipple Road	250	" "
Woburn Street	133	" "
Park Street	5	" "
Billerica Road	3	" "
Chandler Street	255	" "

Special Appropriation $500.00 East Street

This article being the same as Andover Street, the state and county in like manner contributed $500.00 each, in addition to the town's appropriation.

The gravel shoulders were put in good shape, and following the advice of the state engineer we raised the grade of the roadway from the entrance to the State Infirmary to Livingston Street. This stretch is now ready for crushed stone and asphalt, which when completed will extend the macadam to Livingston Street, thereby eliminating an undesirable condition prevalent especially during the winter and spring months on this particular stretch.

Special Appropriation $2000.00 for Trucks

We disposed of the horses and dump carts early in June, and purchased two one ton Chevrolet trucks with hand hoist dump bodies. Additional high side boards were made to be used in hauling cinders. Each truck has a carrying capacity of 1½ cubic yards of gravel or sand, or 2¼ cubic yards of cinders.

It might be well to state at this time, that the commissioners, after much consideration, deemed it advisable to purchase a third truck of similar type rather than expend the money for hire. In this way the town has realized an additional truck, whereas if the money had been spent for rental, no return other than service would be forthcoming. In other words the money which would have been spent for rental, paid for the additional equipment.

Streets Resurfaced

The following is a list of streets resurfaced in whole or in part during the past year, and the amount of cinders or gravel used on each street.

Street	Gravel	cu. yds.	cinders	cu. yds.
Kendall Street	51	" "	13	" "
Chapman Street	455	" "		
Marshall Street	62	" "		
Salem Road	113	" "		
Rogers Street	12	" "		
East Street	998	" "	1,421	" "
Maple Street			867	" "
Hood Road	5	" "	642	" "
Bridge Street	6	" "	12	" "
Lowe Street			18	" "

A total of 1,454 cubic yards being used.

During the past year a quantity of Salvay Calcium Chloride was purchased, and used on some of our highways to test its effectiveness as a binder and dust layer. The result of our test showed, that on cinder roads we obtained excellent results as a binder and dust layer. This is also true of earth roads in the outlying sections where oil has not been applied. It is also valuable in melting ice in catch basins or on roads, as it is about six times as powerful as salt.

Special Appropriation, Cinders or Gravel

During the past year officials in charge of various large corporations gave our department large quantities of cinders for use on our roads. Consequently we did not have to buy any cinders during the past year, but expended the money for labor and truck hire in building roads with the material obtained. Therefore we were able to put the cinders on the various streets, and have them graded and rolled, at a cost equal to about one third of the usual purchase price, to say nothing of the spreading, grading, and rolling, which is usually additional.

The Highway Commissioners and Superintendent of Streets, take this opportunity of thanking the various officials who have been so grateful to us in this respect.

Special Appropriation, $500.00, Andover Street

Under the provisions of this article, the state and county each appropriated $500.00, thereby making a total of $1500.00. The principal trouble on this thoroughfare was drainage, while the gravel shoulders from the Lowell line to North Street were also in bad shape. Another dry drain was also constructed near the Johnson residence in an effort to carry off the water flowing from a spring under the roadbed at that point. The cost of putting gravel on the shoulder was $660.25, while $438.00 was spent for drainage, and the balance of the appropriation was used in purchasing materials, patching, repairing guard rail etc. We recommend a similar appropriation for 1929, as a new penetration asphalt surface will be necessary where the old car tracks have been removed near the Lowell line, and specific repairs to the road surface near the Andover line.

The cost of the cinders used on the above streets averaged about sixty cents per cubic yard spread, graded and rolled. The average cost per cubic yard of gravel was one dollar. This would have been impossible with horse drawn equipment.

The total number of cubic yards of material hauled by the department during the year amounted to 14,045.5. These figures include sand, gravel and cinders.

In closing, we wish to state, that our department, maintaining the same efficiency of the past year, and being favored with similar appropriations for 1929 will give to our town, roads, second to none.

Respectfully submitted,

JOHN T. GALE
WILLIAM I. BAILEY
ASAHEL H. JEWELL
Highway Commissioners of Tewksbury.

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen:
Gentlemen:

As Park Commissioners we submit the following report:

The commons at the North and Centre been well taken care of and the Centre common was top dressed during the summer, cement platforms have been put under the seats. A permanent community tree has been planted at the Centre and was illuminated during the Chrismas and New Year holidays. We would recommend an appropriation of $250.00 for this year.

Yours Respectfully,

EDITH A. FORRISTALL, Chairman.
CHARLES H. WENTWORTH,
HARRIS M. BRIGGS.

REPORT OF CHIEF OF THE FIRE DEPARTMENT

Tewksbury, Mass.,
January 1, 1929.

To the Honorable Board of Selectmen,
Gentlemen:

As Chief of the Fire Department I herewith submit the following total number of fires attended:

Forest fires	51
House fires	8
Chimney fires	3
False alarms	3

Total value of buildings and contents, ten thousand four hundred dollars.

Damage, five thousand two hundred dollars.

Insurance paid, five thousand eight hundred dollars.

Personal property of the Fire Department, thirteen thousand two hundred dollars.

Yours respectfully,

A. S. HAINES,
Chief of Fire Department.

REPORT OF MIDDLESEX COUNTY EXTENSION SERVICE

The town of Tewksbury appropriated $150.00 in support of the Middlesex County Extension Service through the Trustees for County Aid to Agriculture for 1928. The following is a report of the work accomplished during the year.

In Agriculture many of the farmers were interested in having their soils tested for lime requirements. Forty-six men attended a poultry meeting. A talk was given at the movies in connection with poultry sanitation. Tewksbury was represented by three members in the Herd Improvement Association. Twenty-two farm visits were made on request for individual assistance

In Homemaking eighty-one homemakers attended meetings during the year. For a series of five Home Improvement meetings four groups were organized, one in the Center, one in North Tewksbury one in South Tewksbury and one in West Tewksbury. Sixty-nine women attended these meetings and many have made labor saving improvements in their kitchens as a result. In the West Tewksbury group particularly, an outstanding piece of work was done in improving the homes. Not only did these homemakers improve their kitchens but they extended their improvements in some homes to every room in the house. All groups made many improvements.

Three groups, totaling forty-six women, each held four meetings in Nutrition and the homemakers report that meal planning has been simplified and better planned meals have resulted.

Three groups have organized into permanent Units to carry on the Homemakers' program over a period of years. These three units, the North, South, and West, are now having a series of four meetings on Clothing Selection and Garment Finishes.

In Boys' and Girls' 4-H Club work forty-eight boys and girls were enrolled in food, poultry, clothing, and garden clubs. Mrs. E. P Maclaren and Mrs. Blanche Fitzgerald served as local leaders. Harriet King was awarded a two-day trip to the Massachusetts Agricultural College for doing outstanding 4-H club work.

Seven educational motion picture shows were given to a total attendance of 1752.

In addition to the above work, the local people had an opportunity to attend several county-wide meetings on various phases of agriculture and homemaking, as well as received circular letters giving timely information on subjects pertaining to the Farm and the Home.

OMER BLANCHARD,
Director

REPORT OF TRUSTEES OF TEWKSBURY PUBLIC LIBRARY

The Trustees of the Tewksbury Public Library respectfully submit the following annual report:

Since the year of 1878 library books have been in circulation among our readers. During this period of fifty years fiction, as well as non-fiction, has passed through its various stages and just at present appears, at least, to be at its very lowest ebb. Due to this, the Trustees at times find it very difficut to know what attitude always to take toward today's popular books. One cannot judge the quality of reading by the author as heretofore because very often a book written by a well-known writer receives criticism that condemns its admittance to a public library.

The Trustees consider it a civic duty on the part of any reader if in his opinion the book is unfit for circulation he takes it to the Board for further criticism and judgement.

Monthly meetings are held in the Town Hall the first Saturday of each month excluding the months of July and August.

During this year Mrs. Alice King and Efraim Hedstrom resigned as assistants. These resignations were accepted regretfully as both did very creditable work. These vacancies were filled by Miss Blanche King and Wesley Barron; Miss King resigning from the Board to accept the new office.

For three consecutive Saturdays in March Miss Kathleen Gray, a student at the Lowell State Normal School, told stories in the Town Hall to an appreciative audience of children between five and fourteen years of age. A small part of the annual appropriation was spent for this purpose and by the interest and appreciation expressed it was most profitably spent. Prizes were awarded by two of the trustees to Thelma Meister and Josephine Briggs for telling the best stories at the last story hour period.

A very urgent request is made by the Trustees for more room with which to carry on more efficient work. The congested condition prevents magazines from being properly displayed for satisfactory use. There is no space where the readers can enjoy an uninterrupted study hour. We wish that some immediate action might be taken to relieve this situation whereby the library can best meet the needs of its patrons.

The members of the Board wish to take this opportunity to express their appreciation to the Librarian and her assistants for their courteous and faithful service.

The Trustees respectfully request that the article in the warrant asking for an appropriation of $775 and the money received from the dog taxes be granted to the library.

Respectfully submitted,

EDGAR SMITH
KATE FOLSOM
GEORGE A. MARSHALL
RUTH W. SMITH
RUTH H. TINGLEY

LIBRARIAN'S REPORT

To the Board of Trustees of the Tewksbury Public Library:

The following report is respectfully submitted:

The circulation of books at the library and in the districts has increased but owing to the fact that the books were called in for the month of August there is a slight decrease in the total circulation.

The increase in the circulation of the magazines is much larger.

During the month of August all books were called in for a stock taking. Most of the patrons responded promptly but others were dilatory making the checking of the books more difficult.

Many books are now taken out for reference work and patrons are requested to return all such books within the month.

Many books of fiction and non-fiction have been donated to the library for which we are very grateful to the donors.

The North West box has been discontinued recently and a box is now being sent to the North Tewksbury School. A box is also being sent to the Shawsheen School—making a total of four district boxes.

The library is open to the public Wednesday evenings from 7.00 to 8.30 and Saturday afternoons and evenings from 2.00 to 9.00. Legal holidays excepted.

Attention is called to the fact that the Trustees will purchase books on request if names and authors of books are left with the Librarian.

STATE AUDITOR'S REPORT

To the Board of Selectmen,
Mr. Irving F. French, Chairman,
Tewksbury, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Tewksbury for the period from January 1, 1927 to May 8, 1928, made in accordance with the provisions of Chapter 44 of the General Laws. This is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,

THEODORE N. WADDELL,
Director of Accounts.

Mr. Theodore N. Waddell,
Director of Accounts,
Department of Corporations and Taxation,
State House, Boston.

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Tewksbury for the period from January 1, 1927 to May 8, 1928, and submit the following report thereon:

The financial transactions of the town as recorded on the books of the several departments collecting or disbursing funds of the town were examined and reconciled.

The books of the treasurer were examined and checked in detail. The recorded receipts were checked with the records in the departments collecting money for the town and with the other sources from which money was paid into the town treasury. The disbursements were checked with the approved vouchers on file.

The footings of the cash book were verified for the period covered by the audit, and the cash balance was verified by a reconciliation of the bank account with a statement furnished by the bank.

The trust fund securities were personally examined, listed, and found to be as recorded.

Tables showing a reconciliation of the treasurer's cash and summaries of the trust fund accounts are appended to this report.

The books and accounts of the tax collector for the transactions from the date of the previous audit in 1925 to May 8, 1928, were examined and checked. The commitment books were footed and adjusted to the asessors' warrants.

The cash book entries were checked and the payments to the treasurer were verified with the treasurer's record of receipts, and the abatements were checked to the assessors' records of abatements granted.

The outstanding accounts were listed and reconciled, and were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts as listed are correct.

Tables showing a reconciliation of the tax and assessment accounts are appended to this report.

The tax title deeds held by the town were examined and a list was prepared, which included the taxes added since the tax titles were acquired. As may be seen from the appended balance sheet, the tax titles held by the town aggregate a considerable amount, the actual value of which, however, is always questionable, owing to the fact that the opportunity for invalidating old titles on account of techni-

calities is very great. The value of these titles should be determined at once and proceedings for foreclosure should be instituted by the town treasurer, as required by Section 2, Chapter 126, Acts of 1927. Attention is also called to Sections 79 and 80, Chapter 60, General Laws, dealing with the sale of lands of low value held by the town under tax titles.

The records of the town clerk were examined and the appropriations and other financial authorizations as voted at the town meetings were listed and checked to the amounts raised by the assessors, it being noted that no provision was made for the payment of debt and interest due on the tractor and plow loan, amounting to $2,556.25. Although the asessors are authorized by Section 16, Chapter 44, General Laws, to make provision for debt requirements in the tax levy after being notified of the amount of debt falling due during the current financial year, it is recommended that an appropriation be voted by the town for debt and interest on maturing debt, so that the assessors may raise the necessary sums together with the other town appropriations.

The town clerk's records of dog and of hunting and fishing licenses issued were examined, and payments to the state and the county treasurers, respectively, were verified with receipts on file.

The records of licenses granted by the selectmen and issued by the town clerk were checked, and the payments to the treasurer were verified.

The books of the sealer of weights and measures were examined and checked, and the payments to the treasurer were checked to the treasurer's books.

The record of receipts for rents from town hall were examined and checked to the treasurer's receipts.

The surety bonds for the faithful performance of their duties as given by the treasurer and the tax collector were examined and found to be in proper form. The town clerk's bond was not on file.

An examination of the balance sheet showing the financial condition of the town on December 31, 1927, discloses the fact that a revenue deficit amounting to $7,433.47 exists. This deficit is partly due to the fact that, without ascertaining the actual amount of free cash available, $2,000 was voted as a reduction from the amount to be raised by taxation in 1927, and partly to the fact that the amounts estimated by the assessors to be received from sources other than loans and taxation exceeded the actual receipts from these sources in 1927. In order that the town treasurer may be enabled to finance the activities of the town in accordance with law, it is recommended that the revenue deficit mentioned above, as well as the overdrafts of 1927 amounting to $2,911. 93, be appropriated and raised in the revenue of 1928.

The practice of crediting the moth department with receipts from private work should be discontinued, and an appropriation should be voted to provide for the expenses of this work, allowing the receipts to be paid into the town treasury for the use of the assessors in fixing the tax rate. Attention, in connection with the use of departmental receipts, is called to Section 53, Chapter 44, General Laws, as amended by Chaper 205, Acts of 1926, which reads as follows:

> All moneys received by any town officer or department,, except as otherwise provided by special acts and except fees provided for by statute, shall be paid by such officer or department upon their receipt into the town treasury. Any sums so paid into the town treasury shall not later be used by such officer or department without a specific appropriation thereof, except that sums allotted to towns for highway purposes by the commonwealth or a county, which shall be used only for the purposes specified by the officials making the allotment or to meet temporary loans issued in anticipation of such allotment as provided in sections six or six A, shall be available therefor without any appropriation.

For the co-operation received from the various town officials while engaged in making the audit, I wish, in behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDWARD H. FENTON,
Chief Accountant.

WARRANT FOR ANNUAL TOWN MEETING

Middlesex ss.

To either of the Constables of the Town of Tewksbury in said County:

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Tewksbury, qualified to vote in Town affairs, to meet and assemble at Town Hall in said Tewksbury, on Saturday the 2nd day of February, 1929 at nine o'clock A. M., to act on the following articles:

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all necessary Town Officers, to choose by ballot a Town Clerk, three Selectmen, three members of the Board of Public Welfare, three members of the Board of Health, a Town Treasurer, an Auditor, a Collector of Taxes, a Tree Warden and Constables, (Three) all to serve one year: one Highway Commissioner to serve three years, one School Committee to serve three years; two Trustees of the Public Library to serve three years; one Park Commissioner to serve three years; one Assessor to serve three years. The polls for the election of Town Officers to be opened at nine o'clock A. M., and close at four o'clock P. M.

ART. 3. To hear reports of Town Officers and Committees and act thereon.

ART. 4. To see what sums of money the Town will vote to raise by taxation to defray necessary expenses for the current year, and make appropriations for the same.

ART. 5. To see if the Town will vote the money arising from licensing dogs, for the ensuing year, to aid in support of the Public Library.

ART. 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

The vote to be as follows:
Voted:—That the Town Treasurer with the approval of selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1. 1929 and to issue a note or notes therefor, payable within one year, and debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 7. To see what compensation the Town will vote for the collection of taxes, and at what rate and from what date interest shall be charged on taxes of 1929 unpaid after November 1, 1929 or to take any other action relative thereto.

ART. 8. To see if the Town will vote to borrow, if necessary a sum not exceeding one twenty-fifth of one percent, of the current year's valuation, such sum of money to be used in the suppression of the Gipsy and Brown Tail Moths.

ART. 9. To see if the Town will vote to raise and appropriate the sum of $250.00 for the proper observance of Memorial Day, and appoint a committee to expend the money. Said committee to be taken from members of the G. A. R., Spanish War Veterans, and American Legion, and Sons of Veterans.

ART. 10. To see if the Town will authorize the Selectmen to institute suits on behalf of the Town or defend any suits that are, or may be brought against the Town.

ART. 11. To see if the Town will vote to raise and appropriate the sum of $175.00 or some other amount and elect a director; the money to be expended by and the director to serve in cooperation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, under the provisions of Sections 40 to 45, Chapter 128, General Laws of Massachusetts.

ART. 12. To see if the Town will vote to install electric lights on Coolidge St., (Shawsheen River Park), make appropriation for same, or take any other action relative thereto.

ART. 13. To see if the Town will vote to install electric lights on Heath St., (Shawsheen River Park), make appropriation for same, or take any other action relative thereto.

ART. 14. To see if the Town will vote to install electric lights on South St., from present terminal to the residence of Dennis O'Connell, and make appropriation for same or take any other action relative thereto.

ART. 15. To see if the Town will vote to install electric lights on Mill Street, from Shawsheen Street to the residence of Henry Pringle, and make appropriation for same or take any other action relative thereto.

ART. 16. To see if the Town will vote to install electric lights on Shawsheen Street, from present terminal to Vale Street, and on Vale Street to the residence of N. F. Saunders, and make appropriation for same or take any other action relative thereto.

ART. 17. To see if the Town will vote to raise and appropriate the sum of $1000.00 for specific repairs on Andover Street, provided the state and county each appropriate a similar amount as provided in Chapter 90, of the General Laws, or take any other actions relative thereto.

ART. 18. To see what sum of money the Town will vote to raise and appropriate for the purchase of a new gravel pit for the Highway Department, or take any other action relative thereto.

ART. 19. To see if the Town will vote to raise and appropriate the sum of $3000.00 for oil or other binder or take any other action relative thereto.

ART. 20. To see if the Town will vote to raise and appropriate the sum of $3000.00 for cinders or gravel, or take any other action relative thereto.

ART. 21. To see if the Town will vote to raise and appropriate the sum of $1000.00 for specific repairs and extension of the bituminous macadam on East Street, provided the state and county each appropriate a similar amount as provided in Chapter 90, of the General Laws.

ART. 22. To see if the town will vote to appropriate the sum of $6000.00 to purchase a road roller for the Highway Department, or take any other action relative thereto.

ART. 23. To see if the Town will vote to purchase the Roper Property adjoining the Town Hall and raise and appropriate money for same or take any other action relative thereto.

ART. 24. To see if the Town will vote to raise and appropriate $500.00 or such sum necessary to print Real Estate Valuation Book.

ART. 25. To see if the Town will vote to raise and appropriate the sum of $1129.73, to meet balance of money due on seizure of Lynch land.

ART. 26. To see what action the town will take on the appointment of a committee of three to investigate the cost of Electric light and Power Extensions to determine why all remaining extensions on all accepted streets and ways cannot be completed without any further expense to the town on the adjoining property owners, conferring with the Electric Light Company also the Public Utilities commission if necessary, or take any other action relative thereto.

ART. 27. To see what action the Town will take to provide hydrants for fire protection in that area of Tewksbury bounded by Main St. Lake St. and South St. or take any action relative thereto.

ART. 28. To see if the Town will vote to raise and appropriate the sum of $1100 to meet unpaid bills of 1928 or take any action relative thereto.

ART. 29. To see what sum of money the Town will raise and appropriate for cutting brush during 1929. or take any action relative thereto.

And you are directed to serve this warrant by posting up attested copies thereof, one at each of the Public Meeting Houses, one at the Town Hall, one at each of the Post Offices, and leave one hundred copies for the use of the citizens at the Post Offices in said Town, 8 days at least, and over two Sundays, before the time of holding said meeting.

Hereof fail not and make due returns of this Warrant, with your doings thereon, to the Town Clerk at the time and place of Meeting as aforesaid:—

Given under our hands, this 12th day of January, in the year of our Lord, one thousand nine hundred and twenty-nine.

IRVING F. FRENCH,
WILLIAM H. KELLEY,
JOSEPH W. JORDAN,
} Selectmen of Tewksbury.

ANNUAL REPORT

of the

SCHOOL COMMITTEE

of the

TOWN OF TEWKSBURY

ALSO REPORT OF
THE SUPERINTENDENT OF SCHOOLS

for the

FISCAL YEAR ENDING DECEMBER 31, 1928

REPORT OF THE COMMITTEE APPOINTED TO REMODEL THE NORTH SCHOOL BUILDING

After many meetings in which plans were discussed and revised, final plans drawn by the architect Harry P. Graves of Lowell were accepted. Bids on work were requested and those selected were as follows:

James H. Wilkins Co., Carlisle, general contract. Craig & McLaughlin, Dracut; heating, piping, plumbing and ventilation. The desks and chairs were bought of J. L. Hammmett Co., Cambridge.

The one room addition has given the school a good sized, bright, cheerful, well arranged, well furnished school room. Also good corridors and properly equipped cloak rooms. Part of the large room in the main building was taken for a corridor, leaving a better sized, more comfortable school room. We are thus enabled to use the two small rooms for class rooms, giving the different grades a better opportunity for class work by themselves. On account of the impossibility of drainage from the basement, the toilets had to be put on the first floor. This could be done most economically by using the large closets on the front which were not needed for other things. The new steam heating plant installed in the old basement is giving excellent service, and will heat the entire building at all times. The new basement has two good sized play rooms for the children thus providing for them a warm, comfortable, place to play in stormy weather.

The building was thoroughly painted both inside and out, also well equipped with electric lights. New windows were put in front also the front entrance was remodelled to correspond with the side entrances. New front steps were built and splendid cement side walks running both sides of the building. The grounds in the rear have been filled in and levelled making a good play ground for the children in pleasant weather. The grounds in front of the building have been graded, sodded and seeded anew, and certainly will add very much to the appearance of the school. Your committee held nine meetings during the summer. They have been greatly interested in making the best building possible for the children at North Tewksbury. We are proud of the results, for we now have a modern, bright, well equipped, well ventilated, and heated school building, with excellent sanitary conditions. A great deal of time and sincere interest was given to this work by the members of the Committee at the North, Mr. Herbert L. Trull and Mr. George Bennett.

After the building was completed, an evening was given to the parents and friends for inspection. A very delightful program was arranged by Mr. Clarence Weed of the Lowell Normal School. The building is open for inspection at any time, and the Committee cordially invite every one interested to visit our splendid North School.

Financial Statement

James H. Wilkins Co., general contract	$ 9,704.00
James H. Wilkins Co., extras	756.00
Harry P. Graves, architect	780.00
Craig & McLaughlin, heating and plumbing	3,228.00
J. L. Hammett Co., desks and chairs	532.00
Total	$ 15,000.00

Respectfully submitted

HERBERT L. TRULL, Chairman
GEORGE E. BENNETT
HERBERT A. PAGE
ARTHUR FOSTER
MAY L. LARRABEE, Secretary

REPORT OF THE SCHOOL COMMITTEE

The regular work and supervision of the Schools has been carried on as usual this year. Very little repair work was needed this summer in any of the buildings except at the North. We have given most of our attention there, that the work on the building and grounds might be completed.

The Foster and West Schools had necessary painting done inside. During the Christmas vacation many desk tops badly worn, have been refinished. Also thirty-nine new desks and chairs have been added.

The kitchen at the Foster School has been thoroughly cleaned and painted and the hot lunches for the children started. Also some new equipment has been purchased for the kitchen. The children are getting one hot dish every day of some kind for five cents. On account of the higher cost of food, we feel that another year it will be necessary to raise this price.

Respectfully submitted,

HERBERT L. TRULL, Chairman
ARTHUR A. FOSTER
MAY L. LARRABEE, Secretary

The School Committee recommend the sum of $49,155.00 be appropriated for the schools for 1929 based upon the following proposed budget:

Teachers	$ 19,000.00
Superintendent	1,295.00
Supervisors	1,500.00
Transportation	8,700.00
Janitors	3,910.00
Books and Supplies	1,000.00
Fuel	1,500.00
Insurance	900.00
Repairs	500.00
Health	1,350.00
Tuition	9,000.00
Miscellaneous	500.00
	$49,155.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Tewksbury.

Mrs. Larrabee and Gentlemen:

I herewith submit my sixteenth annual report which is the thirty-eighth in the series of superintendents' reports. The year has been one of good work on the part of the teachers and pupils, but one of no marked changes from other years.

Teachers and Supervisors. I am pleased that few changes have taken place among the teachers. Miss Mary Brackett, supervisor of drawing, resigned at the end of the school year to be married. Her place was filled by Miss Christine Young, a graduate of the Massachusetts School of Art. Miss Young is without experience, but was highly recommended by the supervisor of the school at which she was trained. The only change among the teachers was one deeply to be regretted, that of Miss Marguerite Benson, for three years teacher of the seventh grade at the Foster School and recently elected under the Tenure Act. Miss Benson was a teacher of marked ability and a woman of exceedingly fine character. We are sorry to lose such people from among our teachers. Miss Sarah O'Brien, who has served for three years, as an assistant teacher in the upper grades at the Foster School, was given charge of the seventh grade. Miss Hazel Young, a recent graduate of Lowell Normal School, was engaged as an assistant at the Foster School. It is expected that these changes will prove a success. It is the law that no teacher should have over fifty pupils without an assistant. In my opinion no teacher should be given over forty pupils, but in the Foster School both grade eight and grade five have over fifty children. The enrollment in grade eight is fifty-six, and in grade five, fifty-seven. Miss Young serves part time in each of these two grades. The above are the only changes this year in the teaching force.

School Situation. The new building at the North School takes care of the pupils of that part of the town very acceptably. At the Shawsheen School it has seemed wise to the committee not to transport grade seven this year as has been done for many years, therefore Miss Wiggin of this school has four grades. Grades four to six, inclusive, being under the direct supervision of the Normal School, but grade seven doing precisely the same as is being accomplished at the Foster School. At the Spaulding School grade one proved too large for one

teacher, therefore it was thought best to retain Miss Hicks in the same capacity that she held last year. The West School, this little school is in fine condition doing splendid work. This brings us to the Foster School. The teachers at this building are doing faithful, conscientious work. The schools are all large and in two classes already noted contain more children than any teacher should be expected to teach.

The North School. The appropriation of a year ago has been expended with the result that building and equipment are practically new. The original building containing one school room has been renovated in every respect and an attractive primary room has been made. The smaller classrooms, which for several years have been thrown together, have been again put back in the original form as classrooms for the training pupils from the Lowell Normal School. The addition in the rear of the building contains a modern well-lighted, well-heated, well-ventilated classroom, also large, ample halls, and adequate toilets. The basement and the heating and ventilating plant in the basement are entirely new and entirely efficient. The school is as complete and modern a two-room building as will be found any where in the state. When you take into consideration the fine qualities of the teachers who are employed here, you may well agree with the principal of the Lowell Normal School in saying that it is a Model School.

Play Ground Equipment. I called attention one year ago to the fact that not alone was a play ground needed but good play ground equipment as well. The Parent-Teachers' Association has done valiant work in making a substantial start in play ground equipment. The immediate and most urgent need at the present is the grading of the new grounds.

Lunch Serving. Lunch serving which was started a year ago has been continued under most favorable auspices. Mrs. MacLaren so arranges her time that she may be present at the lunch period during the winter days. Under her efficient direction hot cocoa, and at least one other article of warm food is served to about one hundred children at a nominal cost. The basement near the kitchen is fitted up with comfortable tables and benches. I consider this feature a very successful part of school life.

Four-H Clubs. The Middlesex County Farm Bureau has been conducting successful club work with both the boys and girls of your school during the past school year. However, owing to the recent illness of your superintendent a detailed report of this work cannot be given.

Banking. It is simply amazing how the interest in the school savings bank continues in hard time as well as in good times. Every week a

comparatively large sum of money is deposited by the children and afterwards finds its way through regular routine to savings bank books owned by them. You will note that during the past year $2,664.57 has been deposited by the pupils of Tewksbury. As this banking is carried out under state regulations and is actually performed in the identical manner in which it is done in any one of the nearby savings banks, I consider that not alone is thrift taught but good business habits as well. The most friendly relations continue to exist between your teachers and the bank officials of the Lowell Mechanics Savings Bank.

Dental Clinic. With the consent of the school board and with the cooperation of Dr. Larrabee and the school nurse, a dental clinic has been started in the schools of your town. A competent dentist, Dr. McNally, has been secured who attends to the wants of the children right at the school building in such a manner that it costs the parent not over one half whatever would be paid for the same work at a dentist's office. Dr. McNally was not entirely unknown to us as he had done very satisfactory work in the towns of Dracut and Chelmsford.

Parent-Teachers' Association. The Parent-Teachers' Association of the town has continued a helpful influence in the schools. By prizes which have been given by the association better attendance has been secured, and work in music appreciation has been stimulated. I have already mentioned elsewhere the great help done by this association in play ground equipment.

State and Town . The financial relations between the Commonwealth and your town are not always understood by all the citizens. For example, if the town raises fifty thousand dollars, let us say, for its school budget this does not mean that the schools actually cost the town this amount of money. A large proportion of this sum is borne by the state. High school tuition and high school transportation come in for their assistance by the state. A good sum of money is paid towards the teachers' salary and a certain proportion of the superintendent's salary is paid by the state, therefore in the case of a state aided town, the committee and superintendent are not alone the managers of the town's money, but they are to a marked degree trustees for the state and must see that the state money is wisely expended for the best interest of all the people. Last year the state paid towards the schools of Tewksbury the sum of $12,721.13.

Manual Training. It seemed wise to the committee to release Mr. George Robeson at the close of the last school year. An attempt was made this fall to secure a summer student from Pittsburg Normal

School to give instruction in manual training, but this arrangement could not be made satisfactorily on account of the conflict in the schedule. Mr. Raymond Norton was secured in October for the completion of the year. Mr. Norton has been teaching successfully for several years in nearby towns. He is an accurate workman and seems to have the faculty of managing boys. At the time of this writing it looks as though this department would prove a success.

Graduation. The Graduating Exercises of the Foster School were held in the Town Hall on the Evening of Friday, June 29,1928.

Mr. Herbert Trull of the Committee presented the Diplomas. The following pupils received diplomas: Yvonne Banville, Branie Barousky, Abby Bolton, Dorothy Briggs, Annia DiPalma, Eleanor Flint, Ruth French, Rose Furtado, Frances Guyer, Mildred Hedstrom, Nellie Jop, Florence McKillop, Vera Morgan, Anna Niedzweckas, Annia Obert, Edna Olson, Charlotte Preston, Margaret Pupkis, Margaret Scott, Evelyn Sunskis, Ralph Battles, Walter Bernot, Richard Blanchard, Leslie Burgess, George Canfield, Homer Carson, William Cochran, Henry Cote, Floyd Darby, Alden Doucett, Louis Farmer, Jr., Herbert Fletcher, Roland Fuller, Ralph Garland, Alfred Johnson,Jr., Adam Kazetta, Hugh Mahoney, Austin McCormack, Manuel Pare-d-oelotis, Henry Pestana, John Podgorni, Russell Seamans, George Stevenson, James Whitehouse. Of these 44 graduates, 29 entered high school, 8 vocational school, 6 are working and 1 left town.

High School. In September, 1928, the following is a list of the pupils of Tewksbury enrolled at the Lowell High School: Max Abrahms, Gilbert Ackroyd, Mercelle Aubut, Yvonne Banville, Bronie Barowski, Robert Barron, Ralph Battles, Mary Blais, Carolyn Blanchard, Richard Blanchard, Mildred Bolton, Dorothy Briggs, Gertrude Briggs, Virginia Briggs, Leslie Burgess, Joseph Byron, George Canfield, Mary Carmody, Robert Carmody, Lawrence Carson, Nellie Chase, Bruno Cislowjcis, Alice Clancy, Helen Coyan, Gertrude Colby, Wm. Cochran,ErnestCote Alice Crosby, Thetis Darby, Dorothy Davies, Allan Doucette, Louis Farmer, Fred Flaherty, Herbert Fletcher, Ruth Fletcher, Vincent Flynn, Dorothy Foster, Ruth French, Roland Fuller, Mary Furtado, Edna Gale, Richmond Gale, Ralph Garland, Vincent Gelinas, George Geogomotros, Paul Ginieres, Adella Grenne, Frances Guyer, Marion Guyer, Anna Haas, Mildred Hedstrom, Hector Jackson, Alfred Johnson, Edmund Johnson, Donald Johnston, Joseph Jordan, Lucy Kaulen, Adam Kazetta, Louise Kelley, Elsie King, Harriet King, Pauline Kokinacis, Ernest Livingston, Harold Livingston, Hugh Mahoney, Harry Mann, Edith Marion, Paul McCoy, Florence McKillop, Irene Meister, Keith Meister, Vera Morgan, Anna Obert, Edna

Olson, Thelma Olson, Manuel Parvolotis, Marie Parsons, Georg Pierce, Margaret Pierce, Gladys Penney, Amy Ramsbotham, Edward Sawyer, Margaret Scott, Ruth Small, Thelma Small, Arthur Sparks, James Toothaker, Helen Trull, Edward Wener, James Whitehouse.

Conclusion. In conclusion let me call to your attention the reports of the supervisors and of the Health department which form a part of this report and again I wish to express my appreciation for the co-operation of the teachers and supervisors and the cordial support of the school committee.

Respectfully submitted,

CHARLES L. RANDALL,
Superintendent.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent and School Board of Tewksbury:

In no country has the development of music teaching been so rapid as it has been in this country in the last few years. America, with mechanical devices, has increased the world's leisure, and now it is up to America to show the world what to do with it. In a musical way, America is doing just that. Music is more capable of keeping alive an appreciation of beauty and the spiritual life than most of the arts.

What has school music to do with showing the world how to use its leisure time? Just this: Music is the one form of activity in which the whole school can take part, while at the same time create something beautiful. It is like play minus the exuberant physical activity, but plus an exuberance of the spirit. It requires the most accurate "teamwork," it is unselfish, it awakens sympathy, creates joy, frees the soul and subtly harmonizes the physical being. I am sure all this is visible to the observer in any class. There are four phases in the teaching of music: singing, theory, rhythm, appreciation. In the first two grades a toy band is used to develop rhythm and some reading of music. The results of the previous years of work, are shown in our upper grade choruses and boys and girls glee clubs. The annual music contest last spring was more interesting than usual because the ranks were so very close. Foster school was third, with just two and a half points below the winners. The perfect score pins were presented as usual by the Parent-Teacher Association. The Foster school presented an operetta successfully, for the Parent-Teachers.

I am especially pleased with the results this year, which is due to the splendid and untiring efforts of my co-workers, the teachers.

At this time I would like to thank you, Mr. Randall, and the School Board, for the help and support in my efforts in the schools.

Respectfully submitted,

ISABEL M. GREGORY,
Supervisor of Music.

REPORT OF SUPERVISOR OF DRAWING

Mr. Charles L. Randall,
Superintendent of Schools,
Tewksbury, Mass.

Dear Sir:

The report on the work done in drawing in the schools of Tewksbury is herewith submitted.

Children love to draw and drawing is one of their natural modes of expression. It must be realized that drawing is not for the sake of making a picture; but it trains the mind in accuracy of thought necessary for real observation.

Through careful observation the child sees beauty in everything; and beauty is the most useful thing we know.

Nature work was started at the beginning of the school year. In doing nature work the children are taught delicacy of technique as well as careful observation.

The holiday seasons—Hallowe'en, Thanksgiving and Christmas followed. The children were given a great deal of construction work. Problems such as calendars, boxes, cut outs, window decorations, book marks and lanterns were made. Some classes made greeting cards and place cards. It was necessary to give a few lessons in lettering at this time.

Construction work is loved by all as they have made something they can make use of.

The various elements of design are being studied according to the ability of the classes.

At the completion of our design course more construction work will follow for Valentine's Day, Washington's Birthday and Easter.

In the upper classes a little perspective and object drawing will be studied.

We will resume our nature work with the return of spring.

The children can be taught to love beauty through consciously trying to produce beauty.

I now take this opportunity to thank the Superintendent for his valuable help and interest and the teachers for their willingness to co-operate with me in carrying on my work.

Respectfully submitted,

CHRISTINA G. YOUNG,
Supervisor of Drawing.

REPORT OF SUPERVISOR OF SEWING AND COOKING

Mr. Charles L. Randall,
Superintendent of Schools,
Tewksbury, Massachusetts.
Dear Sir:

The following report is submitted covering instruction in Sewing in the Foster School.

The girls in the seventh grade have made sewing bags, underwear and aprons. Learning to do all their own cutting and stitching on the machine.

The eighth grade girls have all made a patch-work pillow, by hand, underwear, aprons, bags and dresses.

An electric iron and ironing board have been added to the sewing equipment. The girls are learning how to press their work as they go along, there-by giving it a more finished look.

I wish to take this opportunity of expressing my sincere appreciation of the hearty co-operation of the Teachers and Superintendent.

Respectfully submitted,

LENA M. COBURN,

January 14, 1929.

REPORT OF SCHOOL NURSE

To the Superintendent and School Committee of Tewksbury:

As School Nurse I submit the following report for the year 1928:

I have made three hundred and eight visits to the school. Every child has been weighed and measured and a physical record sent home. Every child has been examined for pediculosis, cleanliness, skin eruptions, etc., every two months. Contagious cases have been very carefully followed up and every thing done to prevent their spread.

I have made ninety six visits to the homes and the parents have been willing to co-operate with me in every way. I have conducted one hundred and three children to the Dentist and obtained corrected vision for twenty-five children. Ten children have been with me for the removal of tonsils and adenoids.

Dr. Larrabee has vaccinated forty-six children in school.

In June I had a successful Dental clinic at the Foster School and during October and November, I had clinics in all the schools except the West. Three hundred and ten children had work done. Dr. McNally did one hundred and thirty-six cleanings, four hundred and eighty fillings of various kinds and one hundred and forty nine extractions. He tells me that our children's teeth are in much better shape than the average school children.

I borrowed a set of slides from the State Dept. of Public Health and showed them to all the children in schools except those at the West School. I showed them in the evening at the Shawsheen School and at a meeting of the Parent-Teacher Association. They were called "Your Teeth" and I gave a talk in each case.

I have done one hundred and seventy-three dressings in school.

This fall I attended the New England Health Conference in Burlington Vt. From what I learned there I am sure we do as much practical health work for our children as any place in New England.

Respectfully submitted,

EMMA P. MacLAREN,
E. P. M.

REPORT OF SCHOOL PHYSICIAN

To the School Committee of the Town of Tewksbury:

I will make the following brief report of the health status in our schools. The sanitary conditions are very good in all the schools, and the general health of the children is above the average, of towns of our size. Our contagious cases have been well rounded up, and the value of a school nurse proven. Through the cooperation of the Tuberculosis department, of the State Board of Health, we expect a clinic this year,, which will be most thorough in its scope even to X-Ray examinations of necessary cases, I hope the parents of school children will send the necessary permission for this clinic.

Respectfully submitted,

HERBERT M. LARRABEE M. D.
School Physician.

I hereby certify that I have examined the accounts of town officers who were authorized to receive and expend money, for the year ending Dec. 31, 1929, and to the best of my knowledge they are correct, with proper vouchers on file, and $16,172.98 in the treasury.

ROBERT E. GAY,
Town Auditor.

Personally appeared before me on this thirteenth day of January, 1930, Robert E. Gay, and made oath that the foregoing statements were correct.

THOMAS F. FLYNN,
Justice of the Peace.

Board of Public Welfare.

TABLE OF ESTIMATES FOR 1929

Street Lighting	$ 7,600.00
Incidentals	1,200.00
Highways	15,000.00
Schools	51,156.00
Library (Dog Tax)	750.00
Police	2,500.00
Stationery and Printing	750.00
Board of Health	1,500.00
Salaries	2,550.00
Park Commission	250.00
Tree Warden	250.00
Dept. Public Welfare	3,800.00
Fire Department	3,000.00
Town Hall	3,300.00
Assessors	1,650.00
Vocational School	3,500.00
Inspection of Meats and Animals	800.00
Aid, State and Military	800.00
Interests on Loans	3,500.00
Collection of Taxes	3,000.00
Gypsy Moth	2,000.00

REPORT OF INSPECTOR OF MEATS AND PROVISIONS

To the Board of Selectmen, Town of Tewksbury:

Gentlemen:—The following is my report for inspection of meats and provisions from January 1 to August 16, 1929.

No. of sides of beef inspected	714
No. of sheep inspected	675
No. of swine inspected	145
No. of calves inspected	690
No. of sides of beef condemned	14
No. of sets of lungs condemned	34
No. of heads condemned	14
No. of livers condemned	8
No. of swine condemned	7
No. of livers condemned	9
No. of heads condemned	11
No. of sets of lungs	9
No. of veals condemned	20
No. of sheep condemned	1

Respectfully submitted,

THOMAS P. SAWYER.

REPORT OF INSPECTOR OF ANIMALS

To the Selectmen of the Town of Tewksbury:
Gentlemen:

Following is the report of the Inspector of Animals from Jan. 1, 1929 to March 1, 1929:

Cows inspected	766
Young cattle inspected	134
Bulls inspected	25
Sheep inspected	3
Hogs inspected	320
Oxen inspected	4
Stables inspected	87

Respectfully submitted,

HUGH CAMERON.

To the Board of Selectmen, Town of Tewksbury:
Gentlemen:

Following is my report for Animal Inspection from April 1 to December 31, 1929:

I have released for immediate slaughter 185 head of cattle, 81 calves.

For Dairy Purposes: 39 head of cattle.

Five dogs were quarantined for rabies, and released at the end of fourteen days.

I have inspected six barns where cattle are under State and Federal supervision.

Respectfully submitted,

THOMAS P. SAWYER.

REPORT OF INSPECTOR OF ANIMALS

To the Board of Selectmen, Town of Tewksbury:

Gentlemen:—Following is my report for inspection of meats and provisions for the year of 1929 from Aug. 19 to Dec. 31, 1929:

Sides of beef inspected	87
Calves inspected	132
Hogs	261
Sheep	1753

Cattle Condemned:

No. of sides of beef	5
No. of heads	1
Sets of lungs	3
No. of livers	3

Swine Condemned

No. of swine condemned	2
No. of heads	1
Sets of lungs condemned	2
No. of livers condemned	2

Calves Condemned

No. of veals condemned	6
No. of sheep condemned	4

Respectfully submitted,

ASAHEL H. JEWELL,
Inspector.

REPORT OF SEALER OF WEIGHTS AND MEASURES

Gentlemen:

Following is the report as Sealer of Weights and Measures for the year ending Dec. 31, 1929:

Platform scales over 5,000 lbs.	3
Platform scales under 5,000 lbs.	6
Computing scales	11
Spring scales	14
Liquid Measures	226
Gasoline pumps	48
Kerosene pumps	4
Beam scales	2
Molasses pumps	1
Yard sticks	3

I have collected and turned over to the Town Treasurer $40.31.

Respectfully submitted,

HUGH CAMERON,

REPORT OF AGENT FOR SUPPRESSION OF GYPSY AND BROWN TAIL MOTHS

To the Honorable Board of Selectmen:-
Gentlemen:

As Agent for the Suppression of the Gypsy and Brown Tail Moths I submit the following:

Gypsy moth conditions show a slight increase having found several colonies which if let go might have been the start of a bad infestation. These colonies have been creosoted and booked for spraying this coming summer. Again I would call your attention to the heavy stripping of woodlands in the border towns. I would recommend a thorough spraying of all the main roads into our town. Also the scouting of woodlands bordering these streets and towns so that any colonies found could be held in check as in 1929.

At the start of 1929 the State Auditor ruled that private work (spraying) should be covered by a special appropriation. As this was not raised at the annual meeting we were authorized by the Selectmen to do this work and collect as we did the work. After several weeks trial this didn't seem right so I consulted the State Auditor and he advised me not to do it so at the special meeting in June we we allowed $600.00 to cover this work, which seems about right. I would therefore recommend raising the liability demanded by law plus $600.00 for private work.

Yours respectfully,

HARRIS M. BRIGGS.

REPORT OF TREE WARDEN

To the Honorable Board of Selectmen:
Gentlemen:

As Tree Warden I submit the following report:

During the year brush was cut on the following streets with the mileage of same:

Shawsheen St. 4 miles; Whipple 3.05 miles; East 1.05; Lowe St. .05; Pleasant 1.01; Park Ave. .02; Marshall .05; Marston 1.02; French .04; Trull Rd. 1.02; Bailey Rd. .02; North 2; Foster 1.02; Cross .06; Bridge .04; Livingston 1.06; Chandler 2.08; Pond .07; Chapman .04; Rogers 1.08; Castle 1.01; Clarke Rd 1.04; Andover St. 1.05; Fiske .05; Kendell 1.06; Maple .08; Ballard 05 and South St. 2 miles.

This makes a total of 36.03. Of this amount 29.04 was re-cutting and 4.09 miles of new cutting. The new cutting was done on South street from Main street to Andover line, Livingston street, Ballard and Bridge streets.

At the start we bought a secondhand one-horse mower and we feel sure this cut down the cost considerable of the re-cutting. I would recommend an appropriation large enough to cut out the remaining streets and re-cut those already done. Trees which we considered dangerous have been cut or pruned as far as our appropriation would allow.

Yours respectfully,

HARRIS M. BRIGGS.

REPORT OF HEALTH DEPARTMENT

Gentlemen:

As agent of this department, the following is my report for the year ending December 31st, 1929:

Reportable Cases

Diseases	No. Cases	Deaths
Scarlet Fever	2	0
Diphtheria	3	0
Measles	4	0
Mumps	2	0
Chicken Pox	0	0
Tuberculosis	1	0
Pneumonia	4	1
Typhoid Fever	0	0
Total	16	1

The health situation has been very fair this past year, as far as diseases of a contagious nature are concerned, but as is quite usual near the holidays we have been having a few of the minor reportable diseases. Chicken Pox, Mumps and Whooping Cough. The two former can be handled fairly well because of the ease of diagnosis, but the Whooping Cough is one of the most trying of our reportable diseases to handle. It is just as contagious in its bronchial stage, before whooping stamps it as later, and with all the bronchial colds prevalent at this time of year the problem of early diagnosis and isolation is very trying. I would appreciate very much the help of the parents and physicians in reporting cases of this character to the Board of Health, as we are very much cramped in handling cases that we are not aware of.

We have been under a larger expense this past year than usual to the extent of $78.00 a month, on account of our support of a female patient at the Lakeville Sanatorium. My investigation of this case shows a probably prolonged stay there at least another year, and the law places the support upon the Board of Health. In the past we have anticipated this possibility and appropriated a sum to cover such a case, as well as an anticipated one.

H. M. LARRABEE, Agent

ANNUAL REPORT OF THE HIGHWAY COMMISSIONERS
REPORT OF THE HIGHWAY DEPARTMENT

Board of Selectmen,
Tewksbury, Mass.

Gentlemen:

The following is our report for the year ending December 31, 1929, as compiled from the daily reports of the Superintendent of Streets.

The past year was the first in which we operated an entirely motorized department from January until December. Consequently, a greater number of permanent men were required to operate the Department throughout the year. Extra men were necessary, however, during the periods in which construction work was at it's height, which is usually when the roads are being oiled, and new extensions are being made.

During the past twelve months a considerable amount of work was accomplished in addition to our regular maintenance program. Many streets were resurfaced with either cinders or gravel, and despite the fact that we had $1,000.00 less in our regular appropriation than heretofore, and didn't have the usual appropriation of the past few years for cinders or gravel, we feel, that the town has received a dollars worth for every one spent, and that a good volume of work has been produced.

We wish to state that in the future, it will be necessary to increase our oil appropriation considerably, in order to properly maintain the ever increasing number of newly gravelled roads, thruout the town. This is a very important matter which should not be overlooked very readily, as it is folly to build roads under the present fast traffic, without a good binder to retain them.

It was necessary to use considerable of our regular appropriation in order to purchase sufficient material to treat the resurfaced streets. An appropriation of $5,000.00 will be required for 1930. The roads which have been oiled are steadily improving, and North Street, Pleasant Street, Whipple Road, Clark Road, Lee Street, Chandler Street, and Shawsheen Street are responding to oil treatment in an excellent manner. Three years of oiling is usually required to perfect a road according to oil experts, and we can heartily agree with them in this respect. Much attention has been given to patching, and after all, maintenance of this sort, is the only real method of safeguarding our expenditures.

On cinder roads where oil cannot be applied, we used calcium chloride, which proved quite satisfactory, and gave good results despite the unusually dry summer.

One of the major problems confronting us now, is the reconstruction of nearly all of our old stone culverts, as they are giving us no end of trouble. Some are breaking down, others not having ample waterway, while some more are completely blocked, and the road surface, or the property of some abutter is being destroyed for lack of drainage. Our Superintendent made a survey of the entire town, and made a report to us of the condition of the various culverts, together with an approximate cost of a new installation in each case. Long culverts should be used where practical, because this eliminates the use of guard rail, which is costly to maintain. We recommend an appropriation of $1350.00 to correct the culvert situation. The following is a list of the culverts where new installations are recommended:

Location	No. of Culverts	Length	Diameter
Whipple Road, near Lowell line	1	38 feet	18 inches
Astle Street	1	28 "	12 "
Trull Street	1	28 "	10 "
Trull Street, at Trull Brook	2	30 "	36 "
Trull Street, at River Road	1	150 "	12 "
Marston Street, near Rogers St.	1	32 "	18 "
Rogers Street, near Whipple Rd.	1	40 "	18 "
Pleasant Street	1	32 "	12 "
Pleasant Street	1	40 "	12 "
Pleasant Street, near Summer St.	1	40 "	6 "
North Street, so. of R. R. Cross.	1	40 "	36 "
North Street	1	34 "	10 "
Chandler Street, at Foster St.	1	68 "	15 "
Lee Street	1	44 "	18 "
Bridge Street	1	30 "	15 "
South Street, near Bridge St.	1	30 "	18 "
South Street, near Bridge St.	1	32 "	18 "
Vale Street	1	30 "	10 "
East Street, near Carter St.	1	30 "	12 "

The money asked for in the article in the Town Warrant is for material only, and does not include the cost of installation.

Guard rail in many places is in deplorable condition, and presents a hazard which will have to be corrected without delay. Another thing which has been sadly neglected for some time is guide

signs. There are very few thruout the entire town. During the past year we erected three large standard guide signs in North Tewksbury, and they are neat, clear and comprehensive. Others will be erected during the coming year. Large national standard orange railroad signs were erected at all railroad crossings by our department, as required by Chapter 160 of the General Laws.

At this years meeting we must decide on the construction of Salem Road. State and County officials are very anxious to have the Town act favorably in this regard. Another street which should receive attention is Woburn Street, and bituminous macadam is the type of construction which we would recommend on this thorofare to withstand the heavy traffic. The present roadway is saturated with acid, and will have to be excavated.

The following streets were oiled, showing the number of gallons used, and the number of cubic yards of sand required to cover the oil:

Street	Oil	Sand
Trull Street	2,700 gallons	2 cubic yards
Salem Road	2,693 "	5 " "
East Street	1,683 "	5 " "
Livingston Street	2,350 "	10 " "
Pine Street	600 "	8 " "
Chapman Street	1,900 "	5 " "
Dewey Street	900 "	9 " "
Lee Street	1,300 "	23 " "
Chandler Street	6,350 "	221 " "
Pleasant Street	3,500 "	92 " "
North Street	9,900 "	439 " "
Whipple Road	6,700 "	266 " "
Clark Road	2,782 "	76 " "
Shawsheen Street	7,600 "	41 " "
East Street—sand to bind stone		82 cubic yards
Andover Street—sand to bind stone		9 cubic yards
Sanding streets and sidewalks		51 cubic yards

A total of 1,344 cubic yards of sand was hauled and used. The total of 51,018 gallons of oil were distributed on the various streets. This does not include the oil, cold tar patch, or asphalt which was used for patching.

The following streets were treated with calcium chloride:
East Street—Maple Street to Andover line.
Maple Street—entire length
Vernon Street—entire length.

Hood Road—entire length.
River Road—Hood Road to Bailey Road.
Fiske Street—entire length.
State Street—entire length
Lake Street—entire length.
South Street—Fernwood to Wilmington line.
Brown Street—South Street to residence of Mr. Purdy.
Whipple Road—French Street to Lowell line.

Calcium Chloride can also be used to cure concrete, or in place of salt to melt ice or snow.

The following streets were resurfaced in whole or in part with gravel or cinders, and the number of cubic yards placed on each street:

Street	Cinders	Gravel
Andover Street		32.5 cubic yards
Astle Street		43.5 " "
Vale Street		49.5 " "
Chandler Street		90.5 " "
Pringle Street		4.5 " "
Marston Street	8 cubic yards	
Pinnacle Street	328 " "	
River Road	17.5 " "	56 " "
Pine Street	8 " "	
Pike Street		22 " "
Old Boston Road		5 " "
Brown Street	7 " "	
Maple Street	2 " "	
Kendall Street	2 " "	3 " "
Woburn Street		78 " "
Rogers Street		437 " "
Fiske Street		27 " "
Marshall Street		55.5 " "
Billerica Street		104.5 " "
Clark Road		80.5 " "
North Street		367 " "
Dewey Street		226.5 " "
Mill Street		2.5 " "
Shawsheen Street		72.8 " "
French Street		9 " "
Glendale Aven		6 " "
Town Hall Ave.		57 " "
Foster Street		7 " "
Bridge Street		78.5 " "

Lee Street				54	"	"
Carter Street	108	"	"			
South Street	4	"	"	143.5	"	"
State Street	2	"	"	3	"	"
Hood Road				10.5	"	"
Pleasant Street				192	"	"
Livingston Street				628	"	"
Trull Street				1,169	"	"
Lake Street				172.5	"	"
East Street	154	"	"	484.5	"	"
Whipple Road				227	"	"
Lowe Street	679	"	"	21	"	"
Cross Street	353	"	"			
Ballard Street	426	"	"			

The total amount of cinders used was 2,098 cubic yards, and the total amount of gravel placed on the various streets was 5,684 cubic yards.

Although no accurate record is kept of material consisting of dirt, sods, or other surplus refuse removed from roadways, approximately 527 cubic yards were handled during the year.

The total amount of material hauled by the department during the year amounted to 9,602 cubic yards. This includes sand, gravel, and cinders.

The supply of cinders which we have been obtaining from the abandoned right of way of the Boston and Maine Railroad have become exhausted, so that all work in the future will be of gravel construction.

Culverts

One new culvert was installed on Billerica Road, near the residence of Mr. Heidenrich, replacing an old stone culvert which had not been functioning for years. This culvert is 32 feet long and 10 inches in diameter, and is of sufficient size to care for the needs at this place.

Another culvert was installed on Vale Street, near the Andover town line. This consisted of two lengths of heavy iron pipe, which had previously been used as a culvert, under the abandoned railroad right of way. It is 18 inches in diameter, and 20 feet long; and makes an ideal culvert for this location. It was obtained without cost.

Special Appropriation $1,500.00 For Gravel Pit

Previous to the last annual town meeting, we had been obtaining gravel from a bank located just off Shawsheen Street. We were then paying for it by the load. The gravel here is excellent, and quite free from rocks. In this part of the town, much of the land has been sold in house lots, by land development companies, consequently in order to purchase this bank, it was necessary to buy seven lots of land. Three of the lots are located on Shawsheen Street being numbered 478, 479 and 480, and the remaining four on Hillside Road and numbered 487, 488, 489 and 490. Only those which actually constituted the hill itself were bought. Located between Birchwood Road and Oakview Road just off Mohawk Drive is another hill, and tests made here proved the gravel to be equal if not better than the previous one. We purchased six lots here, all of which are located on Oakview Road. They are numbered 388, 389, 390, 391, 392 and 393. This was all we could buy with the balance of the appropriation, but will provide the department with gravel for some years to come. The first one referred to is over 25 feet high, and the second graduates in height from 50 feet to 65 feet. Both are readily accessible for trucks, being situated in close proximity to Shawsheen Street, and a private road leads to the bank.

Special Appropriation $6,000.00 For Road Roller

After making a thorough investigation of the various makes of road rollers, as to weight, construction, rigidity, and motive power, we decided that the Buffalo-Springfield was best suited to the needs of our department. Therefore, we purchased a 12-ton, latest type, Buffalo-Springfield, four cylinder, three wheel, three speed gasoline motor road roller, equipped with a Buffalo-Springfield pressure scarifier. This roller has performed every operation well, whether scarifying or rolling. The town can rest assured that no mistake was made in the purchase of this roller.

Special Appropriation $1,000.00 For Andover Street

Work on this street being under the provisions of Chapter 90 of the General Laws, the state and county each contributed a similar amount, thereby making a total of $3,000.00. A large portion of the roadway near the Lowell line was rebuilt, to form a perfect approach to the concrete construction in Lowell. The grade at this point, on the southerly side of the highway was lowered fourteen inches to

allow a free flow of water. This eliminated the use of a catch basin which we abolished. The construction was of bituminous macadam, and built to state specifications. Considerable patching was done near the Andover town line, and in places where the edges of the roadway had been damaged they have been repaired. The shoulders were dragged and otherwise maintained. New guard rail was erected to replace that which had become broken or decayed. The guard rail on the entire street has been repainted, and a new length erected near the Longmeadow Golf Club. Two new drop inlets were constructed, and 130 feet of 10-inch vitrified clay pipe laid for drainage purposes. Some 300 feet of 10-inch pipe which had been out of service for some time was put into operation. All the work was done by our own department, and we have been complimented on it's neatness.

Special Appropriation $1,000.00 For East Street

As in the case of Andover Street, this appropriation was also expended under the provisions of Chapter 90 of the General Laws. The state and county contribution bringing the total amount of money spent on this job to $3,000.00.

The specifications in this contract called for construction of 600 feet of bituminous macadam, and our department exceeded this by 50 feet, and built two approaches at the State Infirmary, besides a new standard catch basin was built, and a 15-inch concrete culvert installed under the roadway extending into the Infirmary athletic field. A granite head wall was constructed at each end, and guard rail was erected on the easterly side of the highway. Had we built this road of 4-inch construction instead of 8 inches we could have extended the macadam to Livingston Street, but we were advised not to do this. A highway built in the proper manner will last for a number of years; in other words we sacrificed quantity for quality. This was the first penetration asphalt road built by our department, and it is a credit to every man on the job. The railroad crossing across the junction of East and Chandler Streets was completely rebuilt while we were working on East Street, so we built new approaches from both sides. The state commissioners of public works have approved the above work in a letter to us dated November 19, 1929. The Andover Street construction has been approved also in a similar manner. We wish to thank Dr. Nichols, Superintendent of the State Infirmary, Chief Engineer Dooley, and Superintendent of Maintenance Nash, also of the Infirmary, for their kind co-operation and assistance during the construction of East Street.

Owing to the fact that our valuation is constantly changing, the amounts which we must align with the state under the provisions of this act, are changing from year to year. In 1929 we were required to expend the sum of $8,250.00, while the state contribution was $5,500.00. The previous year, 1928, we expended $6,700.00. Maintenance of our town roads is the principal requirement under Chapter 81, snow removal, and construction or repair of bridges being excepted. The work done during the past year has been approved.

In closing, we wish to thank all who have cooperated with us in any way, and trust that we have given the townspeople a concise and comprehensive report of the work done, and some of our requirements for 1930. We remain,

Yours respectfully,

JOHN T. GALE,
WILLIAM I. BAILEY,
ASAHEL H. JEWELL,
Highway Commissioners of Tewksbury.

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen:
Gentlemen:

We, the undersigned Park Commissioners, submit the following report:

Considering the elements during the summer months the commons were kept in fine condition. Lawns on the Common at the Centre were treated with fertilizer.

The flag pole was given two coats of paint.

The usual illumination of the tree at the Centre during the Christmas and New Year's Holidays was appreciated by both residents and visitors.

We sincerely recommend the same appropriation as last year.

Respectfully submitted,

MISS EDITH A. FORISTALL, Chairman
HARRIS M. BRIGGS
CHARLES H. WENTWORTH, Secretary

REPORT OF CHIEF OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen:
Gentlemen:

As chief of the fire department I herewith submit the following total number of fires attended:

Forest fires	46
House fires	13
Automobile fires	2
False alarm	3

Total value of building and contents: Forty-seven thousand four hundred and twenty-five dollars ($47,425.00). Damage fourteen thousand and fifteen dollars ($14,015). Insurance paid: Eleven thousand five hundred and seventy-one dollars ($11,571.) Personal property of the Fire Department, thirteen thousand and two hundred dollars.

Respectfully submitted,

A. S. HAINES,
Chief of Fire Department.

REPORT OF MIDDLESEX COUNTY EXTENSION SERVICE

The following is a report of the work carried on in the town of Tewksbury under the auspices of the Middlesex County Extension Service.

In boys' and girls' 4-H club work 78 boys and girls were enrolled in the clothing, lunch-box, garden and poultry clubs. Mrs. E. P. Maclaren assisted as local leader. Ferdinand Cuccoli was awarded one of the prizes offered by the North Middlesex Agricultural Society in the garden club contest. Blanche Rychwa was awarded a two day trip to the Massachusetts Agricultural College for doing outstanding club work. The poultry club of the town went on the country-wide poultry tour. At the time of the 4-H club rally in Lowell many local boys and girls attended and the lunch-box club won a sweepstake ribbon on their part of the program.

Three communities in Tewksbury carried a series of Living-room Improvement meetings and the homemakers reported 222 changes in their homes as a result of these meetings. West Tewksbury, South Tewksbury and North Tewksbury were active in this work. Also, West Tewksbury under the leadership of Mrs. Leonard Pineau and Mrs. F. A. Malenson and South Tewksbury under the leadership of Mrs. Robert Wells and Mrs. Maude Griffin, were interested in the Vegetable Preparation program. Professor William R. Cole of the Massachusetts Agricultural College gave a canning demonstration for the benefit of the home-makers of Tewksbury.

In agriculture most of the work took the form of individual farm visits. These visits were made upon request to assist individual farmers with their local problems. Twenty-two of these visits were made during the year.

Eight educational motion picture shows were given to a total attendance of 2020.

Country-wide meetings in poultry, fruit growing and market gardening have been available to the Tewksbury people and many attended the county picnic held during the summer at Wayside Inn, Sudbury, Mass.

REPORT OF TRUSTEES OF TEWKSBURY PUBLIC LIBRARY

The Trustees of the Tewksbury Library submit the following report:

Details of expenditure will be found in the Auditor's Report.

The list of books added and donations in the Report of the Librarian.

The regular meetings, the first Saturday of each month, have been held during the year, with the exception of July and August.

The Trustees have not been able to do as much as they wished, as the dog taxes were one hundred dollars less than last year.

Our great need is of more space, as we have more books now than our racks will hold. We send boxes of books to the schools at the North and South part of the town, and would gladly co-operate with the other teachers if called upon to do so.

The Trustees would welcome any advice so that we may make the Library of more use to the community.

The children seem to enjoy the Library fully as much as the older ones, and we wish we could do more for them.

On account of lack of space and the little call for non-fiction we do not buy as many as we would like. We wish that more of the subscribers to the Library would take advantage of the offer of the Trustees and ask for any of non-fiction that they would care to have.

We wish to thank the Librarians for the faithful and courteous service which they give, the donors of books for their generosity, and the patrons of the Library for their co-operation.

The Trustees respectfully request that the article in the Warrant asking for the Library an appropriation of 750 dollars and the money received from the dog taxes be granted.

Respectfully submitted,

KATE FOLSOM
RUTH H. TINGLEY
RUTH W. SMITH
EGDAR SMITH
GEO. A. MARSHALL

LIBRARIAN'S REPORT

To the Board of Trustees of the Tewksbury Public Library:

The following report is respectfully submitted:

The circulation of books as a whole shows an increase, especially in the districts.

There is a steady increase in the circulation of magazines.

There is quite a call for reference books which may be kept a month, unless called for by other patrons.

Four boxes are being sent to the districts: Wamesit, South Tewksbury, North Tewksbury School and Shawsheen School.

Several books have been purchased on request during the past year. The Trustees will purchase books on request if names and authors of books are left with the Librarian.

A donation of books was received from Mrs. Brooks Stevens, Jr., for which we are very grateful.

The library is open to the public Wednesday evenings from 7.00 to 8.30, and Saturday afternoons and evenings from 2.00 to 9.00. Legal holidays excepted.

Selectmen of Tewksbury.

WARRANT FOR ANNUAL TOWN MEETING

Middlesex ss.

To either of the Constables of the Town of Tewksbury in said County:

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Tewksbury, qualified to vote in Town affairs, to meet and assemble at Town Hall in said Tewksbury, on Saturday, the 1st day of February, 1930, at nine o'clock A. M., to act on the following articles:

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all necessary Town Officers, to choose by ballot a Town Clerk, three Selectmen, three members of the Board of Public Welfare, three members of the Board of Health, a Town Treasurer, an Auditor, a Collector of Taxes, a Tree Warden and Constables, (Three) all to serve one year: one Highway Commissioner to serve three years, one School Committee to serve three years; two Trustees of the Public Library to serve three years; one Park Commissioner to serve three years; one Assessor to serve three years. The polls for the election of Town Officers to be opened at nine o'clock A. M., and close at four o'clock P. M.

ART. 3. To hear reports of Town Officers and Committees and act thereon.

ART. 4. To see what sums of money the Town will vote to raise by taxation to defray necessary expenses for the current year, and make appropriations for the same.

ART. 5. To see if the Town will vote the money arising from licensing dogs, for the ensuing year, to aid in support of the Public Library.

ART. 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

The vote to be as follows:

Voted:—That the Town Treasurer with the approval of Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1930, and to issue a note or notes therefor, payable within one year, and debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 7. To see what compensation the Town will vote for the collection of taxes, and at what rate and from what date interest shall be charged on taxes of 1930 unpaid after November 1, 1930, or take any other action relative thereto.

ART. 8. To see if the Town will vote to raise and appropriate the sum of $250.00 for the proper observance of Memorial Day, and appoint a committee to expend the money. Said committee to be taken from members of the G. A. R., Spanish War Veterans, American Legion, and Sons of Veterans.

ART. 9. To see if the Town will authorize the Selectmen to institute suits on behalf of the Town or defend any suits that are, or may be brought against the Town.

ART. 10. To see if the Town will vote to raise and appropriate the sum of $175.00 or some other amount and elect a director; the money to be expended by and the director to serve in cooperation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, under the provisions of Sections 40 to 45, Chapter 128, General Laws of Massachusetts.

ART. 11. To see if the Town will vote to install electric lights on Shawsheen Street, from present terminal to Vale Street, and on Vale Street to the residence of N. F. Saunders, and make appropriations for same or take any other action relative thereto.

ART. 12. To see if the Town will vote to move the Town Scales from the present junction of River Road and Andover Street to some point in the village at North Tewksbury, and raise and appropriate money for same, or take any action relative thereto.

ART. 13. To see if the Town will vote to raise and appropriate the sum of $250.00 for the purchase and planting of shade trees, or take any action relative thereto.

ART. 14. To see if the Town will vote to raise and appropriate the sum of $5,000.00 for oil or other binder, or take any other action relative thereto.

ART. 15. To see if the Town will vote to raise and appropriate the sum of $6,000.00, or any other sum, for specific repairs on Salem Road, provided the State and County each appropriate similar or greater amounts respectively, as provided for in Chapter 90, of the General Laws, or take any other action relative thereto.

ART. 16. To see of the Town will vote to raise and appropriate the sum of $1,000.00, or any other sum, for specific repairs on Woburn Street, provided the State and County each appropriate similar or greater amounts respectively, as provided for in Chapter 90, of the General Laws, or take any other action relative thereto.

ART. 17. To see if the Town will vote to raise and appropriate the sum of $1,350.00 to install new culverts throughout the Town, in the various streets, as given in the Highway Commissioners' report, or take any other action relative thereto.

ART. 18. To see if the Town will vote to raise and appropriate the sum of $10,000.00 to start the macadamizing of North Street, beginning at Andover Street, or take any action relative thereto.

ART. 19. To see if the Town will vote to raise and appropriate the sum of $500.00 to cinder or gravel River Road, from the residence of Mr. Thompson to Andover Street, or take any action relative thereto.

ART. 20. To see if the Town will vote to widen, gravel and repair Astle Street, appropriate money for same, or take any action relative thereto.

ART. 21. To see if the Town will vote to cinder or gravel Marshall Street, from Main Street to Pleasant Street, and make appropriation for the same, or take any other action relative thereto.

ART. 22. To see if the Town will vote to create a Board of Commissioners of Trust Funds, as provided for in Section 45, of Chapter 41, of the General Laws.

ART. 23. To see if the Town will vote to accept Section 13, of Chapter 40, of the General Laws, providing for a Municipal Buildings Insurance Fund.

ART. 24. To see if the Town will vote to raise and appropriate the sum of $278.06 to pay unpaid bills of the Fire Department, and $1,395.66 for unpaid bills for the Vocational School, or take any action relative thereto.

ART. 25. To see if the Town will vote to accept Section 3, of Chapter 143, of the General Laws.

ART. 26. To see if the Town will vote to accept the following building laws, or take any action relative thereto:

Section 1. An Inspector of Buildings shall be appointed annually by the Selectmen during the month of February, for a term of one year or until his successor has been appointed and qualified and shall be familiar with building construction.

Sec. 2. The Inspector shall examine all buildings in the course of construction, alteration and repair, and see that all By-laws of the Town in relation thereto are complied with and, when necessary, shall take proper measures to secure such compliance. He shall keep a record of the business of his office, make all returns required by law, and shall make an annual report of his work to the Selectmen with such recommendations as he may deem best. He shall perform such other duties as may be prescribed by these By-laws.

None of the provisions of these By-laws shall be construed so as to conflict with the requirements of the District Police under the authority of Chapter 104, Revised Laws.

Sec. 3. No building except those which come under the provisions of the Revised Laws, Chapter 104, Section 22, and one story wooden buildings less than ten feet square, shall be erected, and no addition or alteration changing the character of any such build-

ing shall be made by any person unless he shall first file with the Inspector plans and specifications or a full description of the proposed work. If the plans, specifications or description so filed shall be in compliance with the building limitations prescribed in these By-laws the Inspector shall forthwith issue a permit therefor.

Sec. 3a (Amendment). For the purposes of these By-Laws all buildings shall be classified as follows:

Type 1. Residence Buildings.
Type 2. Business Buildings (Wood).
Type 3. Business Buildings (Masonry).
Type 4. Garages.
Type 5. Farm Buildings.

Sec. 4. To obtain a permit the person intending to erect or make such alterations in such building shall, three days before the work is to begin, file with the Inspector a notice of the intention with plan together with specifications or a full description of the proposed work.

Board of Appeal

Sec. 5. The Board of Selectmen shall annually appoint a committee of three citizens of Tewksbury for a term of one year, or until their successors are appointed and qualified, to be called the Board of Appeal. In case of doubt as to the true meaning, intent or application of these building laws, either the Inspector or any one aggrieved by the ruling of the Inspector thereon may by petition bring the matter before said Board for determination. The Board shall thereupon give a hearing on such petition and determine the true intent, meaning and application of these By-laws. A decision by a majority of said Board shall be binding on all parties affected thereby.

Foundations

Sec. 6. No wooden building of Type 1 shall be placed within 10 feet of the side lot lines or within 15 feet of the line of street upon which the building faces. No building of Type 2 not over two stories in height and wooden buildings of Type 5 shall not be placed within 6 feet of the lot line or within 12 feet of any other wooden building. Buildings of Type 3 having solid external masonry walls may be built to side lot lines but buildings of this type having pierced external walls along side lines shall be placed not less than 3 feet from lot lines. No building of Type 2 and 3 shall be placed less than three feet from line of street or streets. For required distances of garages from lot lines and other buildings, see Regulations of Fire Prevention Commissioner. Any wooden building may be placed a less distance to lines and buildings provided wall or walls nearest to line or buildings are made fireproof by approval of the Inspector.

Sec. 7. All masonry foundations shall extend 3 feet below adjoining surface exposed to frost. In cases of poor soil the Inspector may require additional footings to keep the stresses in masonry and on the soil within proper working stresses. All materials shall be of such quality as to insure, in the judgment of the Inspector, ample safety to life, limb and neighboring property and the Inspector shall have power to reject all materials which in his opinion are unsuitable. Brick, stone, or concrete blocks used in foundations shall be laid in cement mortar-mixture by volume to consist of one part cement, one-half part lime and not more than three parts sand. Solid concrete used in foundations shall consist of mixtures by volume of one part cement and not more than two and one-half parts sand and five parts crushed stone or one part cement, and not more than six parts bank gravel. In case of severe thrust or pressure on foun-

dation walls from any cause, such walls shall be strengthened by thickening or reenforcing as the Inspector may require. In case of doubt as to strength of any material used in foundations the Inspector may order tests made at the expense of the owner. Concrete blocks used in foundations shall at 28 days develop an average ultimate compressive strength of 700 pounds per square inch of gross sectional area of block when testing six blocks. Every building of Type 1 not exceeding two stories in height and buildings of Type 5 exceeding one story in height shall have masonry foundations, when retaining not more than six feet of earth, a minimum thickness of

Concrete	10 inches
Block Stone	16 inches
Brick or Concrete Blocks	12 inches
Rubble Stone	18 inches

All brick and concrete blocks must rest on footings of stone or solid concrete not less than 12 inches in height. Foundations of buildings of Type 1, exceeding two stories and buildings of Type 2, not exceeding two stories in height, shall have masonry foundadations, when retaining not more than 10 feet of earth, a minimum thickness of

Concrete	12 inches
Block Stone	16 inches
Brick or Concrete Blocks	16 inches
Rubble Stone	24 inches

Foundations of buildings of Types 3 and 6 not over one story in height shall have masonry foundations, when retaining not more than 10 feet of earth, with a minimum thickness of

Concrete	12 inches
Block Stone	16 inches
Brick or Concrete Blocks	16 inches
Rubble Stone	24 inches

Buildings of the above Types more than one story in height shall have solid concrete foundations at least 4 inches thicker than walls resting upon them. Buildings of Type 1 not over one story in height and not over 400 square feet floor area may be set upon cement posts not less than 6 inches square placed in earth at least 2 feet 6 inches and spaced not more than 6 feet apart. Farm buildings not exceeding one story in height may be set upon wood posts, size and spacing to be determined by the Inspector. All other farm buildings shall have foundations of same thickness as that of buildings of Type 1.

Underpinnings

Sec. 8. All cellar walls above grade of buildings of Type 1, not exceeding two stories in height, shall have a minimum thickness of

Concrete	8 inches
Brick or Concrete Blocks	8 inches
Stone	16 inches

Where walls are over 6 feet in height or building is increased in height the thickness of walls shall be increased at least 4 inches for any increase in height of walls or increase in the height of building. Cellar walls above grade of buildings of Types 2 and 3 shall be of same thickness as foundation walls, and material used shall be of same grade and quality as in foundation walls. No sand, lime or soft brick shall be used in foundations or underpinnings.

Walls

Sec. 9. Wooden buildings of Types 1 and 2 and of Type 5 over one story in height shall have braced frames, except dwelling houses not exceeding one and one-half stories in height may have balloon frames. Braced frames of buildings not exceeding two stories in height shall have sills, corner posts and girts not

less than 4 x 6 inches, plates not less than two 2 x 4 inches and braces not less than 2 x 4 inches, and of buildings exceeding two stories in height shall have sills not less than 6 x 6 inches and girts and corner posts not less than 4 x 8 inches. Girts and posts shall be tennoned and pinned together. All studs in outside walls and in partitions supporting floors shall be at least 2 x 4 inches and set not more than 16 inches center to center.

Balloon frames shall have sills and corner posts not less than 4 x 6 inches, plates not less than 2 x 4 inches, and ledger boards not less than 1 x 6 inches and notched into studs at least 1 inch and space between studding below and ledger board shall be filled with material same size as studding. Outside wall studs shall run in one piece from sill to plate, and floor beams shall be spiked to wall studs full width of studs.

All openings in bearing partitions over 3 feet wide must be double studded and trussed.

Buildings of Type 5 not over one story in height and wooden buildings allowed of Type 4 shall have sills not less than 4 x 4 inches and studs not less than 2 x 4 inches set not more than 24 inches center to center.

The thickness of masonry walls where roof frame is of wood and resting on walls shall have a minimum thickness of

Stories	Thickness		
	1	2	3
1	8		
2	12	8	
3	12	12	8

provided, however, that no 8-inch wall shall have more than 250 square feet area without additional lateral support of pilasters, which may be not less

than 16 inches in thickness. In cases where roofs or floors are supported by beams, as in mill construction, the pilasters shall be of sufficient size so that stress will be not more than

Brick work (laid in mortar 1-1-5)	14 tons per sq. ft.
Concrete blocks (laid in mortar 1-1-5)	9 tons per sq. ft.
Solid concrete 1-6	25 tons per sq. ft.

Every masonry wall shall be laid in cement-lime, mortar in proportions of not more than one part cement, one part lime and five parts sand. All walls to be properly bonded, and all joints solidly filled with mortar, and the corners shall be anchored to each other every ten feet in their height by tie anchors made of at least 1 1-4 inches by 3-8 inch wrought iron.

All masonry walls above openings shall be supported by steel sections to properly carry the load and shall have bearing at each end of at least 8 inches.

All piers and pilasters built for the purpose of supporting beams shall be capped with steel plates of sufficient size and thickness to properly transmit load to pier.

The external masonry wall of a building with flat roof, exceeding two stories in height, located less than 6 feet from lot line, shall be carried up at least 2 feet above roof without decreasing the thickness. The exposed top of every masonry wall shall be covered with stone, concrete or metal securely fastened to outer edge. If a cornice extends above the roof line the parapet wall shall be carried up its full thickness to top of cornice. All buildings of Type 2 and 3 shall have division walls and they shall be brick nogged their entire height and shall rest upon a solid masonry wall in cellar not less than 8 inches thick. In buildings of Types 2 and 3, where part or entire floor above first is used for residence purposes, there shall be a metal lath and plastered or a metal ceiling below the portion used for residence.

Sand-lime or soft brick shall not be used in any wall subject to loads or exposed to weather but may be used for nogging. All wooden timbers fastened to top of masonry walls for purpose of fastening pitched rafters shall be tied to wall with bolt ties set into wall a depth of at least 24 inches and placed not more than 8 feet apart.

Buildings of Type 4, not exceeding one story in height and 600 square feet floor area, may have external walls of terra cotta tile with a minimum thickness of 6 inches.

Floors

Sec. 10. Floor timbers in buildings of Type 1, when set 16 inches center to center, shall be of the following sizes:

Span	Size
8— 9 ft.	2 x 6
10—11 ft.	2 x 7
12—13 ft.	2 x 8
14—15 ft.	2 x 9
16—17 ft.	2 x 10
18—19 ft.	2 x 12
20—21 ft.	2 x 14

In cases where the spans in a building are different and it is desired to use timbers of the same depth, the size and spacing stated above may be changed but shall be of a size and spacing to sustain a live load of 50 pounds per square foot with a fibre stress not exceeding 1000 pounds per square inch.

Girders not less than 6 x 6 inches shall be used where span of floor timbers does not exceed 14 feet, and for any increase of span the girder shall be not less than 6 x 8 inches, and all girders shall rest upon cement filled iron columns spaced not more than 7 feet apart, and of sufficient size to sustain load.

Floor timbers in buildings of Types 2, 3 and 6 shall be of a size sufficient to sustain a live load of 100 pounds per square foot with a fibre stress not exceeding 1000 pounds per square inch.

The ends of all floor timbers entering a masonry wall shall enter the wall at least 4 inches and shall be cut with a splay of 3 inches in their depth. They shall also be tied to the walls with anchors placed on under side of timbers and turned down in the wall, and shall also be tied together at joints with straps so as to form a continuous tie across the building. Walls running parallel or nearly parallel with floor timbers shall be properly tied with anchors once every 10 feet. All anchors or ties mentioned above shall be at least 1 1-2 inches by 1-4 inch wrought iron. The ends of all beams resting on pilasters shall be fastened to outside walls by a tie fastened to beam and extending into or through wall in a manner as the Inspector shall direct. All floor timbers in any building with a span from 10 to 16 feet shall have one row of bridging, and all timbers with a span exceeding 16 feet shall have a row of bridging not more than every 8 feet. All bridging stock to be not less than 1 x 2 inches. All floor timbers under cross partitions shall be doubled, and headers and timbers of all openings of more than 4 square feet area shall be floor timbers doubled or their equivalent.

Roof Timbers

Sec. 11. All rafters for pitched roofs which are 10 to 16 feet in length shall not be less than 2 x 6 inches, set not more than 24 inches center to center, and rafters which exceed 16 feet in length shall be not less than 2 x 8 inches, set not more than 24 inches center to center. Valley rafters exceeding 8 feet in length shall be not less than 2 x 8 inches. Rafters for farm buildings may be 2 x 4 inches. Flat roofs shall have timbers of sufficient size as to sustain a live load of 50 pounds per square foot with a fibre stress not exceeding 1000 pounds per square inch. All roof timbers or beams if built into masonry walls shall be placed and tied in walls in same manner as floor beams. Every building of Types 2 and 3 over one

story in height shall have a permanent opening in roof where approved by the Inspector, such opening to be not less than 2 x 3 feet, and equipped with permanent means of access to the roof as approved by the Inspector and door to be fastened in such manner as always to permit opening from inside without a key. The roof of every building hereafter erected shall be covered with fire-resistive material.

All roofs and leaders therefrom shall be so arranged as not to discharge water upon a public way or adjoining property.

Double Houses

Sec. 12. Every double house shall have a separating partition plastered on metal lath on both sides, or wholly filled between the studs with brick and mortar or concrete to the ceiling of the upper finished story, and resting on an eight-inch brick wall in the cellar.

Projections

Sec. 13. No bay window or other structure, except a cornice, shall be placed on any building so as to project over any public way or square without the permission of the Board of Selectmen, given after due notice and hearing.

Stairs, Exits

Sec. 14. All buildings of Types 2 and 3 shall have at least two exits leading directly or indirectly to the street and placed as far apart as practicable. Stairs when used as exits from upper stories shall have not more than fifteen nor less than three risers between landings; risers shall not exceed 8 inches in height and treads shall not be less than 9 inches exclusive of nosing. Every opening, door or passage-way forming parts of exits shall be not less than 4 feet wide and 7 feet high.

Fire Guards

Sec. 15. In all wooden buildings except Types 4 and 5 the spaces between floor timbers, between stair stringers, and also between the studs in external walls in each story, shall be stopped sufficiently to check effectively any draught from one story to another or from the horizontal spaces between floor timbers to the vertical spaces in the walls. No wood work shall be placed within 1 inch of any chimney and the space around all chimneys where they pass through the floors in each story and the space between the studs and the brick work at the top and jambs of open fire-places shall be fire stopped with hard metal.

Chimneys

Sec. 16. All chimneys hereafter erected shall be built from the ground up unless corbelled to a masonry wall in which case the wall shall not be less than 12 inches thick. No chimney shall be corbelled for the purpose of supporting beams or timbers.

Sec. 17. Every chimney shall be built of hard clay, brick, terra cotta, concrete block or other incombustible material excepting sand-lime, brick and shall be laid in cement lime mortar. The walls of every smoke flue shall be not less than 4 inches thick and all flues shall be lined continuously from 1 foot below first floor to above roof line with hard burned terra cotta flue lining built in as the chimney is carried up, or plaster lined. Every chimney when enclosed shall be plastered on outside surface from cellar to roof with lime mortar. The topping courses of chimneys shall not have more than 2 inches projection unless the top is covered with a solid cap of stone or other non-combustible materials properly secured. Smoke flues connected with boilers having a grate area of over 10 square feet shall have 8 inch walls for a height not less than 12 feet.

Sec. 18. All chimneys shall be topped out at least two feet above the highest part of the roof to which they belong, or three feet above a flat roof. No structural wood work of any kind shall be placed at a less distance than one inch from the outside of any chimney.

Sec. 19. No smoke pipe in any building with wooden or combustible floors or ceilings shall hereafter enter any flue except at a distance not less than twelve inches from said floor or ceiling or projecting beams; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded.

Sec. 20. All smoke pipes passing through closets shall be enclosed in metal pipes with ventilated air space of at least two inches all around. No earthenware pipes shall be used for horizontal flues. No woodwork shall be placed at a less distance than six inches from any metal flue or smoke pipe.

Sec. 21. All hearths shall be supported upon trimmer arches of brick or stone, or upon bars of iron supporting a bed of brickwork, and shall be at least sixteen inches longer than the width of the fireplace openings and at least eighteen inches wide in front of the chimney breast. Wooden centering supporting a trimmer arch shall be removed before plastering.

Sec. 22. Brickwork of all grates, fireplaces and ranges shall be not less than eight inches thick. No woodwork shall be secured to the brickwork of any flue. Open fireplaces shall have fireproof foundations.

Sec. 23. *a* The top of every heating furnace or steam boiler shall be kept at least one foot below the lowest part of the ceiling or floor next above.

b Registers connected with hot air furnaces shall be set in non-conducting incombustible borders at least two inches wide. Register boxes shall be made of metal with a flange on top to fit a grove in the border, and shall have a one-inch air space all around.

c Furnace or other pipes conveying heated air shall be of tin plate or its equal and, except those from hot water or steam radiators, in partitions or between floors shall be double with a free air space between, and elsewhere shall be kept at least one inch away from any woodwork.

d No wooden flue or air duct of any description can be used for heating or ventilating purposes.

e A space of at least one inch to be left between all woodwork and chimneys, with the exception of floor timbers which shall be not less than two inches from chimneys; also around all hot air, steam and hot water pipes where they pass through floors to be stopped with metal or other fireproof material smoke tight. Steam and hot water pipes to have metal sleeves and collars.

f All channels and pockets for gas, water and soil pipes to be made smoke tight at each floor.

Steam Pipes

Sec. 24. Steam pipes shall be kept at least one inch from all woodwork, or shall be protected by an incombustible ring or tube or rest on iron supports, with air space of at least one-half inch all around, and when passing through partitions or floors shall be surrounded by incombustible funnels at least three-quarters of an inch larger in diameter than the pipes.

Safeguards during Building Operations

Sec. 27. Whenever any person is about to erect or alter the exterior walls of a building within five feet of the line of a street, he shall cause the portion of the site of the building bordering upon the street to be enclosed by a proper fence not less than four feet high and at least five feet from the line of such building, and the same shall be maintained until all liability to accident from falling material ceases; he shall

also maintain a proper walk around said fence as long as the sidewalk is obstructed; and he shall maintain proper lights, if so required by the Inspector, at both ends of such enclosed space from sunset to sunrise. In erecting any building no person shall place, deposit or suffer to remain in any street or highway any lumber or other building material, rubbish or remains of any old building for a period longer than may be necessary for the work that may be going on; and in case such material, rubbish or remains of any old building shall be necessarily remaining after dark, a sufficient light shall be placed over and near the same, and kept from sunset to sunrise. All rubbish from the erecting or repairing of any building or the removal of an old building shall be carried away by the person so erecting, repairing or removing such building at such time as the Superintendent of Streets may direct; and in case of neglect or refusal to do so, it shall be removed by the Superintendent of Streets at the expense of such person. Any person violating any provision of this section shall be liable to a penalty of twenty-five dollars.

Sec. 27a. Before any person may enclose or use a portion of sidewalk during building operations he must first file a bond with sureties satisfactory to the Board of Selectmen to protect the Town from all liability during entire construction or alteration of building.

Intent and Meaning

Sec. 28. All questions as to the intent and meaning of the By-laws relating to the construction of buildings shall be decided by the Inspector.

Sec. 29. In these By-laws the following terms shall have the meanings respectively assigned to them:

Alteration means any change or addition.

Cellar means a basement or lower story, of which one-half or more of the height from the floor to the ceiling is below the level of the street, if adjoining; or if not on a street below the average grade of the ground outside the wall.

Foundation wall means that portion of any external wall below the grade of the ground outside the wall and that portion of any partition or party wall below the basement floor.

Party wall means every wall built in order to be used as a separation of two or more dwellings.

Partition wall means an interior wall of masonry in a building.

Height of a building means the distance from the top of the roof.

External wall means every outer wall or vertical enclosure, except a party wall, of any building.

Tenement or *Apartment* house means any building for three or more families, or for two or more families where the building is in part for mercantile or manufacturing purposes.

Building limits means the building or fire limits heretofore prescribed, or which apply to any permanent or fixed flues or passages built into any building for conveying away the products of combustion from furnaces, stoves, boilers, ranges or fireplaces.

Repairs means the reconstruction or removal of any existing part of a building or of its fixtures or appurtenances by which the strength or fire risk is not affected or modified, and not made in the opinion of the Inspector for the purpose of converting the building in whole or in part to a new use.

Thickness of a wall means the minimum thickness of such wall.

Inspector means the Inspector of Buildings appointed under Section 1 of this By-law.

Persons shall mean individuals, co-partnerships or corporations.

Approved refers to a device, material or construction which has been approved by Underwriters' Laboratories.

Bearing Wall means any wall which supports any load other than its own weight.

Cement Mortar means 1 part cement, 1-2 part lime, 3 parts sand.

Cement Lime Mortar means 1 part cement, 1 part lime, 5 parts sand.

Division Wall means a wall extending between external wall and dividing a building into parts.

Double house means a house used by two families living independently and in which no part of one apartment is over any part of the other apartment.

Farm buildings means barns, hen houses and sheds.

Non-combustible means material which will not burn.

Nogging means brick-work laid between studs for fire stopping.

Parapet Wall means an unpierced extension above the roof of an exterior wall.

Public building means a building used or adapted to be used as a place of public assemblage.

Rubble means masonry built of irregular stones.

Span means distance center to center of supports.

Story means part of building from one floor to another—not over 12 feet shall be a story.

Masonry wall means wall constructed of solid concrete, concrete blocks, stone, terra cotta and brick.

Street means any public or private way commonly used by the public.

Penalty for Violation

Sec. 30. Whoever violates any of the provisions of the preceding sections of this By-law shall be punished by a fine of not exceeding one hundred dollars for each offence.

Sec. 31. The provisions of these By-laws shall not apply to buildings and structures owned and occupied by the United States or the State of Massachusetts, nor to bridges.

ART. 27. To see what sum, if any, the Town will vote to raise and appropriate to purchase a new truck for the Highway Department, or take any action relative thereto.

And you are directed to serve this warrant by posting up attested copies thereof, one at each of the Public Meeting Houses, one at the Town Hall, one at each of the Post Offices, and leave one hundred copies for the use of the citizens at the Post Offices in said Town, 8 days at least, and over two Sundays, before the time of holding said meeting.

Hereof fail not and make due returns of this Warrant, with your doings thereon, to the Town Clerk at the time and place of Meeting as aforesaid:—

Given under our hands, this 11th day of January, in the year of our Lord, one thousand nine hundred and thirty.

IRVING F. FRENCH,
WILLIAM H. KELLEY,
JOSEPH W. JORDAN,
} Selectmen of Tewksbury.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN of TEWKSBURY

Also Report of
The Superintendent of Schools

FOR THE

Fiscal Year Ending December 31

1929

REPORT OF THE SCHOOL COMMITTEE

The regular work and supervision of the Schools has been carried on as usual this year. Very few repairs were made during the summer. One class room at the Spaulding School had a new metal ceiling erected. Later the roofs of the Foster and Spaulding Schools were re-shingled. Some inside painting was done in both of these Schools. Almost the entire Spaulding School had one coat of paint, while the corridors and tables in the lunch room of the Foster School received the same. A substantial and attractive fence has been built around the play grounds of the North School.

Respectfully submitted

HERBERT L. TRULL, Chairman.
CHARLES WENTWORTH,
MAY L. LARRABEE, Secretary.

The School Committee recommend the sum of $51,156.00 be appropriated for the schools for 1930 based upon the following proposed budget:

Superintendent	1,295.00
Supervisors	1,534.00
Teachers	19,450.00
Janitors	3,949.00
Transportation	8,720.00
Fuel	1,634.00
Tuition	10.000.00
Books and supplies	1,078.00
Health	1,275.00
Insurance	600.00
Light	178.00
Water	60.00
District	83.00
Miscellaneous	500.00
Repairs	800.00
Total	$51,156.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Tewksbury:
Mrs. Larabee and Gentlemen:

I herewith submit my seventeenth annual report which is the thirty-ninth in the series of superintendent's reports. The year has been one of strong, harmonious work on the part of teachers and pupils, with no especially outstanding event.

Teachers and Supervisors

I am pleased to report but few changes in the teaching force of your schools. All supervisors are the same as last year. But two teachers left in June, both from the Foster school. Miss Dorothy Dickenson, who had taught in town eight years with marked success resigned to be married. Miss Hazel Young, who taught in Tewksbury only one year accepted a position in Vermont.

Two town girls were hired to fill vacancies in June. Miss Evelyn Fuller and Miss Mary Watson. Each was graduated in June from Lowell Normal School, and each has made an admirable start in her first position as teacher.

There is but one teacher in the Spaulding School, Miss Nettie L. Eagles, with grade one. All rooms at the Foster School are in use.

Transportation

Onen of the most perplexing problems pertaining to the schools is that of transportation. It is a very real problem in Tewksbury. The large town-owned, horse-drawn barge comes each day from Burke's Crossing, a bus containing over twenty pupils is run from the West, another smaller one brings the eighth grade from the North, another brings pupils who live more than a mile from school at the Shawsheen. There are enough pupils living over the mile limit at or towards Wamesit to fill a street car, while the eighth grade are transported from Shawsheen to the Foster School by trolley. At the close of the fall term, just before the Christmas vacation, a number of parents petitioned the Committee for transportation by bus from the blacksmith shop corner to the North School. There were thirteen pupils who by actual measurement lived more than a mile from school. As a mile has for many years been Tewksbury's limit for

transportation, the committee felt that all parts of the town should be treated alike, therefore, the request was granted. You will see that the large sum of $8,499.40 was spent last year for transportation; however, this sum includes High School transportation which is refunded by the State.

Banking

The Banking interests among the pupils keeps up to a remarkable degree for hard times. You will note that your children have saved during the past year and placed in the bank the sum of $2,434.67. This seems to be a most practical method of conforming with the law in teaching thrift. The cordial relations existing between your teachers and the officials of the Mechanics Savings Bank is most commendable.

Institute

The fifth annual institute for our own teachers was held in Dracut on Feb. 8, 1929. These institutes take the form of an all day meeting, in which the forenoon is taken up with demonstrations of class room work, or with discussions of topics of local interest. A good lunch is served at noon at a reasonable price. The afternoon session opens with an half hour of music under the direction of our own supervisor. Then come two lectures of profession on allied interests. This year, Mr. Arthur B. Lord of the State Board of Education gave a timely address, followed by Mr. Ira Morse, with a showing of his famous African pictures. I know that the teachers consider "The Institute" as most valuable. The institute is held for two years in Dracut, then in Tewksbury. This coming February it will be held in Tewksbury.

Spelling Contests

During the year the teachers of the two towns of the District, Dracut and Tewksbury, have renewed interest in oral spelling among the four upper grades. The preparation for these contests lasted throughout the year and furnished an incentive for the formal study of spelling. The final decisions took the form of elimination contests to select teams to represent each school, and later actual contests between the teams of the various buildings and last of all between the two towns.

There was great interest in these matches which were conducted in as fair a manner as possible by the superintendent.

In the final contest in the intermediate grades Collinsville, a Dracut school won. In the upper grade contest between the teams of Tewksbury on the one side and the winning team of all the Dracut schools on the other there was intense interest, almost rivaling that of the old time "spelling school." Tewksbury won the contest in a very even match, after the sides had stood one to one for some time.

Census of 1930

The law regarding state aided high schools is intimately connected with the United States Census taken each ten years. It was believed that soon after the census of 1920 the population of Tewksbury increased so that there were more than five hundred families in town. If the census of 1930 shows this number of families then the town will lose the aid that has been thus far given in High School tuition and transportation.

Lunch Serving

Between the Thanksgiving recess and April 1, warm lunches are served at the Foster School. Tables and benches turn the "girls' playroom" into a very comfortable dining room. All children who remain during the noon hour at this school eat their lunches brought from home at one of these tables. There is also the opportunity to buy something hot at actual cost.. This undertaking is practically self-supporting, and is appreciated by the parents. Mrs. Maclaren has charge of preparing and serving the food, and two of the teachers have charge of the room during the lunch period.

Marks for High School

Considerable misunderstanding is caused each June about the points necessary for admission to high school. It seems strange to some parents that a pupil may graduate from the eighth grade, yet not be able to receive a certificate to Lowell High School. The Tewksbury school has the privilege of sending pupils to Lowell High on certificate by the principal. This certificate right must be guarded carefully or it will be taken from us. A pupil who secures a mark equivalent to 70 per cent. may be promoted from grade to grade, or at the completion of the eighth grade he may receive a diploma. However, it is generally believed that a pupil will be unable to maintain his standing in a new school under very different environments than those with which he has been familiar, unless he has

shown himself able to do work indicated by the mark of 80 per cent. Hence each year there are a few pupils who desire to go to high school, who have not secured the requisite marks. This is apt to cause great disappointment and misunderstanding.

This is not a custom pertaining to our school alone. You will find it the same at the completion of a high school course. Many a pupil graduates from high school who is unable to enter college, he must return for another year of study or enter a preparatory school.

Graduation

On Thursday evening, June 27, 1929, a large class was graduated from the Foster School. After an interesting program of recitations and music, Chairman Herbert L. Trull presented diplomas to: Dorothy Ackles, Ruth Amiot, Joseph Bennett, Myrtle Buchanan, Elsie Burgess, Elta Burgess, Ernest Brabant, Bertha Callahan, Patrick Carmody, Mary Cislancis, Emma Clarke, Edward Cogan, Spencer Colby, Florence Cork, Irma Darby, Frederick Garth, Wiloian Gath. Stanley Gelinas, Lincoln Ginieres, Plato Ginieres, George Gray, Clinton Holt, George James, Amelia Kazetta, John Kelley, Evangelos Liakos, Harry Liakos, Joseph Lipomi, Alice Livingstone, Anthony Lorenzo, Thomas McCoy, Alexander Obert, Charles O'Connell, Frances Parker, George Parker, Bill Rodgerics, William Powers, Herbert Roberts, Mark Roper, Blanche Rychwa, Edna Sartanowicz, Robert Staveley, Edward Sullivan, John Szurly, Elizabeth Trickey, Dorothy Williams, Anthony Zygelis.

Of the forty-seven graduates, 29 entered high school, 8 entered Vocational School, one is at Foster, 7 are working, 1 has left town and in a private school.

High School

There were registered at the Lowell High School in September, last, one hundred and one pupils, in Reading one and in Billerica two, a total of one hundred four pupils, the largest in the history of the town. At Lowell High are: Dorothy Ackles, Gilbert Ackroyd, Ruth Amiot, Marcelle Aubut, Bronie Barousky, Wesley Barron, Ralph Battles, Mary Blair, Carolyn Blanchard, Richard Blanchard, Dorothy Briggs, Virginia Briggs, Myrtle Buchanan, Elsie Burgess, Etta Burgess, Joseph Byron, George Canfield, Mary Carmody, Robert Carmody, Patrick Carmody, Lawrence Carson, William Corcoran, Ernest Cote, Henry Cote, Alice Crosby, Ferdinand Cuccoli, Irma Darby, Thetis Darby, Alden Doucette, Henry Farmer, Fred Flaherty, Herbert Flet-

cher, Ruth French, Roland Fuller, Rose Furtado, Edna Gale, Ralph Garland, Dorothy Foster, Lincoln Ginieres, Paul Ginieres, Plato Ginieras, George Gray, Adella Greene, Francis Guyer, Mildred Hedstrom, Clinton Holt, Hector Jackson, Kempton James, Alfred Johnson, Donald Johnson, Joseph Jordan, Lucy Kaulen, Adam Kazetta, Amelia Kazetta, Elsie King, Harriet King, Pauline Kokinacis, Evangeline Liakos, Albert Little, Alice Livingston, Ernest Livingston, Hugh Mahoney, John Mahoney, Harry Mann, Edith Marion, Paul McCoy, Florence McKillop, Charles Meister, Irene Meister, Edna Olson, Thelma Olson, Francis Parker, Marie Parsons, Gladys Penney, Manuel Penvolotis, George Pierce, Margaret Pierce, William Powell, Mark Roper, Blanche Rychwa, Edna Sartanowicz, Edward Sawyer, Margaret Scott, Ruth Small, Thelma Small, Arthur Sparkes, Roberta Staveley, Edward Sullivan, Evelyn Sunskis, Henry Thompson, Elizabeth Trickey, Helen Trull, James Whitehouse, Dorothy Williams.

Spencer Colby attends Reading High School.

Conclusion

In conclusion let me call to your attention the reports of the various supervisors which follow and form a part of this report.

The teachers and supervisors have co-operated in a loyal manner. I heartily thank them. The School Board has supported me whenever it felt that it could conscientiously do so, and for this I wish to express my appreciation.

Respectfully submitted,

CHARLES L. RANDALL,
Superintendent.

REPORT OF SCHOOL PHYSICIAN

To the School Committee of Tewksbury:

Our schools are in good sanitary condition and slight outlay for next year seems anticipated. The health of our children seems above average and their examination shows parental co-operation. During our inspection we have found many cases of enlarged tonsils and adenoids but have reported only those seemingly to be affecting the health. The milk supply for our school children, has been inspected and found to be perfectly satisfactory, this insuring a wholesome food product for those who use it.

Very respectfully,

HERBERT M. LARRABEE,
School Physician.

REPORT OF SCHOOL NURSE

To the Superintendent and the School Committee of Tewksbury:

I have made two hundred eighty-one visits to the schools. Every child has been weighed, measured, and examined for pediculosis, cleanliness, skin eruptions, etc. every two months. Weight cards have been sent home with the report cards.

I have made forty-six visits to the homes and the parents have been willing to co-operate with me. I have conducted eighty-two children to the Dentist. I have obtained corrected vision for twenty-three children and influenced several parents to attend to the matter themselves. Two children have been with me for removal of tonsils and adenoids. I have obtained treatment for two children with diseased glands.

I have assisted Dr. Larrabee in vaccinating twenty-nine children and in the examination of one hundred eighty children. I have recorded the defects found and have corrected them in some cases.

I have done three hundred fifty-one dressings in school. Many children have had infected wounds of varying severity.

I have borrowed lantern slides from the State Dept. of Public Health and shown them to the children at the center schools.

The hot lunches are a decided factor in the well being of the children at the Foster school.

Respectfully submitted,

EMMA P. MacLAREN.
School Nurse.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent and School Board of Tewksbury:

"Music! O how faint, how weak,
Language fades before thy spell!
Why should feeling ever speak,
When thou canst breathe her soul so we'l."

Moore

If this art is worthy of the dignity of human devotion, it is worth considering a little seriously without depreciation of the lighter pleasures to which it may minister.

To train response in feeling to achieve emotional enrichment and strngthen the rhythmic currents inherent in each individual, through music rightly taught, rightly studied and rightly used, is our aim. I say "our" because I am certain that I have the co-operation of the very best of teachers to be had. I mentioned "each individual" because I believe any educational factor that is not a personal, vital factor, that holds through life is not worth teaching.

Our entire course is "Music Appreciation" that is the ability to understand music. It bespeaks the capacity of a well developed intelligence; and not in any way as many people believe, just so much general information gained by listening to a victrola, radio or lecture. The course consists of note singing, rhythmic band reading, theory, group and chorus singing, dramatization of some songs, the study of instruments, their books and tone quality, some music history and finally arranging a symphoney orchestra according to instruments and parts played.

The pupils, at least once during the year present a program to the Parent-Teachers Association. The annual music test in April, was a decided success. The class rank was one hundred per cent., every pupil received a perfect score pin, the class, a banner.

The usual Christmas assembly was held in the hall. This year each grade presented one special feature, besides the general carol singing.

Respectfully submitted,

ISABEL M. GREGORY,
Supervisor of Music.

REPORT OF SUPERVISOR OF DRAWING

To the Superintendent and School Board of Tewksbury:

Today more people are awakened to an interest in the Arts than ever before. Now the average man's idea of Art is no longer limited to that of the picture painted on canvas. There has come the realization of the need of design and Art quality in American manufacture and merchandising. Every community is conscious of the need of Art as a force working for the finer tastes in the people at large.

We now realize that Art in the Schools has the advantage of working with childhood developing skill, recreation, interests, aptitudes, something to live by. It develops sense training and fine discrimination.

Art education is quite essential to have in schools. We aim to give sense training and develop skills during the early period of life so that they may be trained to an appreciation of the finer things in life, train them to see beauty as it really is.

Through our contact with the beautiful we see more of the Truth.

"Art is Truth intensified."

The fall is one of the most beautiful times of the year. It is fortunate that the schools open at such a time. Nature is ever ready to help us, but at the beginning of the year when we are adjusting ourselves to the new routine again, she is overflowing with beautiful flowers, leaves, grasses and berries of various kinds.

In nature work the children learn to observe more closely the things which are always about them. They are taught the technique of expression and the delicacy of color.

After Nature's display, three holidays were welcomed:

Hallowe'en came with its witches, cats, owls and pumpkin faces.

Thanksgiving came with turkeys and fruits arranged on cards, pictures and folders.

Christmas came with its festive decorations, cards, candles, trees, lanterns, blotter pads, calendars, cut-outs and transparencies.

These Holiday problems included construction work and design. Useful things as well as the decorative were made.

A few lessons in lettering were taken so the children could express their Greetings in an attractive manner.

The upper classes are now very busy making posters for a Thrift Poster Contest. This sort of work enables them to use their own imaginations and to think for themselves. Many clever ideas are being carried out. It also encourages Banking.

Last year we were very successful with our Animal Posters and we hope this year to be as successful with our Thrift Posters.

The lower classes are now making cut-out pictures of winter and various scenes in color and black and white.

We have many things to accomplish yet.

Lincoln's Birthday, Valentine's Day, Washington's Birthday and Easter will be remembered by doing more construction work.

Designs will follow. We hope to have a more beautiful and brighter display this year than we had last year. In design we study the beauty of line and color. A knowledge of color like any other subject is best obtained by using color.

The desire of children for bright colors is a natural one which should be directed not suppressed. Our world is a world of color, therefore we must make use of it. It functions in our lives from beginning to end.

Object drawing and perspective will be studied also.

In the Spring, Nature again offers her assistance. Buds, flowers and birds will be studied. Nature teaches us to love and produce beauty.

I again take this opportunity to thank you, Mr. Randall and the School Board, for your kind help and interest in my work. I also thank the teachers more emphatically this year for their fine co-operation in carrying on my work.

Respectfully submitted,

CHRISTINA G. YOUNG,
Supervisor of Drawing.

REPORT OF SUPERVISOR OF SEWING AND COOKING

Mr. Charles L. Randall,
Superintendent of Schools,
Tewksbury, Massachusetts.
Dear Sir:

The following report is submitted covering instruction in sewing in the Foster School.

The sewing in the seventh and eighth grades changes very little from year to year.

The seventh grade girls learning the different stitches in every day sewing, how to cut from patterns and the use of the sewing machine. They have completed holders, towels, bags and are working on articles of underwear. The eighth grade made pillows, underwear, and are now working on dresses, either for themselves or younger members of the family.

I wish to take this opportunity of expressing my sincere appreciation of the hearty co-operation of the Superintendent and teachers.

Respectfully submitted,

LENA M. COBURN.

REPORT OF MANUAL TRAINING

January 9, 1930
Mr. Charles Randall,
Superintendent of Schools,
Tewksbury, Massachusetts.
Dear Sir:

Following is a report of the work done in the manual training department of the Foster School, Tewksbury:

The work of the classes has progressed well during the past year. In addition to learning the names, uses, and proper care of the tools, the boys have made numerous articles such as sewing cabinets, combination book and magazine racks, hall-trees, end-tables, plant boxes, medicine cabinets, tabarets, piano- benches, trellises, radio cabinets, and many other useful articles. The boys have also done much work in the school building, such as making shelves for lunch boxes and repairing school furniture and they have also done many repair jobs for their homes.

A good spirit prevails in all of the classes, and the co-operation is fine.

Respectfully submitted,

RAYMOND A. NORTON.

I hereby certify that I have examined the accounts for town officers who were authorized to receive and expend money, for the year ending Dec. 31, 1930, and to the best of my knowledge they are correct, with proper vouchers on file, and $5,971.21 in the treasury.

ROBERT E. GAY,
Town Auditor.

Personally appeared before me on this twenty second day of January, 1931, Robert E. Gay, and made oath that the foregoing statements were correct.

THOMAS F. FLYNN,
Justice of the peace.

Reimbursements other Cities and Towns	334.95
Reimbursements Private	180.00
Reimbursements Due	409.33

IRVING F. FRENCH,
JOSEPH W. JORDAN,
WILLIAM H KELLEY,
Board of Public Welfare

BOARD OF HEALTH

The following is my report for the year ending December 31, 1930:

Reportable Diseases

Diseases	No. Cases	No. Deaths
Scarlet Fever	2	0
Diphtheria	2	0
Measles	6	0
Mumps	1	0
Chicken Pox	10	0
Whooping Cough	10	0
Tuberculosis	3	0
Pneumonia	5	1
Typhoid Fever	2	0

The past year has been average in the number and character of the contagious diseases reported, although our board is rather troubled many times by the fact that many physicians from out of town forget to report these cases. I am going to make the suggestion to our townspeople, that they make these reports themselves as soon as a case of reportable type occurs in their home. This will aid your agent in getting the cases under quarantine and protect others.

The question of quality milk and milk room requirements minimum, for a town of our size is still under discussion with the State Department of Health and as soon as fair regulations can be agreed upon we will undertake a reorganization of our present health code and get out a new set of health regulations.

HERBERT M. LARRABEE,
Agent.

TABLE OF ESTIMATES FOR 1930

Street Lighting	$ 7,700.00
Incidentals	1,200.00
Highways	15,000.00
Schools	53,434.00
Library (Dog Tax)	750.00
Police	2,000.00
Stationery and Printing	700.00
Board of Health	1,000.00
Salaries	2,550.00
Park Commission	250.00
Tree Warden	1,500.00
Dept. Public Welfare	3,800.00
Fire Department	3,500.00
Forest Patrol	250.00
Bureau of Old Age Pension	2,500.00
Town Hall	3,300.00
Assessors	1,800.00
Vocational School	3,700.00
Inspection of Meats and Animals	1,000.00
Aid, State and Military	800.00
Interests on Loans	3,500.00
Collection of Taxes	2,500.00
Gypsy Moth	2,000.00

REPORT OF INSPECTOR OF MEATS AND PROVISIONS

To the Board of Selectmen, Town of Tewksbury:

Gentlemen: Following is my report for inspection of meats and provisions for the year of 1930 from January 1, to December 31, 1930:

No. of sides of beef inspected	830
No. of calves inspected	642
No. of hogs inspected	339
No. of sheep inspected	4229

Cattle Condemned

No. of sides of beef condemned	36
No. of heads condemned	3
No. of sets of lungs	4
No. of livers condemned	4

Swine Condemned

No. of swine condemned	5
No. of heads condemned	1
No. of livers condemned	1
No. of sets of lungs condemned	1

Calves Condemned

No. of veals	13
No. of sheep condemned	6

Respectfully submitted,

ASAHEL H. JEWELL,
Inspector.

REPORT OF INSPECTOR OF ANIMALS

To the Selectmen of the Town of Tewksbury:

Gentlemen:—Following is my report for animal inspection from May 1 to December 31, 1930:

I have released for immediate slaughter 16 head of cattle, six calves.

For Dairy purposes 30 head of cattle.

Three dogs were quarantined for rabies, and released at the end of 14 days.

I have inspected eight barns where cattle are under State and Federal supervision.

Respectfully Submitted,

ASAHEL H. JEWELL,
Inspector.

REPORT OF SEALER OF WEIGHTS AND MEASURES

Gentlemen:

Following is the report of Sealer of Weights and Measures for the year ending Dec. 31, 1930:

Platform scales over 5,000 lbs	3
Platform scales under 5,000 lbs	1
Computing scales	14
Spring scales	13
Liquid measures	132
Gasoline Pumps	51
Kerosene Pumps	2
Beam scales	1
Molasses Pumps	1
Yard sticks	3

I have collected and turned over to the Town Treasurer $36.76

Respectfully submitted,

HUGH CAMERON,
Sealer of Weights and Measures.

REPORT OF AGENT FOR SUPPRESSION OF GYPSY AND BROWN TAIL MOTHS

To the Honorable Board of Selectmen:

Gentlemen:

As Agent for the Suppression of the Gypsy and Brown Tail Moths I submit the following:

Gypsy moth conditions remain about the same as last year. All streets leading into the town were sprayed during the larvae season and the streets and woodlands thoroughly scouted. The town shows a general light information with several colonies which might give trouble allowed to go. I would again recommend spraying all roads leading into town and a thorough scouting of woodlands bordering these streets and towns so that any colonies found could be sprayed as in 1930.

Yours respectfully,

HARRIS M. BRIGGS.

REPORT OF TREE WARDEN

As Tree Warden I submit the following:

Brush was cut on the following streets with mileage of the same:

Pleasant St., 1.01 miles; Whipple, 4 miles; Chapman, .04; Marston, 1.02; Rogers, 1.08; Park Ave., .02; Billerica, 1.04; Astle, 1.01; French, .04; Pike, .05; Clarke Rd., 1.04; Trull Rd., 1.05; Andover, 1.05; Fiske, .05; Bailey Rd., .03; North, 2 miles; Kendell, 1.06; East, 2.04; Livingston, 1.09; Boston Rd., .08; Marshall, .09; Pinnacle, 1.01; Maple, .08; Cross, .06; Lowe, .05; Ballard, .05; Vale, .05; Shawsheen, 4 miles; Bridge, .04; South, 2.04; Lake, .06; Brown, .09; Hill, .05; Pringle, .04; Foster, 1.02; Chandler, 2.08; Pond, 1.08; Pine, .09.

This makes a total of 42.02 miles. Of this amount 36.03 was recutting and 5.09 miles of new cutting. The latter was done on the following streets: Boston Rd., Patten Rd., Brown St., South St. from Main to Lake St. line Pinnacle, Vale, Lake, Hill; and Pine St. from Whipple to Pond. I would recommend an appropriation large enough to keep these streets cut each year and remove trees which are too close to traveled way.

Trees considered dangerous were removed or pruned as far as our appropriation would allow.

Yours respectfully,

HARRIS M. BRIGGS

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen:

Gentlemen:

We, the undersigned, submit the following report:

The commons were kept mowed during the summer, 1½ tons of sheep dressing and ½ ton of special fertilizer was applied.

Granite dust was used on all the walks to kill out weeds.

Our Community Tree, which died in 1930, was replaced by the Wilmington Nurseries as per the guarantee. This tree was watered during the summer dry spell. It was illuminated during the Christmas and New Year holidays.

We would recommend an appropriation of $200.00.

Yours respectfully,

EDITH A. FORRISTALL, Chairman
HARRIS M. BRIGGS,
Park Commissioners.

REPORT OF CHIEF OF THE FIRE DEPARTMENT

Tewksbury, Mass.,
January 1, 1931.

To the Honorable Board of Selectmen:

Gentlemen:

As Chief of the Fire Department I herewith submit the following total number of fires attended:

Forest fires	114
Building fires	19
Chimney fires	6
Automobile fires	2
False alarms	5
Out-of-town calls	9

Total value of buildings and contents: Twenty thousand two hundred dollars. Damage: Fourteen thousand one hundred dollars. Insurance paid: Twelve thousand eight hundred and fifty dollars. Personal property of the Fire Department: Thirteen thousand nine hundred dollars.

Respectfully submitted,

A. S. HAINES,
Chief of Fire Department.

REPORT OF MIDDLESEX COUNTY EXTENSION SERVICE

The following is a report of the work of the Middlesex County Extension Service as developed in the town of Tewksbury for the year 1930.

In agriculture, 29 farm visits were made at the request of local farmers to assist with individual problems. The tour of dairymen stopped at the State Infirmary to study their dairy practices as their herd has been one of the highest in the state in milk production.

83 boys and girls were enrolled in the Boys' and Girls' 4-H club work, especially in the garden, clothing, food and poultry clubs. Mrs. E. P. Maclaren, W. H. Dewing Manuel Furtado and Fred Cuccoli acted as local leaders.

Among the homemakers two units organized, one in South Tewksbury and one in West Tewksbury. 38 homemakers took part in the study of greater use of vegetables and these ladies passed on the information to 143 others who were unable to attend the meetings. Many of the women were interested in improving home grounds and especially in South Tewksbury took a very active interest. 12 home visits were made with state specialists in order to assist with individual problems.

A campaign to eradicate rats from farm and home buildings was carried on on a country-wide basis and a great many of the poison baits were distributed in Tewksbury.

Seven educational motion picture shows were given to a total attendance of 1523.

Many local people took part in the several county-wide meetings held during the year, such as the county picnic at Wayside Inn, Sudbury, and the Homemakers' Day at Lexington.

January 5, 1931.

OMER N. BLANCHARD,
Town Director

ANNUAL REPORT OF THE HIGHWAY COMMISSIONERS
REPORT OF THE HIGHWAY DEPARTMENT

Board of Selectmen,
Tewksbury, Mass.

Gentlemen:—

The following is the annual report of the Highway Department for the year ending December 31, 1930.

During the past year much work was accomplished in this department, and many extra men were employed, which tended to relieve unemployment locally.

Over one and two-tenths miles of bituminous macadam (penetration asphalt) road was built, which includes Salem and Woburn Streets; and over five miles of road was resurfaced with gravel. Among the streets included in the gravel program are: Town Hall Avenue, River Road, Pike Street, Astle Street, Lake Street, Bridge Street, and Marshall Street. River Road and Marshall Street were finished during cold weather, consequently they were not oiled. Pike, Astle, and Bridge Streets, and Town Hall Avenue, were given a heavy coat of 45 per cent. asphaltic oil. They will be scarified, reshaped, and rolled again next spring and given another application of oil. Lake Street is in good shape.

Nineteen new culverts were installed either of corrugated iron, coated with asphalt, or reinforced concrete. The culverts were constructed of sufficient length to avoid the use of guard rail in most cases. New guard rail was erected on Shawsheen Street, South Street, Vale Street, North Street, Trull Street, Hood Road, and Andover Street. On the first three named streets wooden construction was used, while wire mesh stock fence was erected on the others. Repairs were made in many other places, and painting done where conditions required.

Various streets were scarified, reshaped, and rolled as occasion demanded, to insure a smooth riding surface, and keep the road in shape. The usual scraping and patching was carried on throughout the year.

We were quite fortunate in securing State, and County aid on four streets, which enabled us to obtain first class construction, and excellent roads. Salem and Woburn Streets are completed the entire length. On Andover Street, the drainage system was extended, and new catch basins constructed. All the work in this respect is permanent, and will remain in place even in the event of new construction on this highway. Billerica Road which is now under construction, will be of gravel, treated with oil or tar, and when completed, will form an important link in our highway system.

There are six trucks in operation in our department now, and, together with the other equipment, we are prepared to build any type of road.

Articles have been inserted in the annual town warrant asking for $2,000.00 for Chandler and $2,000.00 for Shawsheen Streets. These streets are in bad shape, and are in need of immediate attention. $1,500.00 is also recommended to complete Billerica Road. In another article the sum of $4,500.00 is asked to rebuild Andover Street with bituminous macadam (penetration asphalt), beginning at the Andover town line. The present highway is dangerous, and very slippery when wet. The proposed roadway would be twenty-four feet wide, and the work could be done by our highway department.

The following will give a more detailed review of the year's work:

SPECIAL APPROPRIATION FOR NEW TRUCK

Acting upon the recommendation of a number of townspeople, we purchased a new 1930 Ford, one and one-half ton truck, with a Anthony steel dump body, having a capacity of one and one-half cubic yards. It is equipped with dual pneumatic tires in the rear, which gives additional traction, and better load distribution. The truck has been in continuous operation since we purchased it last February, and is number four of our fleet.

SPECIAL APPROPRIATION FOR CULVERTS

The following culverts were installed during 1930, showing location, length, diameter, and material in each.

Location	Length	Diameter	Kind
Whipple Rd. near Lowell line	42'	18"	Ref. concrete
Astle Street	28'	12"	Metal
Trull Street	28'	10"	Metal
Trull St. at Trull Brook	30' (2 par)	30"	Ref. concrete
Rogers St. near Whipple	42'	18"	Ref. concrete
Marston St. near Rogers	32'	18"	Metal

Location	Length	Diameter	Kind
Pleasant Street	32'	12"	Metal
Pleasant Street	40'	12"	Metal
North Street	34'	10"	Metal
North St. near R. R. Sta.	40'	36"	Ref. concrete
Chandler St. at Foster	69'	15"	Ref. concrete
Lee Street	45'	18"	Ref. concrete
Bridge Street	30'	15"	Metal
South Street	30'	18"	Metal
Vale Street	30'	10"	Metal
East St. near Carter	34'	12"	Metal
Pringle Street	32'	18"	Metal
Rogers St. near Bill Rd.	36'	15"	Metal
North St. at Carson's	40'	15"	Ref. concrete

These do not include the culverts or other pipe lines installed on streets where Chapter 90 work was carried on.

On Whipple Road, four culverts were extended temporarily, by using reinforced concrete pipe, in order that the road could be made wider and safer. Owing to the lateness of the season, we were unable to complete the drainage situation at Trull Street and River Road. However, the work will be resumed as soon as the frost is out of the ground. A new catch basin will be built, and a pipe line laid to meet the requirements at this point.

SPECIAL APPROPRIATION—SALEM STREET

Bids to complete the work called for on this job were received by the Board of Selectmen, at the office of the Massachusetts Department of Public Works, State House, Boston. The Greenough Construction Company of Acton was awarded the contract. Their bid being $13,607.50 pus extras, which was an amazingly low figure. The street which is about seven-tenths of a mile long was built of bituminous macadam (penetration asphalt) eighteen feet wide with gravel shoulders three feet wide on either side, thereby making a total of twenty-four feet. Ample drainage was provided, catch basins being placed wherever water is liable to collect. Cable guard rail was erected at one dangerous point about halfway between the State Highway and the Wilmington town line. At the junction of Salem and Main Streets, a triangular green has been produced, which will be seeded and bounded in the near future. The local Post of the American Legion will name and dedicate the plot for a local veteran of the World War who died in the service. All the work was in accordance with the specifications of the Massachusetts Department of Public Works, and is an excellent job.

SPECIAL APPROPRIATION—WOBURN STREET

At the last annual town meeting $1,000.00 was appropriated for this street, but, as the bids for Salem Street were very low we asked permission to transfer a portion of the balance from that street to Woburn Street. Consequently we realized the sum of $3,500.00 to which the State and County added $7,000.00, thereby making a total of $10,500.00, which proved sufficient to complete the entire street. It is 2,750 feet long, extending from the Billerica town line to the Lowell city line, and was built of bituminous macadam (Penetration asphalt) eighteen feet wide, with three foot gravel shouders on each side. A new concrete culvert was built near the Billerica line with standard headwalls. Four catch basins were built near the Lowell line. Through the kind co-operation and permission of Mr. Fred Roper a large leaching basin was constructed on his property to take care of the water at this point. Permission was also granted by the officials of the Eastern Massachusetts Street Railway to cover their rails with gravel, in order that we might raise the grade of the road to secure good drainage, as it approached the Lowell line. By doing this they were forced to discontinue operating their cars from the Lowell line to the Airport. New standard town line signs consisting of metal frames mounted on concrete posts were erected at each end of the job. All the excavation, and loading of trucks with gravel, etc., was done by local hand labor. Every operation was performed by our Highway Department. It was completed on schedule time, perfect in detail, and will save the Town hundreds of dollars in maintenance which would have been necessary had the old road remained.

SPECIAL APPROPRIATION—ANDOVER STREET

Acting upon the advice of our engineers, a portion of the Salem Street balance was also transferred to this street, thereby making a total of $3,000.00 available for maintenance, etc., on this highway. Drainage was given careful consideration with a thought toward future construction. A new pipe line was laid from North Street to the North Tewksbury garage, and the old line which terminated near the residence of Mr. Hugh Cameron, was extended to a point near the New England Power Company's right of way. Reinforced concrete pipe being used in each case. New catch basins were built, and a new dry drain provided to prevent upheavals in the roadway. Gravel was placed on the shoulders where needed, and they were oiled to bind them and keep them firm. Guard rail which had been broken was replaced, and considerable patching done. Where the road surface

had been broken for construction, it was penetrated and sealed again with asphalt, and a new approach constructed at North Street. Plans are now being prepared for future work on this highway. All the above work was also done by our local department.

SPECIAL APPROPRIATION—BILLERICA ROAD

Owing to the fact that Billerica Road was badly in need of repairs, we deemed it advisable to seek State and County aid on the project, which was granted. A sum amounting to $2,000.00 was available, and the State and County each contributed similar amounts, thereby making a total of $6,000.00. This work is also being carried on by our local highway department.

The surface of this road will be of gravel treated with oil or tar, and will be eighteen feet wide, with shoulders on either side. Owing to the fact that this street is one mile in length, and it is necessary to construct four new reinforced concrete culverts with standard headwalls, together with the erecting of considerable guard rail, we will have insufficient funds to complete the entire street. Consequently we have inserted an article in the warrant asking for $1,500.00 to which the State and County will add similar amounts, as they are anxous to complete the entire road in May, 1931, if possible.

DOCK STREET

Dock Street, a town road extending northerly from Old Boston Road, through the land of the New England Power Company to it's new sub station, has been relocated and rebuilt by that company at their expense. In a letter to the Highway Commissioners they have asked that the Town discontinue and abandon this road, as they will be the only ones interested in it's use. Consequently an article appears in the warrant to that effect.

GRAVEL DISTRIBUTION

Street	Amount	Street	Amount
Astle Street	1,662 cu. yds.	Rogers St.	234 cu. yds

STREET	GALLONS		SAND-SCREENED GRAVEL	
	30%	45%	65%	Amount
River Road	600	.....	.....	
Lowe Street	800	465	.....	
Fiske Street	850	996	.....	
Maple Street	1,382	764	.....	
Ballard Street	882	.....	.....	

These figures do not include the oil used in patching, or the oil or asphalt used in construction work on Woburn or Andover Streets. On some of the streets where the oil was used as a dust layer, a second application was made owing to the dryness of the season. On Chapman Street, East Street, Lake Street, and South Street (portion), the 45 per cent. application was followed by a second application of 65 per cent. oil which binds the road in good shape. This procedure would have been followed on other roads, had sufficient funds been available for this purpose.

Screened gravel was used largely during the past year, as well as sand, and produced excellent results.

The number of cubic yards of sand or screened gravel shown in the foregoing table does not include the amount used to cover the ice on the various streets and sidewalks, or that which was used in mixing bituminous patch, which totaled approximately 159 cubic yards.

In closing, we wish to thank all who have co-operated with us, in any way during the past year, and trusting that we have covered everything, we remain,

Respectfully yours,

JOHN T. GALE,
WILLIAM I. BAILEY,
ASAHEL H. JEWELL,
Tewksbury Highway Commission.
EDWARD J. WALSH,
Superintendent of Streets.

WARRANT FOR ANNUAL TOWN MEETING

Middlesex ss.

To either of the Constables of the Town of Tewksbury in said County:

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Tewksbury, qualified to vote in Town affairs, to meet and assemble at Town Hall in said Tewksbury, on Saturday, the 7th day of February, 1931, at nine o'clock A. M., to act on the following articles:

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all necessary Town Officers, to choose by ballot a Town Clerk, three Selectmen, three members of the Board of Public Welfare, three members of the Board of Health, a Town Treasurer, an Auditor, a Collector of Taxes, a Tree Warden and Constables, (Three) all to serve one year; one Highway Commissioner to serve three years, one School Committee to serve three years; two Trustees of the Public Library to serve three years; one Park Commissioner to serve three years; one Assessor to serve three years; one Park Commissioner to serve two years; one Commissioner of Trust Funds to serve three years, one to serve two years, and one to serve one year. The polls for the election of Town Officers to be opened at nine o'clock A. M., and close at four o'clock P. M.

ART. 3. To hear reports of Town Officers and Committees and act thereon.

ART. 4. To see what sums of money the Town will vote to raise by taxation to defray necessary expenses for the current year, and make appropriations for the same.

ART. 5. To see if the Town will vote the money arising from licensing dogs, for the ensuing year, to aid in support of the Public Library.

ART. 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

The vote to be as follows:

Voted:—That the Town Treasurer with the approval of Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1931, and to issue a note or notes therefor, payable within one year, and debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 7. To see what compensation the Town will vote for the collection of taxes, and at what rate and from what date interest shall be charged on taxes of 1931 unpaid after November 1, 1931, or take any other action relative thereto.

ART. 8. To see if the Town will vote to raise and appropriate the sum of $350.00 for the proper observance of Memorial Day, and appoint a committee to expend the money. Said committee to be taken from members of the G. A. R., Spanish War Veterans, American Legion, and Sons of Veterans.

ART. 9. To see if the Town will authorize the Selectmen to institute suits on behalf of the Town or defend any suits that are, or may be brought against the Town, and to sign any contracts or agreements in behalf of the Town.

ART. 10. To see if the Town will vote to raise and appropriate the sum of $4,500.00 to rebuild Andover Street with bituminous macadam, from the Andover town line westerly, providing the State and County appropriate similar or greater amounts, as provided for in Chapter 90 of the General Laws; or raise and appropriate any other sum, or take any other action relative thereto.

ART. 11. To see if the Town will vote to raise and appropriate the sum of $2,000.00 for specific repairs on Chandler Street from Pine Street to the Billerica town line, providing the State and County each appropriate similar or greater amounts, as provided for in Chapter 90 of the General Laws; or appropriate any other sum, or take any other action relative thereto.

ART. 12. To see if the Town will vote to raise and appropriate the sum of $2,000.00 for specific repairs on Shawsheen Street, from the Billerica town line easterly to the State Highway, providing the State and County each appropriate similar or greater amounts, as provided for in Chapter 90 of the General Laws; or appropriate any other sum, or take any other action relative thereto.

ART. 13. To see if the Town will vote to raise and appropriate the sum of $6,000.00 for oil or other binder for the highways, or take any other action relative thereto.

ART. 14. To see if the Town will vote to discontinue, and abandon, Dock Street, so-called; being the Town road leading northerly, from an old county road known as Old Boston Road, towards the "Great Swamp", thru the land of the New England Power Construction Company to its new sub-station, or take any other action relative thereto.

ART. 15. To see if the Town will authorize the Highway Commissioners to sign any contracts, or agreements pertaining to the Highway Department, and to expend any sums of money allotted to that department.

ART. 16. To see if the Town will vote the sum of $1,000.00 to gravel Bay State Road, So. Tewksbury, or take any other action relative thereto.

ART. 17. To see if the Town will lay a sidewalk and curbing from the land of Mr. A. S. Briggs to and including the front of the land of the Foster School, and appropriate a sum of money for the same, or take any action relative thereto.

ART. 18. To see if the Town will vote to raise and appropriate the sum of $1,500.00 for specific repairs on Billerica Road, providing the State and County each appropriate similar amounts, as provided in Chapter 90 of the General Laws; or appropriate any other sum or take any other action relative thereto.

ART. 19. To see if the Town will vote to appropriate the sum of $1,186.62, received from the State under Chapter 480, Acts of 1924, as a part payment on the note due on account of alteration on the Foster School, or take any other action relative thereto.

ART. 20. To see if the Town will vote to appoint a committee of three to purchase the property of the Lowell Co-operative Bank adjoining the Town Hall, as a site for a Public Library, and to appropriate a sum not to exceed $6,500.00 for the same, or take any other action relative thereto.

ART. 21. To see if the Town will vote to extend the electric lights on Old Boston Road from the present terminal to Dock Street, make appropriations for same, or take any other action relative thereto.

ART. 22. To see if the Town will vote to extend electric lights on Marston Street, from Whipple Road to the residence of Frank Fantini, appropriate money for same, or take any action relative thereto.

ART. 23. To see if the Town will vote to accept Walnut Street, or take any action relative to same.

ART. 24. To see if the Town will vote to appropriate a sum not to exceed $300.00 for three band concerts, one at the Centre, one at North Tewksbury, and one at the Novitiate, or take any action relative to same.

ART. 25. To see if the Town will vote to choose by ballot at the Annual Town Meeting in February, 1932, three Selectmen, three members of the Board of Public Welfare, and three members of the Board of Health, one to serve three years, one to serve two years, and one to serve one year, and each succeeding year to choose by ballot one Selectman, one member of the Board of Public Welfare, and one member of the Board of Health, to serve for the period of three years, or take any action relative to same.

ART. 26. To see if the Town will vote to change the procedure of electing the Town Clerk and the length of time he will hold office as follows:
To choose by ballot at the Annual Town Meeting in February, 1932, a Town Clerk to serve for the period of three years, or take any other action relative thereto.

ART. 27. To see if the Town will vote to change the hours of opening and closing the polls for the election of Town officers as follows:
To change the opening hour from Nine o'clock to One o'clock P. M., and to change the closing hour from Four o'clock P. M. to Eight o'clock P. M., or take any action relative to same.

ART. 28. To see what sum of money will be appropriated under Chapter 40, Section 13, toward a municipal buildings insurance fund.

ART. 29. To see if the Town will vote to raise and appropriate the sum of $50.00, or some other amount, and elect a director, the money to be spent in the Town in the furtherance of and the director to serve in cooperation with the Middlesex County Trustees for County Aid to Agriculture in the work of the Middlesex County Extension Service, under the provisions of Sections 40-45, Chapter 128, General Laws of Massachusetts.

And you are directed to serve this warrant by posting up attested copies thereof, one at each of the Public Meeting Houses, one at the Town Hall, one at each of the Post Offices, and leave one hundred copies for the use of the citizens at the Post Offices in said Town, 8 days at least, and over two Sundays, before the time of holding said meeting.

Hereof fail not and make due returns of this Warrant, with your doings thereon, to the Town Clerk at the time and place of Meeting as aforesaid:—

Given under our hands, this 14th day of January, in the year of our Lord, one thousand nine hundred and thirty-one.

IRVING F. FRENCH,
WILLIAM H. KELLEY,
JOSEPH W. JORDAN,
} Selectmen of Tewksbury.

REPORT OF TRUSTEES OF TEWKSBURY PUBLIC LIBRARY

The Trustees of the Public Library respectfully submit the following report.

The report of the Auditor will give in detail the expenditures of the Public Library.

The Trustees have held monthly meetings with the exception of July and August.

The report of the Librarian shows that 436 books have been added this past year.The Trustees wish to call to the attention of the patrons of the Library that any book will be bought on notice to the Librarian.

We are pleased to note the increased circulation from the different sections of the town.

As the voters must know the need is getting greater for a new Library. Our shelves are filled and many shelves have books piled on the outer edges as well. This condition certainly doesn't add to the appearance of our Library and does a great deal of harm to the books.

We wish to thank the Librarians for their faithful and courteous service, the donors of books and the patrons of the Library for their cooperation.

The Trustees respectfully request that the article in the warrant asking for an appropriation of $750 and the money received from the dog taxes be granted.

Respectfully submitted.

GRACE W. DAWSON
GEORGE A. MARSHALL
EDGAR SMITH
RUTH H. TINGLEY
KATE FOLSOM
RUTH W. SMITH

LIBRARIAN'S REPORT

To the Board of Trustees of the Tewksbury Public Library:

The following report is respectfully submitted:

The circulation of books continues to increase especially at the library.

The circulation of magazines continues about as usual.

New patrons from the different sections of the town have become subscribers and are taking out books regularly.

The crowded conditions at the library emphasize our need of larger quarters, a fact well realized by our patrons.

We wish to remind our subscribers that the Trustees will purchase books on request if names and authors of books are left with the Librarian.

The library is open to the public, Wednesday evenings from 7.00 to 8.30 and Saturday afternoons and evenings from 2.00 to 9.00. Legal holidays excepted.

Annual Report

OF THE

SCHOOL COMMITTEE

OF THE

TOWN of TEWKSBURY

Also Report of
The Superintendent of Schools

FOR THE

Year Ending December 31

1930

REPORT OF THE SCHOOL COMMITTEE

The regular work and supervision of the schools has been carried on as usual this year.

At the request of the School Board of Dracut the union which had existed for many years between Dracut and Tewksbury was dissolved on July 31st, and a new union consisting of the towns of Tewksbury, Wilmington and Middleton was formed. Supt. Stephen G. Bean is carrying on the work in a most efficient manner.

A class room was made ready at the Spaulding School to take care of the second grade pupils.

The transportation of the children from the East and West sections of the town is now taken care of by a bus which covers both sections, proving very satisfactory.

A substantial and attractive fence has been erected on the south side of the Foster School playground.

Respectfully submitted,

MAY L. LARRABEE, Chairman
PHILIP M. BATTLES
AUSTIN F FRENCH, Secretary

The School Committee recommend the sum of $53,434.00 be appropriated for the schools for 1931 based upon the following proposed budget:

Superintendent	$	975.00
Supervisors		1,500.00
Teachers		19 450.00
Janitors		3,814.00
Transportation		10,000.00
Fuel		1,500.00
Tuition		11,300.00
Books and supplies		1,000.00
Health		1,275.00
Insurance		1,000.00
District		120.00
Miscellaneous		500.00
Repairs		1,000.00
Total	$	53,434.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Tewksbury:
Mrs. Larrabee and Gentlemen:

Herewith is submitted my first annual report as Superintendent of Schools, this being the fortieth in the series of such documents.

Since I took over this work on August first of the year my report is of necessity brief. The report partakes of the nature of a survey of the school system as I have found it.

It has ever been my opinion that this report, though addressed to your committee, is after all printed for the benefit of those citizens who have the interest in the children to read it.

General Conditions

The schools as a whole are in the excellent condition that should be expected from a system under seventeen successive years of supervision by a man of Mr. Randall's experience and ability. If the writer is able to maintain this standard, the town will be fortunate. It is, of course, every man's ambition to improve on any situation in which he finds himself, and it is my hope to keep the schools on a course of steady improvement in accord with such discoveries as are made in Education, by those who are making a scientific study of its manifold problems.

Since no two men see a situation from exactly the same point of view, it is natural that in minor elements changes will be made, in the belief that improvement may be effected. Fundamentally, however, no momentous need for alteration has yet been observed. Until sure that an action will benefit the school children no action will be undertaken. Change for the sake of changing is vain and expensive. This applies alike to teachers, textbooks, and techniques.

Supervisory and Teaching Staff

After four months of observation I am pleased to be able to report that Tewksbury has, in the main, a very harmonious and efficient group of teachers and supervisors. All seem earnest, faithful, and interested. They respond promptly and cheerfully to suggestions and requests. They also show a fine spirit of willingness to lighten the burdens of their superintendent.

Several members of the group are as new to the system as is the superintendent. Summer changes were not numerous. This is always good fortune for a school system as well off in teaching personnel as this is.

Miss Vittoria Rosatto, of Lowell, a graduate of what used to be the Normal Art School, has succeeded Miss Young as Art Supervisor,. As Music Supervisor, Miss Marion Adams, of Chelmsford, has taken over the work of Miss Gregory. Miss Margaret Flynn, of the Foster corps, was succeeded by Miss Doris Blake, and the position as assistant in Grade VIII, left vacant by Miss Fuller's transfer to a position in the seventh grade, was filled by Miss Ruth Kelly.

Transportation

While I am unfamiliar with the transportation facilities in operation last year I gather from reports of teachers that there has been a marked improvement this fall. Commencing with September, Mr. John Furtado placed in operation a new bus more adequate to meet the needs of an increased school population. Aside from this innovation the transportation situation is as it was last year.

In many towns of the type of Tewksbury the item of transportation is a major one in the budget. The requirements of State Law and local public opinion, at least on the part of parents, makes transportation of school children, living at any great distance, imperative.

Lunch Service

I have been very much pleased since the advent of cold weather to note the efficiency with which the lunch room at the Foster School operates. Here, at noon of any school day, may be found the major portion of the pupils of this school with additional pupils from the Spaulding School, seated at sanitary tables and eating in an orderly and decent manner, the lunches that they have brought from home, augmented by various hot dishes purchased at cost at the adjacent lunch counter.

This activity is maintained from around Thanksgiving to April first. It is under the charge of Mrs. MacLaren in so far as preparation of hot food is concerned. Responsibility for order during lunch period is shared in turns by various room teachers.

Banking

School Banking continues as in the past, and is likely to continue as long as the present interest is shown by pupils. No spirit of competition which may react in heartache on the part of any less favored child will be allowed to enter into this activity. As a means of teach-

ing thrift this may be a very desirable part of our school life, but if it degenerates into a mere contest where the child of more affluent parents has a decided advantage it is likly to produce an undesirable reaction. It is perfectly legitimate to urge that every child have a bank account, however small, but competition in the amount deposited should never be allowed to enter into consideration.

High School Standards

I was very glad to note in Mr. Randall's Report of last year the very clear statement of the basis upon which students will be certified for entrance into High School. It is very true that all pupils who have attained a mark which permits their graduation from the eighth grade are not necessarily qualified to take up high school work. Some children need an extra year of instruction in order to do the higher grade of work comfortably. The number for whom this is necessary should be small in any class, provided advantage is taken of the opportunities offered. The analogy to this is the fact that some pupils require an extra year of instruction in high school or a preparatory school in order to enter college successfully.

High School Reimbursement

To date no adverse results with regard to reimbursement for high school tuition and transportation have resulted from the census of 1930. No notice has been given by the State authorities that such result is likely to eventuate. If this reimbursement had been lost it would have been a serious blow to the Town Treasury, since half the cost of this type of education is borne by the State.

Statistics

In place of the figures given by my predecessor, are offered two simple tables showing the number and distribution of pupils in the various schools.

Age-Grade Distribution

	5	6	7	8	9	10	12	12	13	14	15		T	UA	%	OA	%
I	27	36	9	5	2			1					80	27	37	8	10
II		19	24	7	1	1							52	19	36	2	4
III			30	26	5	1	1						63	36	57	2	3
IV				13	38	13	4						68	13	18	4	6-
V					16	35	8	2	1	1			63	16	25	4	6
VI						14	24	10	2	1			51	14	27	3	6
VII							14	28	14	5	1		62	14	23	6	9-
VIII							2	16	14	10	5		47	18	38	5	10
T	27	55	63	51	62	64	53	57	31	17	6		485	157	32	34	7

KEY—The heavily leaded diagonal "steps" indicate for each grade the normal age limits or that grade.

OA at the head of the column indicates that the numbers below are of pupils too old for the grade.

UA at the head of the column indicates that the numbers below are of pupils too young for the grade.

The much greater percentage of UA pupils indicates that the entrance age is somewhat low in this town.

School-Teacher-Grade Distribution

	GRADE	1	2	3	4	5	6	7	8	T
SPAULDING	MISS EAGLES	42								42
"	" WATSON		28							28
FOSTER	" BLAKE			39						39
	" M. PIPER				38					38
	" R. PIPER					36				36
	" FLYNN						34			34
	" O'BRIEN							31		31
	" FULLER							26		26
	" HOWARD								47	47
SHAWSHEEN	" TINGLEY	30	12	9						51
	" WIGGIN				15	17	4			36
NORTH	" McCANN	5	9	7						21
	" HERSEY				11	10	13	5		39
WEST	" SULLIVAN	3	3	8	4					18
TOTAL		80	52	63	68	63	51	62	47	486
HIGH SCHOOL										111
GRAND TOTAL										597

Conclusion

I would like to direct attention to the reports of the teachers and supervisors of special subjects which are appended to this report. I wish to commend the very fine work being done by these people. I wish also to express my appreciation of the fine cooperation which I have received from the whole teaching corps.

The kindly and helpful spirit in which your committee has received my efforts to take over the reins of administration is an inspiration to give my very best in the effort to justify such treatment.

I desire here publicly to commend the fine professional spirit of my predecessor, Mr. Randall, shown in the manner in which he endeavored to make easy the taking over of the work he had done so well for so many years.

Respectfully submitted,

STEPHEN G. BEAN,
Superintendent of Schools.

Wilmington, Mass.,
January 15, 1931.

REPORT OF TEACHER OF MANUAL TRAINING

Mr. Beane,
Superintendent of Schools.
Tewksbury, Mass.
My Dear Sir:

In this, my annual report, I wish to give a short resume of the work done in the manual training classes, which are under my supervision.

The boys are taking a very keen interest in their work and are all doing well. Instead of trying to complete as many projects as in the past, they are making an effort to do a more finished and more complete piece of work.

We are making the following articles:—Hall trees, ferneries, drum top tables, tilt top tables, medicine cabinets, smoking stands, end tables, bird feeding stations, doll houses, book racks, taborets, Priscilla sewing cabinets, and many other smaller articles. These are taken from plans and sketches, which the boys have to work out to a certain extent.

Besides teaching the boys to use their hands, this work gives them the ability to visualize the complete article before it is begun, and it also trains them in accuracy and exactness.

Respectfully yours,

R. A. NORTON.

REPORT OF SEWING TEACHER

Mr. Stephen B. Bean,
Superintendent of Schools,
Tewksbury, Massachusetts.
Dear Sir:

The following report is submitted covering instruction in sewing in the Foster School.

The girls in the seventh grade have made holders, dish towels and sewing bags. We expect to start on underwear with in a week or so. Then the girls will learn how to use a commercial pattern and how to use the sewing machine.

The eighth grade girls have made laundry bags, underwear and are now making dresses. Every girl plans just how she is going to make her dress and then uses a commercial pattern for cutting it out. Some of the girls are making clothes for younger members of the family.

Respectfully submitted,

LENA M. COBURN.

January 12, 1931.

REPORT OF SCHOOL NURSE

To the Superintendent and the School Committee of Tewksbury:

As School Nurse I submit the following report:

I have made two hundred and eighty-six visits to the schools. Every child has been weighed and measured and a physical record card sent home with the report cards. Every child has been examined for pediculosis, cleanliness, skin eruptions, etc., every two months. Contagious cases have been very carefully followed up and everything done to prevent their spread.

I have made sixty-six visits to the homes, and the parents have been willing to co-operate with me in every way. I have conducted sixty-two children to the Dentist, and obtained corrected vision for twenty-nine children. Eighteen children have been with me for the removal of tonsils and adenoids, and I have influenced the parents to attend to the matter in several cases.

I assisted Dr. Larrabee in vaccinating fifteen children and in the examination of one hundred and seventy-six children. I have recorded defects found and am obtaining corrections. I have done two hundred and forty four simple dressings in school.

The New England Dairy and Food Council have sent us a Story Teller and some beautiful pictures and we have visited all the schools.

The hot lunches are a decided factor in the well-being of the children of the Foster and Spaulding Schools.

Respectfully submitted,

MRS. E. P. MACLAREN.

Reimbursed by other cities and towns	105.57
Reimbursed Private	60.00
Reimbursements due	2,240.41

IRVING F. FRENCH,
JOSEPH W. JORDAN,
WILLIAM H. KELLEY
Board of Public Welfare.

BOARD OF HEALTH

The following is my report for the year ending December 31, 1931.

Diseases	No. Cases	No. Deaths
Scarlet Fever	13	0
Diphtheria	0	0
Measles	35	0
Mumps	10	0
Chicken Pox	0	0
Whooping Cough	10	0
Tuberculosis	0	0
Pneumonia	3	1
Infantile Paralysis	1	0
Total	72	1

During the past year we have had a large number of contagious diseases, but a very low death rate. At present there are many cases of scarlet fever in our surrounding towns and city. It is not possible to prevent its presence in our locality, but much can be done by the parents in keeping children from public amusement gatherings and stores particularly in the cities. The type of this disease, so prevalent, is very mild and many cases have gone unrecognized, so that they are going about freely, making themselves a menace to all contacts. Another health problem, which we must face, is the water supply of our town. This past year I have had an analysis made of about fifteen drinking supplies in the town, particularly along the State highway, not one case has been accepted that was not a "so called" deep well. Every supply not deeper than thirty-five feet has shown contamination. Our state authorities tell us that all such wells will show this same result, because of the many years of growing saturation, from our necessary sewage disposal. Although at the present time I cannot say that the general health of the town is affected, still I can say, that this is a definitely progressive process of contamination and that not very long hence, we are going to be forced to the issue of a town supply.

Respectfully submitted,
HERBERT M. LARRABEE, M. D.,
Agent.

TABLE OF ESTIMATES FOR 1932

Street Lighting	$ 7,770.00
Incidentals	1,200.00
Highways	14,000.00
Schools	51,000.00
Library (Dog Tax)	750.00
Police	2,000.00
Stationery and Printing	750.00
Board of Health	1,000.00
Salaries	2,550.00
Park Commission	250.00
Tree Warden	1,500.00
Dept. Public Welfare	6,000.00
Fire Department	4,000.00
Bureau of Old Age Pension	2,500.00
Town Hall	5,016.26
Assessors	1,800.00
Vocational School	5,000.00
Inspection of Meats and Animals	1,000.00
Aid, State and Military	800.00
Interest on Loans	3,500.00
Collection of Taxes—4 Refunds	2,500.00
Gypsy Moth	1,000.00
Municipal Insurance	1,500.00

REPORT OF INSPECTOR OF MEATS AND PROVISIONS

To the Board of Selectmen, Town of Tewksbury:

Gentlemen: Following is my report for inspection of meats and provisions for the year of 1931 from January 1, to December 31, 1931.

No. of sides of beef inspected	946
No. of calves inspected	642
No. of hogs inspected	409
No. of sheep inspected	528

Cattle Condemned

No. of sides of beef condemned	22
No. of heads condemned	2
No. of sets of lungs condemned	3
No. of livers condemned	4

Swine Condemned

No. of swine condemned	13
No. of heads condemned	2
No. of livers condemned	1
No. of sets of lungs condemned	1

Calves Condemned

No. of veals condemned	19
No. of sheep condemned	2

Respectfully submitted,

ASAHEL H. JEWELL,
Inspector.

REPORT OF INSPECTOR OF ANIMALS

To the Selectmen of the Town of Tewksbury,
Gentlemen:

Following is the report of the Inspector of Animals from January 1, 1931 to December 31, 1931.

Cows inspected	809
Young cattle inspected	189
Bulls inspected	32
Sheep inspected	20
Hogs inspected	529
Stables inspected	94
Goats inspected	2

I have released for immediate slaughter 37 head of cattle, 66 calves.

For dairy purposes 23 head of cattle.

Three dogs were quarantined for rabies, and released at the end of 14 days.

I have inspected eight barns where cattle are under State and Federal supervision.

Respectfully submitted,

ASAHEL H. JEWELL.

REPORT OF SEALER OF WEIGHTS AND MEASURES

Tewksbury, Mass.,
December 31, 1931.

To the Selectmen of the Town of Tewksbury,
Gentlemen:

Following is my report as Sealer of Weights and Measures for the year ending December 31, 1931.

Platform scales sealed over 5,000 lbs.	3
Platform scales sealed under 5,000 lbs.	4
Computing scales sealed	9
Miscellaneous scales sealed	23
Liquid measures sealed	178
Gasoline pumps sealed	44
Kerosene pumps sealed	3
Yard sticks sealed	3

I have collected and turned over to the Town Treasurer $37.23 in fees.

Respectfully submitted,

HUGH CAMERON.
Sealer of Weights and Measures.

REPORT OF AGENT FOR SUPPRESSION OF GYPSY AND BROWN TAIL MOTHS

To the Honorable Board of Selectmen,
Gentlemen:

As local superintendent for the suppression of the Gypsy and Brown Tail moths I submit the following:

I am glad to report there is no increase in the Gypsy, and the Brown Tail moth is seldom seen.

There was also a decrease of Satin moth in '31 which have been so harmful to the Poplar and Willow for several years. The Fall Bag Worm was very plentiful and did considerable damage.

Spraying was done only on streets where colonies of Gypsy moth egg clusters were found in the winter of '30 and '31.

Scouting of the woodlands is now under way and orchards will also be gone over to check up on conditions. Bad spots will be booked and sprayed during the summer season.

Yours respectfully,

HARRIS M. BRIGGS.
Agent.

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen,
Gentlemen:

As Park Commissioners we submit the following.

During the year fertilizer was used, the commons mowed, granite dust was placed on all the walks and the bandstand was repaired and painted two coats. The community tree was lighted from Christmas to New Years.

We felt it advisable to close the common to carnivals and other amusements owing to damage done in the past.

We recommend an appropriation of $250.00 for 1932.

Signed

HARRIS M. BRIGGS,
ANNA GARLAND,
F. C. McCAUSLAND,
Park Commissioners.

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectmen:
Gentlemen:

As Tree Warden I submit the following:

The brush on all streets has been cut. Owing to complaints of brush and trees sagging into the streets during the winter the brush was cut further back on Maple Street. There are other streets with the same conditions. and should be cut further back. Bad curves on the Corner of Lowe and Shawsheen and the Corner of Maple and Whittemore Streets. Several dangerous trees have been pruned or removed. There are numerous trees and poles too close to the traveled way on our streets that should be removed and many dangerous limbs that should be cut.

Yours Respectfully,

HARRIS M. BRIGGS,
Tree Warden.

REPORT OF CHIEF OF THE FIRE DEPARTMENT

Tewksbury, Mass.,
January 1, 1932.

To the Honorable Board of Selectmen,
Gentlemen:

As Chief of the Fire Department I herewith submit the following total number of fires attended.

Forest fires	87
Building fires	16
Chimney fires	1
Automobile fires	2
False alarms	8
Out of town calls	15

Total value on buildings and contents: Twenty-three thousand eight hundred and twenty-five dollars ($23,825). Damage: Ten thousand and fifty dollars ($10 050). Insurance paid: Eight thousand nine hundred and seventeen dollars ($8,917). Personal property of the Fire Department: Fourteen thousand four hundred dollars ($14,400).

Yours respectfully,

A. S. HAINES,
Chief of Fire Department.

FRANCIS S. WHITTET	Plumber

REPORT OF MIDDLESEX COUNTY EXTENSION SERVICE

The following is a report of the work done by the Middlesex County Extension Service in the Town of Tewksbury for the year 1931.

Considerable interest has been shown by the farmers in Tewksbury in the work of the Extension Service this past year. Forty-three farm visits were made dealing largely with fruit, market gardening, dairy and poultry problems. Several soil tests were made on market garden farms and specialists were brought out from the Waltham Field Station. Spray service cards were sent to those interested. The results obtained on the Spaulding farm with alfalfa showed the possible improvement that may be obtained in the raising of cattle feeds.

A group of homemakers has carried on a series of monthly meetings under the leadership of Mrs. Maude Griffin. These meetings held discussions on "The Saving of Time, Money and Energy in the Home." Women attending reported they had passed on information to 72 homemakers who could not be present. A group of mothers was also interested in a series of meetings on Child Guidance carried on under the leadership of Mrs. H. C. Larrabee and Mrs. C. L. Trickey. These meetings were planned to help parents to better understand their children and to develop a constructive program for children.

Sixty boys and girls were enrolled in 4-H club work, largely in the garden, poultry and food clubs. Local leaders were Mrs. E. P. MacLaren, Harper Gale, Homer Carson, Manuel Furtardo and Ferdinand Cuccoli. Many boys and girls from Tewksbury attended a sectional rally held in the city of Lowell.

A series of seven motion picture shows of an educational nature were given during the year to a total attendance of 1,455.

Several townspeople availed themselves of the opportunity of attending county-wide meetings on poultry, fruit growing and dairying, as well as the Homemakers' Day at Lexington and the County Picnic at Wayside Inn.

OMER N. BLANCHARD,
Town Director.

REPORT OF HIGHWAY COMMISSIONERS AND SUPERINTENDENT OF STREETS

Board of Selectmen,
Tewksbury, Mass.
Gentlemen:

The following is the annual report of the Highway Department for the year ending December 31, 1931.

During the year 1931, considerable heavy construction was done in various sections of the town, and we point with pride to the work accomplished. In West Tewksbury, Billerica Road was completed, one mile in length, and a portion of Whipple Road from French Street to the Lowell line was improved. In North Tewksbury, River Road was put in comparatively good condition including "Mill Hill" which had given considerable trouble with washouts in the past. Two hundred feet of wire mesh guard fence was erected at the old mill pond in place of the old wooden guard rail which had practically rotted away.

The reconstruction of Andover Street was begun, and over two thousand feet of penetration bituminous macadam, twenty-four feet wide was completed. In East Tewksbury, Shawsheen Street was resurfaced with gravel, from Lowe Street to Vale Street, a distance of one mile and then treated with two applications of oil. Vale Street was also put in good shape in the same manner as Shawsheen Street, a distance of seven tenths of a mile to the Andover town line, thereby completing a good route from the State Highway to our town line. The culverts were extended, and guard rail removed wherever we found it practical to do so. In South Tewksbury, Bay State Road was completed, and is of gravel treated with oil. Shawsheen Street from the Billerica line (Pattenville) to the Marsh residence, a distance of nine-tenths of a mile, is now under construction.

Turning toward the Central portion of the town, we have Marshall Street which we improved the entire length, a distance of one mile, and treated with oil and tar. This is one of three streets in the town treated with oil and tar ,which was done to compare the results with oil alone.

The usual maintenance was carried on under the provisions of the Chapter 81 contract. When roads became rough they were scarified graded, and rolled. Then, treated with a dust layer of 15 percent asphaltic oil during the dry months. Other streets were gravelled or gravel patched, as shown on the table covering this item.

Owing to the dusty conditions which prevailed at Tewksbury Centre during the summer months we consulted the State Engineers with hopes of seeking relief for those who live on or near the State Highway. We were informed that no money was available for this purpose, so we obtained permission to do the work under our own supervision.

The shoulders on Andover Street, and East Street were also oiled to hold them in place, and lay the dust.

The old wooden bridge, on Bridge Street, over the Shawsheen River is rapidly decaying. During the latter part of the summer, it was necessary to add temporary shoring to make it safe for use. Otherwise it would have fallen into the river. We will be required to seek aid for this work at the town meeting in 1933, if not before.

Some of the streets which now require attention for 1932,, under the regular highway fund, are Chandler Street, from Pine Street to the Billerica town line; Whipple Road, from Pleasant Street to Chandler Street; Foster Street, entire length; Rogers Street, from Main Street to Pike Street, and from Whipple Road to Billerica Road; Shawsheen Street, from Vale Street to the Andover town line. And, in Tewksbury Centre, Summer Street, and James Street.

New steel highway signs, mounted on standard concrete posts, were erected at the following places: Corner North and East Streets, Corner Ballard and Shawsheen Streets, Corner Shawsheen and Main Streets, Junction of Salem and Main Streets; Junction of Cross and Maple Streets; and Corner South and Salem Streets. We hope to add to this number from time to time until the town has been covered.

The culvert under Whipple Road, near the residence of Austin French was extended, the road widened, and stone guard fence erected, eighteen inch reinforced concrete pipe being used for the extension.

On French Street a twelve inch reinforced concrete culvert was installed near Osterman's Dairy.

A twelve inch corrugated metal culvert was installed on Fiske Street at the Penney residence.

At the old railroad crossing on South Street, fifteen inch corrugated metal culvert was used.

While Bay State Road was under construction a ten inch corrugated culvert was put in place near the corner of Diana Street.

On Vale Street, near the Andover line thirty feet of twenty-four inch corrugated culvert was used to extend the present culvert, and widen the roadway. By this extension the guard rail was eliminated.

Considerable work along this line, was also done on Shawsheen Street, in East Tewksbury. Two culverts were extended, one near the corner of Ballard Street, and the other near the junction of Vale Street. Two new installations were made, one of eight inch corrugated metal, about halfway between Ballard and Vale Streets, and the other twelve inch corrugated metal, between the residence of Mr. Winters and Lowe Street.

The eight inch culvert on Shawsheen Street, and the ten inch culvert on Bay State Road are new installations, all the others are replacements or extensions.

A standard catch basin was installed at the corner of Trull Street and River Road, and a ten inch pipe line laid from here to a point near the junction of Hood Road.

All corrugated culverts are invert paved, and coated all over with asphalt.

Culverts installed under Chapter 90 construction are shown under the headings of the respective streets.

SPECIAL APPROPRIATION—BILLERICA ROAD

Work on the 1931 appropriation was started early in May, and finished in July.

The entire road from the Billerica town line to the Lowell city line was resurfaced with gravel, the curves banked, the surface graded, rolled, oiled, and then tarred.

Four new reinforced concrete culverts were installed, each with standard reinforced concrete headwalls as follows, one eighteen inches in diameter at the Lowell line; one twelve inches in diameter at Glendale Avenue: one twelve inches in diameter near Rogers Street, and one thirty-six inches in diameter at the brook, adjoining the Felker-Osterman farms. A ten inch corrugated metal culvert was placed under Glendale Avenue, at Billerica Road to relieve a water condition there. Standard steel town line signs were erected at both the Billerica and Lowell lines.

Standard steel cable guard rail mounted on reinforced concrete posts was erected on the curve at the brook, and also at the Lowell line.

The new road is eighteen feet wide, with three foot shoulders on each side, making a total width of twenty-four feet. This gives the West section of our town, a mighty fine, and much needed stretch of road.

4,090 cubic yards of gravel, 127 cubic yards of sand, 6,729 gallons of 45 per cent asphaltic oil, and 3,366 gallons of tar, were used in the construction, from January to July 1931.

All the work was performed by our local department.

SPECIAL APPROPRIATION—ANDOVER STREET

Operations were started on this job in July, and the work was completed October 1st.

A trench was dug along the northerly side of the highway, and a ten inch plain concrete, open joint, pipe line constructed to care for excessive water, and seepage, which has been so prevalent along this stretch of road. The trench was then filled with crushed stone, in sizes as directed by the engineer. Catch basins, and drop inlets were constructed where necessary, and one new twelve inch reinforced concrete culvert installed. All the existing culverts were cleaned, and extended in length with concrete pipe to conform to the specifications of the new road, each being of sufficient length to eliminate all guard rail. One hundred and eighty-eight feet of wooden rail being eliminated by this procedure.

The new road surface, is from nine inches to twelve inches higher than the old road, and six feet wider. The new work which is of bituminous macadam (Penetration asphalt) is twenty-four feet wide, with three-foot shoulders on each side, making a total width of thirty feet. Work was commenced at the Andover town line, (Station 0+0) and extends in a westerly direction to a point just beyond Station 20, a distance of over two thousand feet.

The gravel, and the other filling material was obtained largely from the Kendall Street gravel pit, which is located only one and one-half miles away. This pit was practically exhausted during this construction.

A standard town line sign was erected at the beginning of the new work, and is mounted on a concrete post.

The use of manually operated traffic control lights were used during the construction, and resulted in a saving of nearly $400.00 by cutting the cost of traffic men in half. This installation was the first of its kind in the state, and was originated by our local Superintendent of Streets.

It is hoped that the voters will appropriate a similar amount to continue this work during 1932.

SPECIAL APPROPRIATION—SHAWSHEEN STREET

Work was commenced in November, and on December 31st, practically all the gravelling was completed, save about two hundred feet at one end where excavation is necessary, and this will be done in the spring. The specifications call for resurfacing with gravel for a width of twenty-four feet, the entire length of the job.

To date, two new culverts have been installed, both being of corrugated metal, one forty feet long, and twenty-four inches in diameter; the other sixty feet long, and twelve inches in diameter. Each to have standard concrete headwalls. 3,408 cubic yards of gravel have been used to December 31st. A balance remains unexpended on this contract which has been reserved, for grading, rolling, oiling, and such gravelling as may be necessary to complete this section of the road. This work will be done just as soon as conditions warrant.

An article appears in the warrant asking for $1,500.00 to complete this stretch to the State Highway, including the installation of a large concrete culvert with standard headwalls, at Heath Brook, and straightening the road at this point.

When this work is completed, it will form an important link between Billerica and Andover, and will give the residents of this section an excellent thoroughfare.

SPECIAL APPROPRIATION—CHANDLER STREET

For various reasons, an allotment was not granted for Chandler Street this year. However, progressive repairs will be made early in 1932, and this street will be gravelled, rolled, oiled and otherwise improved, if the appropriations for which we ask are granted.

OIL OR OTHER BINDER
STREETS OILED

The following table shows the number of gallons of oil or tar, asphaltic percentage, and cubic yards of sand used on each street. Insert 6 point lines

STREET	GALLONS			SAND-SCREENED GRAVEL
	Tar	45%	65%	Amount
Rogers Street	.....	1,983	.....	19 cu. yds.

Summer Street	.....	290	.....	
Lake Street	.....	685	.....	47 " "
Marshall Street	2 083	4,311	.....	70 " "
Bay State Road	.....	1,185	600	24 " "
Carter Street	.....	250	.....	
Brown Street	.....	2,290	.....	
Bailey Road	.....	383	.....	
Whipple Road	283	2,793	.....	33 " "
Fiske Street	.....	2,050	.....	

306 cubic yards of sand were used in covering ice on streets and sidewalks during the year.

2,583 gallons of oil and 58 cubic yards of sand were received at the town yard for the purpose of mixing patch.

The preceding figures do not include oil, tar or asphalt used on either Billerica Road, or Andover Street.

On practically all roads which are of an exceptionally dusty nature, a second application was given. A second application was also given on many other streets as a binder including Shawsheen Street, Bay State Road, Vale Street, Whipple Road, Marshall Street, Trull Street, Pike Street, and Rogers Street; in such cases the second application is usually 65 per cent oil, or tar.

On East Street, a heavy coat of oil was applied from Kelley's Crossing to the Andover town line, and heavily covered with sand. This is more or less an experiment toward binding a road constructed of cinders without too much expense.

GRAVEL DISTRIBUTION

Street	Amount	Street	Amount
Shawsheen Street	3,041 cu. yds.	Livingston Street	27 cu. yds.
Cross Street	2 " "	French Street	305 " "
Vale Street	1,409 " "	Summer Street	4 " "
Marshall Street	975 " "	South Street	197 " "

River Road	265 " "	Fiske Street	6 " "
Coolidge Street	33 " "	Rogers Street	7 " "
Brown Street	9 " "	Vernon Street	8 " "

3,082 cubic yards of gravel, and filling, were used in the construction of Andover Street, under Chapter 90. The yardage shown in the preceding table, for Andover Street, is for that used in ordinary maintenance outside of construction work.

The yardage shown for Bridge Street is largely coarse gravel or stones used to strengthen and widen the approaches to the bridge.

For a financial report, we refer you to the auditor's report of highway expenditures.

We wish to extend our thanks to all who co-operated with us during the year, and, must say, that we are deeply grateful to the various State and County officials for the splendid assistance rendered to our town.

In closing, we are desirous of commending the employees of the Highway Department for their excellent work, and co-operation; and, each newly constructed road stands out as a monument of their good will.

JOHN T. GALE,
WILLIAM I. BAILEY,
ASAHEL H. JEWELL,
Highway Commissioners of Tewksbury.

EDWARD J. WALSH,
Superintendent of Streets.

REPORT OF AN AUDIT OF THE ACCOUNTS OF THE TOWN OF TEWKSBURY

For the Period from January 1, 1930, to September 9, 1931

Made in Accordance with the Provisions of Chapter 44, General Laws

---

November 17, 1931.

To the Board of Selectmen,
Mr. Irving F. French, Chairman,
Tewksbury, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the Town of Tewksbury for the period from January 1, 1930, to September 9, 1931, made in accordance with the provisions of Chapter 44, General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division.

Very truly yours,

THEODORE N. WADDELL,
Director of Accounts.

Mr. Theodore N. Waddell,
Director of Accounts,
Department of Corporations and Taxation,
State House, Boston.

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the Town of Tewksbury for the period from January 1, 1930, to September 9, 1931, and submit the following report thereon:

The financial transactions of the Town, as recorded on the books of the several departments receiving or disbursing money for the Town, were examined and checked.

The books and accounts of the Treasurer were examined and checked in detail. The cash book was footed and the receipts were analyzed and checked by a comparison with the records in the departments collecting money for the Town and with the other sources from which money was paid into the Town treasury. The cash in the office was verified by an actual count, and the bank balance was reconciled with a statement furnished by the bank in which the Town funds were deposited.

The payments were checked with bills, vouchers, and pay-rolls approved by the Selectmen and authorizing the Treasurer to disburse Town funds. In examining these vouchers it was found that in several instances expenses incurred in 1929 and 1930 had been paid from the appropriations of 1930 and 1931, respectively. The practice of paying bills of prior years from appropriations provided for current years' expenses should be discontinued in the future.

Bills covering the cost of highway equipment were charged against the appropriation for general highways. Payment for fifteen fire extinguishers, amounting to $450, was made from the Fire Department appropriation. It is recommended that expenses of such nature be provided for by special appropriation.

Expenditures were also made from the police appropriation for the purchase of articles of police uniforms which are proper charges only after the Town has accepted Section 6B, Chapter 40, General Laws, inserted by Chapter 351, Acts of 1930.

The Town debt, revenue loans, and interest were verified, and the payments were checked with the amounts falling due and with the cancelled securities and coupons on file.

The savings bank books representing the investments of the trust and investment funds were examined and listed. The income was proved and the withdrawals were checked with the receipts as shown in the Treasurer's cash book.

The books and accounts of the Tax Collector, covering the collection of taxes and assessments from May 8, 1928, the date of the previous audit, to September 9, 1931, were checked in detail. The commitments were proved and checked with the Assessors' warrants. The payments to the Treasurer for the several levies were checked to the Treasurer's cash book, the abatements were checked with the Assessors' record of abatements granted, and the outstanding accounts were listed and reconciled. These accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the Town, the replies received thereto indicating that the accounts, as listed, are correct.

The tax title deeds held by the Town were examined and listed, and the Collector was assisted in preparing a tax title book which will be helpful when tax titles are redeemed.

The appropriations and transfers voted by the Town, as shown by the Town Clerk's records, were listed and compared with the charges against the several appropriations.

It was found that the sum of $1500 was voted in 1930 for the Fire Department and that in 1931 $3000 was appropriated for the Public Welfare Department, both amounts to be transferred "from unexpended balances", or surplus revenue. Neither of these mounts has been shown on the Assessors' books in determining the tax rates for the above mentioned years. At the time of the Town Meeting vote in 1930, while there was a balance greater than $1500 in the Surplus Revenue Account, none of it was represented by free cash available for appropriation. In 1931 there was less than $3000 in the Surplus Revenue Account, none of which was free cash. Any portion of this $3000 expended during the current year, in addition to the $800 raised in the 1931 tax levy for Public Welfare, will create an overdraft for which provision will have to be made.

The exceedingly small balance of $233.35 remaining in the Surplus Revenue Account on September 9, 1931, is partly due to the fact that the various overlay accounts, as well as the Overlay Surplus Account, which have been, in the past, included in the Surplus Revenue Account, have now been set up as separate accounts. The Overlay Surplus Account, which is provided for by Section 25, Chapter 59, General Laws, has accumulated from year to year until on September 9, 1931, it

amounted to $8,616.18. The balance remaining in this account may be used only for extraordinary or unforeseen expenses, as voted by the Town Meeting

The amounts used by the Assessors as estimated receipts in computing the tax rates for 1930 and 1931 were in excess of the actual sums received in 1929 and 1930, respectively. Care should be taken in estimating the sums to be received from sources other than taxation and loans, for a deficit in the actual collections will affect the surplus revenue of the Town.

The Town Clerk's records of Town Licenses, together with the records of Hunting and Fishing and of Dog Licenses, were examined, the payments to the Town Treasurer being compared with the Treasurer's cash book and the payments to the State and County, respectively, being verified with the receipts on file.

All fees for gasoline permits and for the renewals of these permits, whether collected by the Town Clerk or by the Chief of the Fire Department, should be turned over to the Town Treasurer.

The accounts of all other departments collecting money for the Town or committing bills for collection, were examined and reconciled with the Treasurer's books.

It was found that some departments were expending a portion or all of their receipts instead of depositing them in the Town treasury as provided by Section 53, Chapter 44, General Laws, which reads as follows:

> All moneys received by any town officer or department, except as otherwise provided by special acts and except fees provided for by statute, shall be paid by such officer or department upon their receipt into the town treasury. Any sums so paid into the town treasury shall not later be used by such officer or department without a specific appppropriation thereof, except that sums allotted to towns for highway purposes by the commonwealth or a county, which shall be used only for the purposes specified by the officials making the allotment or to meet temporary loans issued in anticipation of such allotment as provided in Sections 6 or 6A, shall be available therefor without any appropriation.

The surety bonds of the Treasurer, Tax Collector, and Town Clerk, for the faithful performance of their duties, were examined and found to be in proper form.

Appended to this report are tables showing reconciliations of the Treasurer's and Collector's cash, summaries of the Tax, Assessment, Trust and Investment Fund Accounts, together with a balance sheet showing the financial condition of the Town as of September 9, 1931.

For the courtesies extended by the various officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDW. H. FENTON,
Chief Accountant.

REPORT OF THE TRUSTEES TEWKSBURY PUBLIC LIBRARY

The Trustees of the Public Library submit the following report.

The report of the Auditor will give in detail the expenditures of the Public Library.

Regular meetings have been held the first Saturday in each month with the exception of September, when they are held the second Saturday, and during July and August.

Early in the year an effort was made to locate all the records of the Public Library, so that they might be kept together in the fireproof vault.

Records from 1877 to 1890 are still among the missing and the trustees would be grateful for any information regarding them.

During August the Librarian and Assistant put in considerable time eliminating books which were no longer in demand in order to make room for the new books coming in, and yet with the large number so disposed of our shelves are still crowded, which condition does not add to the appearance of the Library and does a great deal of harm to the books. We hope "a word to the wise is sufficient."

Early in September the floors of the library were resurfaced and new rubber runners put down. thus "brightening the corner", and creating much favorable comment from the patrons. The Trustees are grateful to the Selectmen for their cooperation in this.

The resignation of Miss Ruth Tingley was accepted with deep regret.

The report of the Librarian shows that 465 books have been added the past year also that the circulation has increased in the two districts supplied this year, i,e, Wamesit and South Tewksbury.

It would be a great benefit to all concerned if books could be returned promptly.

We wish to thank the Librarian and Assistants for their faithful and courteous services, the donors of books and the patrons of the library for their cooperation.

The Trustees respectfully request that the article in the Warrant asking for an appropriation of $750 and the money received from the dog licenses be granted.

Respectfully submitted.

KATE FOLSOM
RUTH W. SMITH
EDGAR SMITH
GEORGE A. MARSHALL
GRACE W. DAWSON
Trustees.

LIBRARIAN'S REPORT

To the Board of Trustees of the Tewksbury Public Library:

The following report is respectfully submitted:

The circulation of books in the districts has increased—at the library it remains about the same.

The magazines are well circulated also. The last issue of each magazine remains on the reading table while other copies of the magazines may be taken out—one magazine being allowed to a family.

The Trustees will purchase books on request if names and authors of books are left with the Librarian. Several patrons have availed themselves of this privilege during the past year.

The library is open to the public on Wednesday evenings from 7 to 8:30 and on Saturday afternoons and evenings from 2 to 9. Legal holidays and the last two weeks in August excepted.

The Librarian and Assistants would appreciate the prompt returning of all books when due.

I hereby certify that I have examined the accounts of town officers who are authorized to receive and expend money, for the year ending Dec. 31, 1931, and to the best of my knowledge they are correct, with proper vouchers on file, and $10,191.95 in the treasury.

ROBERT E. GAY,
Town Auditor.

Personally appeared before me on this twenty-second day of January. 1932, Robert E. Gay, and made oath that the foregoing statements were correct.

HARRY C. DAWSON,
Justice of the Peace.

My Commission expires December 2, 1938.

WARRANT FOR ANNUAL TOWN MEETING

Middlesex ss.

To either of the Constables of the Town of Tewksbury in said County:

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Tewksbury, qualified to vote in Town affairs, to meet and assemble at Town Hall in said Tewksbury, on Saturday, the 6th day of February, 1932, at nine o'clock A. M., to act on the following articles:

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all necessary Town Officers, to choose by ballot a Town Clerk, three Selectmen, three members of the Board of Public Welfare, three members of the Board of Health, a Town Treasurer, an Auditor, a Collector of Taxes, a Tree Warden and Constables, (Three) all to serve one year; one Highway Commissioner to serve three years, one School Committee to serve three years; two Trustees of the Public Library to serve three years; one Trustee of the Public Library to serve one year; one Park Commissioner to serve three years; one Assessor to serve three years; one Commissioner of Trust Funds to serve three years. The polls for the election of Town Officers to be opened at nine o'clock A. M., and close at four o'clock P. M.

ART.3. To hear reports of Town Officers and Committees and act thereon.

ART. 4. To see what sums of money the Town will vote to raise by taxation to defray necessary expenses for the current year, and make appropriations for the same.

ART. 5. To see if the Town will vote the money arising from licensing dogs, for th ensuing year, to aid in support of the Public Library.

ART. 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

The vote to be as follows:

Voted:—That the Town Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1932, and to issue a note or notes therefor, payable within one year, and debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 7. To see what compensation the Town will vote for the collection of taxes, and what rate and from what date interest shall be charged on taxes of 1932 unpaid after November 1, 1932, or take any other action relative thereto.

ART. 8. To see if the Town will vote to raise and appropriate the sum of $350.00 for the proper observance of Memorial Day, and appoint a committee to expend the money. Said committee to be taken from members of the G. A. R., Spanish War Veterans, American Legion, and Sons of Veterans.

ART. 9. To see if the Town will authorize the Selectmen to institute suits on behalf of the Town or defend any suits that are, or may be brought against the Town, and to sign any contracts or agreements in behalf of the Town.

ART.10. To see if the Town will vote to rescind the vote whereby it voted to elect three road commissioners, Chap. 41, Sections 1 and 63, Gen. Laws, or take any action relative thereto.

ART. 11. To see if the Town will vote to elect a Highway Surveyor to serve for one year as provided by Chap. 41, Sect. 11, Gen. Laws.

ART.12. To see if the Town will vote to instruct the Highway Commissioners to keep all highway property in the Town Barn, or take any action relative thereto.

ART. 13. To see if the Town will vote to raise and appropriate the sum of $150 for the purpose of putting doors on the Town sheds, or take any action relative thereto.

ART. 14. To see what regulations the Town will make for the possession, management and sale of land sold for unpaid taxes and for the assignment of tax titles not inconsistent with law or with the right of redemption as provided in Section 52 of Chapter 60 of the General Laws as amended by Section 3 of Chapter 126 of the Acts of 1927.

ART. 15. To see if the Town will vote to raise and appropriate the sum of $1,000 for repairing the fire station at the Centre, or take any action relative thereto.

ART. 16. To see if the Town will vote to raise and appropriate the sum of $2,000 to purchase one and one half inch, and two and one half inch hose, and fittings, for the use of the Fire Department; or take any other action relative thereto.

ART. 17. To see if the Town will vote to raise and appropriate the sum of $750 to purchase a portable forest fire pump, of 100 gallons per minute capacity; or take any other action relative thereto.

ART. 18. To see if the Town will vote to allow the Boy Scouts the use of the lower Legion Hall or take any other action relative thereto.

ART. 19. To see if the Town will vote to raise and appropriate money to pay the following unpaid bills for 1931: Fire Department $535.89, Inspection of Meats $41.00, Vocational School $674.72, Parks and Commons $5.13, or take any action relative thereto.

ART. 20. To see if the Town will vote to raise by loan or otherwise and appropriate the sum of $7,825.54 to pay part costs of erection of the Middlesex County Sanatorium, as provided by Section 83, Chapter 111, General Laws, or take any other action relative thereto.

ART. 21. To see if the Town will vote to raise and appropriate the sum of $5,000.00 for oil or other binder for the highways; or take any other action relative thereto.

ART. 22. To see if the Town will vote to raise and appropriate the sum of $1,000.00 for the maintenance of Chapter 90, Highways, providing the State and County each appropriate similar amounts, as provided for in Chapter 90 of the General Laws; or take any other action relative thereto.

ART. 23. To see if the Town will vote to raise and appropriate the sum of $4,500.00 to rebuild Andover street, with bituminous macadam, from the present terminal of new construction, at station 20, westerly, providing the State and County appropriate similar

or greater amounts, as provided for in Chapter 90 of the General Laws; or appropriate any other sum, or take any other action relative thereto.

ART. 24. To see if the Town will vote to raise and appropriate the sum of $1,500.00 for specific repairs on Shawsheen street, from the present terminal of new construction, at station 45, northeasterly, to the State Highway, providing the State and County each appropriate similar or greater amounts, as provided for in Chapter 90 of the General Laws, or appropriate any other sum, or take any other action relative thereto.

ART. 25. To see if the Town will vote to accept Walnut street, Shawsheen River Park, as drawn by J. W. Grey, surveyor, or take any action relative thereto.

ART. 26. To see if the Town will vote to elect a Moderator for a term of one year.

And you are directed to serve this warrant by posting up attested copies thereof, one at each of the Public Meeting Houses, one at the Town Hall, one at each of the Post Offices, and leave one hundred copies for the use of the citizens at the Post Office in said Town, 8 days at least, and over two Sundays, before the time of holding said meeting.

Hereof fail not and make due returns of this Warrant, with your doings thereon, to the Town Clerk at the time and place of Meeting as aforesaid:—

Given under our hands, this 13th day of January, in the year of our Lord, one thousand nine hundred and thirty-two.

IRVING F. FRENCH,
WILLIAM H. KELLEY,
JOSEPH W. JORDAN,
} Selectmen of Tewksbury.

Annual Report

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF TEWKSBURY

Also Report of
The Superintendent of Schools

For the School Year Ending December 31,

1931

REPORT OF THE SCHOOL COMMITTEE

The work and supervision of the schools have been carried on as customary again this year.

The window and door strips which were much needed have been put on the old sections of the Foster School, and the black boards have been resurfaced and repaired. The rooms at the Shawsheen School have been painted, the ceilings whitened, the desks refinished and minor repairs have been made at all the School houses.

A driven well is badly needed at the Foster School as the water there has been condemned for drinking purposes, making it necessary to purchase spring water which is most inconvenient and expensive We feel that this is not the time to ask for more money than is absolutely necessary, but hope a suitable water supply can be put in the school in the near future.

Respectfully submitted,

MAY L. LARRABEE, Chairman
PHILLIP M. BATTLES
AUSTIN F. FRENCH, Secretary

The School Committee recommends the sum of $51,000.00 be appropriated for the schools for 1932 based upon the following proposed budget and also show the budget of 1931 for comparison:

	1931	1932
Superintendent	$ 975.00	$ 975.00
Supervisors	1,500.00	1,465.00
Teachers	19,450.00	18,000.00
Janitors	3,814.00	3,760.00
Transportation	10,000.00	10,000.00
Fuel	1,500.00	1,500.00
Tuition, High School	11,300.00	11,150.00
Books and Supplies	1,000.00	500.00
Health	1,275.00	1,275.00
Insurance	1,000.00	900.00
District	120.00	175.00
Miscellaneous	500.00	800.00
Repairs	1,000.00	500.00
Total	$ 53,434.00	$ 51,000.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Tewksbury:
Madam and Gentlemen:

I herewith submit my second annual report as Superintendent of Schools for Tewksbury.

Since this report is primarily for the information of the taxpayers, I am writing it in the form of a Catechism or questionnaire, such as any citizen might put to those in charge of the administration of the schools.

As to Numbers

What is the population of Tewksbury?

5,585—according to the census of 1930.

How many children enrolled in the elementary schools October 1, 1931?

There were 514. This is an increase of 29 over the preceding year.

How many children in attendance at High and Vocational schools?

About 120 in High school.

About 18 in Vocational school.

How many children between 5 and 16 years are shown by the school census?

608, nearly all of which number are in school.

What children are compelled, by law, to attend school?

All children between the ages of 7 and 16, but a child of 14 may leave under certain conditions, to go to work, provided he has completed the sixth grade, or its equivalent.

Organization

What is the plan of organization of the school system?

By the cooperation of neighboring communities we maintain what is known as the 8-4 plan. This means 8 years in the elementary grades and 4 years in the High school or Vocational school.

Is this a modern type organization?

No, it is what is known by its opponents, as the traditional-meaning old-fashioned-type of organization. This distinguishes it from the 6-3-3 plan in vogue where they have junior high schools, and divide the grades into six elementary, three junior high, and three senior high. There is also the 6-6 plan, wherein the division is into six elementary and six high school grades.

Would one of the more modern plans be desirable for Tewksbury?

It is probable that the 6-3-3 plan could not be worked successfully in a system of this size. It is certain that it would be very much more expensive than the present form of organization. As for the 6-6 plan, it would be wholly out of the question as long as high school pupils must be sent out of town.

What is our method of promotion?

Promotions are made annually for those pupils who show the ability to carry on successfully the work of the next grade higher. In very rare cases double promotion is granted. This is the most common plan of promotion followed in this state.

What subjects are required to be taught in the elementary grades by the laws of the state?

Reading, writing, spelling, English language and grammar, geography, arithmetic, history and constitution of the United States, civics, physiology and hygiene, physicial education, drawing, and good behavior.

What additional subjects do we teach?

Music, manual training, sewing, and thrift.

What opportunity for education beyond the elementary grades is offered to the Tewksbury children?

They may have the full benefits of the course at Lowell High School, or the High Schools in Wilmington and Billerica, as they may choose. There is but one condition, and that is that they attain a scholastic average of B or better during their attendance in the eighth grade. Those who fail of this average, but who are, in the judgment of the Superintendent of Schools, capable of profiting by attendance at Vocational school, may attend the Lowell Vocational Schools.

Is the town obliged to provide this vocational education?

Yes, according to the statutes of the Commonwealth. One-half of the cost of such tuition and transportation is borne by the state.

What provision is made for the special instruction of retarded children?

None, as yet, there being too small a number to make such a class an economical proposition.

Administration

How many members has the School Committee?

Three, one being elected each year.

What are their powers?

Individually, none; collectively, or by majority vote, they have absolute control, as representatives of the voters, over all questions relating to the conduct of the schools, not already covered by state law.

What are the duties of the School Committee?

It has entire control of the schools. It adopts the budget and determines how it shall be expended, elects all school employees, examines and approves all changes in school organization, courses of study, and changes in text-books. It authorizes all repairs and changes in the physical equipment of school buildings.

What are the duties of the Superintendent of Schools?

He is the advisory and executive officer employed by the Committee, as an expert, to carry out all plans and policies of the Committee. He acts for the Committee to make sure that the work of all its employees is carried on with promptness, efficiency, and economy. His duties are many more than these, but his general function is as stated. He is the first person who should be consulted on any question concerning any school activity. The Committee should only be asked to act as a final court of appeal from his decisions, thus conserving the time and energy of this unpaid body.

How many persons are regularly employed by the School Committee?

1 Superintendent of Schools.
15 Teachers.
4 Supervisors—Drawing, Music, Sewing and Manual Training.
1 Nurse.
4 Janitors.
3 Bus Drivers.
1 School Physician.
1 Attendance Officer.

Buildings and Equipment

How many school buildings are in use?

1 of 8 rooms.
3 of 2 rooms.
1 of 1 room.

What is their general condition?

They are in a good state of repair, and are kept so. None of them is of modern construction or planning. None is of fireproof construction.

What is the nature of the seating equipment?

All schools are now supplied with adjustable furniture for the pupils. Some of it is of an ancient pattern and gradually wearing out. All replacements are of the newest type. A number of discarded desks found in the attic of the Foster School are being repaired in the manual training shop and will be fitted with modern adjustable irons so as to serve as replacements for any worn or broken desks.

Are the buildings properly heated and ventilated?

Yes, in all but the hallways of the Spaulding School. Here there seems to be some engineering difficulty. The heating equipment is adequate but it does not function properly. A serious endeavor was made during the Summer vacation towards remedying this defect, but as yet we have not been successful.

Financial Facts

How is the amount of money spent for education determined?

By vote of the citizens in Town Meeting.

How can they know how much money to appropriate?

The School Committee presents a carefully prepared budget which is to be found printed in this report of the School Committee. This budget is studied by the Finance Committee and their recommendations are put before the voters when the article is presented for vote. It is then squarely up before the voters to determine what amounts the Committee shall have to work with. If it is inadequate, schools may be kept in session as long as the appropriation lasts and then closed. Should there be insufficient money to carry on for at least 162 days of school in the year, there is the possibility of drastic action from the State.

Is it possible to reduce school expenses?

Not while the school population is increasing each year, especially in the grades attending high school. High school tuition is much greater than the cost for elementary pupils. It is not necessary in a town as well placed financially as Tewksbury.

What was the total cost of the schools in 1931?

$53,312.31 from an appropriation of $53,434.00.

What are the largest items in this expenditure?

Transportation, $9,453.25.

Tuition, High School, $10 838.76.

Instruction, $20,040.30. (Elementary teaching and supervision.)

Which of these must increase next year?

Transportation and high school tuition.

WHY?

Because of increase in number attending high school.

What is the total cost for high school education?

$15,400.74—For tuition and transportation during 1931.

This gives a per pupil cost of $136.28. The state average is $139.70.

What is the cost of elementary education?

$37,911.57 for total cost for 1931.

This is a per pupil cost of $76.28.

How does this compare with the state-wide average?

It is low for this particular item.

What is the average per pupil for both elementary and high schools?

$87.56 as compared to $92 for the state average.

What is the cost per day to educate a child in the elementary grades?

It cost in 1931 just 42 cents and a third per pupil per day. This includes everything, even transportation.

What is the cost per pupil-hour for teaching only?

For the current school year almost exactly 4 cents.

What is the annual cost per pupil for text-books and supplies?

The cost for this fiscal year was $3.50.

State Reimbursements

Is any part of the school expense paid by the State?

Yes, a very material part on account of teachers, high school tuition and transportation, and from the Massachusetts School fund.

Due in 1931 for:

High School Tuition	$5,445.98
High School Transportation	$4,116.70
General School Fund Pt. I	$3,700.00
General School Fund Pt. II	$1,210.69
Superintendent of Schools	$ 630.00
	$ 15,103.37

What was the net cost from local taxation?

The net cost was $38 208.94.

This gives a per pupil cost of almost exactly $60.00, for both high and elementary pupils.

Will an equal amount be available in 1932?

No, because the 1930 census shows more than 500 families in residence in the town, therefore we lose the refund on high school tuition and transportation, amounting to $9,562.68. Since, however, the reimbursement for 1931 has not yet been paid, this amount will be collectable in 1932.

General Observations

There are probably many other pertinent questions which an interested citizen might ask. I have tried to present and answer those which are most commonly propounded to school officials.

It is to be hoped that a greater number than usual of the voters will read this report. It contains information which should be of special interest and importance in these times when expenditures are so carefully scrutinized. It is the writer's opinion that the ex-

penditures of the school department will bear any examination with credit to the School Committee. They are ever watchful of payments and balances, and they know at each monthly meeting just what the financial condition of the department is.

Below and on following page will be found tables showing the number and distribution in the grades of the elementary school children of the town.

Age-Grade Distribution

	5	6	7	8	9	10	11	12	13	14	15	16	17		T	UA	OA
I	17	49	7	1											74	17	1
II		11	35	11	5	4									66	11	9
III			17	28	12	4	1	1							63	17	6
IV				26	30	9	3	1							69	26	4
V					8	40	12	3	1		1				65	8	5
VI						13	33	10	2	1					59	13	3
VII							15	27	8	1	1				52	15	2
VIII								13	28	13	12	1	1		68	13	14
T	17	60	59	66	55	70	64	55	39	15	14	1	1		516	120	44

Heavy diagonal "step" outlines show age limits for the different grades under normal condition of entrance according to age. As an example, the age limits for grade one would be from five years and six months to seven years and six months.

UA and OA at the heads of the last two columns indicate respectively, the number of children younger than the norm for that grade and the number older than the norm. In this connection please note that there is a difference of too large proportions in favor of the under age pupils.

Attention is called to the very large eighth grade. This is worthy of special consideration because of its bearing on next year's budget. It means a much larger enrollment in high school and therefore greatly increased costs of tuition and transportation.

The total enrollment in the elementary grades shows an increase of approximately 6 per cent since the last report. Of course this means increased expenses.

School-Teacher-Grade Distribution

Conclusion

Another year has passed marked by most felicitious relation between the various departments of the school system. The School Committee has been most helpful to its executive, and all of the employes have shown a fine spirit of cooperation.

Respectfully submitted,

STEPHEN G. BEAN,
Superintendent of Schools.

Wilmington, Mass.
January 14, 1932.

REPORT OF SCHOOL PHYSICIAN

To the School Committee of the Town of Tewksbury:

The health of the school children under my care has been generally satisfactory.

Complete examination and record has been made of each child. We have had an epidemic of measles, and threatened scarlet fever situation to deal with. One situation which confronts the school physician and nurse, is the attendance at school of children known to be slightly ill, before starting for school in the morning. This situation is many times brought about by the child's denying illness, in order to keep up attendance and cannot be blamed to the parents. As school physician I want to ask first, that parents keep children at home who show signs of illness until they are normal again, or until the illness has been diagnosed and if contagious the school teacher notified. Secondly, so that the above recommendation can be more thoroughly carried out, I would ask that no prizes be offered or contests be entered into wherein attendance is at stake. If we may have the above recommendations closely adhered to, epidemics of communicable diseases will be easily controlled.

Respectfully submitted,

HERBERT M. LARRABEE, M. D.,
School Physician.

*Miss Small has taken over the position in the Shawsheen School which was vacated at Christmas Vacation by Miss Miriam Wiggin.

It is wholly fitting to express here the deep appreciation felt by those associated with her in school work, for her many excellent qualities of leadership, scholarship, friendliness, and high professional ethics. We are indeed unfortunate to lose a teacher of the type of that one known to us as Miss Wiggin. We are glad that it required as good a cause as matrimony to steal her from us.

Miss Thelma Gale and Miss Katherine Sullivan are also teachers new to the staff this current year.

Ill health forced Mr. Garland, janitor of Foster School, to give up the work during the past year. Mr. Walter Lavell has been made his successor. He has taken on the work in a very earnest and competent manner. He shows pride in the appearance of both buildings and grounds.

I hereby certify that I have examined the accounts of town officers who were authorized to receive and expend money, for the year ending December 31, 1932, and to the best of my knowledge they are correct, with proper vouchers on file, and $12,437.39 in the treasury.

ROBERT E. GAY,

Town Auditor.

Personally appeared before me on this twentieth day of January, 1933, Robert E. Gay, and made oath that the foregoing statements were correct.

THOMAS F. FLYNN,

Justice of the Peace.

...In Memory...

EUGENE N. PATTERSON

Died May 1, 1932

Age, 76 years, 7 months, 1 day

Served as Town Treasurer
from 1913 to 1932

REPORT OF THE BOARD OF HEALTH

The following is my report for the year ending December 31, 1932:

Diseases	No. of Cases	No. of Deaths
Scarlet Fever	6	0
Diphtheria	2	0
Measles	5	0
Mumps	2	0
Chicken Pox	1	0
Whooping Cough	5	0
Tuberculosis	3	2
Pneumonia	10	4
Dog Bites	6	0
Total	40	6

The activities of the Health Department increase each year. The regulation of the State department in reference to milk licenses for pasteurization and selling, the following up of dog bite cases, and the investigation of Tuberculosis patients in reference to settlement and contacts, increase our expenses. Each case of Tuberculosis that comes to our attention seeking care, means $900 a year from our appropriation. The law requires a local Board of Health to pay for the care of any contagious case sent to an Isolation Hospital if said patient is a resident of our Town and a dependant. Upon two occasions during the past year complaints have come to this department that dead animals were becoming a menace to health. In both instances the animals were on private property owned by the complainants but not their animals. The health regulations require the owner of said property to remove such a menace at their own expense. The department is responsible only when such a carcass is on a public highway. We have not asked for an appropriation to cover these possible necessities, but are hoping that the amount asked will cover our actual needs.

Respectfully submitted,

HERBERT M. LARRABEE, M. D.

In Memory

WILLIAM H. KELLEY

Died April 26, 1932

Age, 47 years

Served as Selectman, member of Board of Health, and Chairman of Board of Public Welfare from 1920 to 1932

REPORT OF BOARD OF PUBLIC WELFARE

In submitting this, our annual report, we wish to express our regret for the loss of our fellow member, the late William H. Kelley, who served so long and faithfully as chairman of the Board of Public Welfare.

Owing to the continued business depression the demands on the Board have been much heavier than usual.

Number of cases on register	178
Mother Aid cases	5

One mother and five children, reimbursed by State.

One mother and four children, one-third by State, two-thirds by Town.

One mother and three children, two-thirds by Somerville, one-third by Town.

One mother and four children, reimbursed by State.

One mother and two children, settlement at present in doubt.

Town Settlement cases in own homes	19
Town Settlement in other cities or towns	3
Town Settlement Cases aided in State Hospitals	5
Other city and town cases aided in Tewksbury	13
Temporary Aid, State cases	8

Appropriation	$ 6,000.00
Transfer from Surplus Overlaying	4,000.00
Amount paid for Aid	9,706.02
Balance	293.98
Reimbursements by Commonwealth	1,855.96
Reimbursements by cities and towns	1,478.84
Reimbursements due	2,443.73

Bureau of Old Age Assistance

Appropriation	$ 2,000.00
Expenditures	1,289.75

At present seven cases on register.

Town cases, six, one-third reimbursed.

State cases, one, totally reimbursed.

In closing we wish to thank Mr. P. W. Rounsvell who generously gave the Board wood, and Mr. Harris M. Briggs who has seen to the cutting and distribution of the fuel thus given.

Respectfully submitted,

EVERETT H. KING,

IRVING F. FRENCH,

Board of Public Welfare.

REPORT OF COMMITTEE ON STATE MILITARY AID

Number of cases on register		4
Civil War widows		2
World War cases		2
Appropriation	$ 800.00

January 1, 1932	$ 1,321.00
January 1, 1933	1,249.00
Net Loss	$ 72.00

IRVING F. FRENCH,
EVERETT H. KING.

REPORT OF INSPECTOR OF MEATS AND PROVISIONS

To the Board of Selectmen, Town of Tewksbury:

Gentlemen: Following is my report for inspection of meats and provisions for the year of 1932 from January 1 to December 31, 1932:

Number of sides of beef inspected	836
Number of calves inspected	591
Number of hogs inspected	525
Number of sheep inspected	0

Cattle Condemned

Number of sides of beef condemned	12
Number of heads condemned	6
Number of sets of lungs condemned	7
Number of livers condemned	7

Swine condemned

Number of swine condemned	3
Number of heads condemned	5
Number of livers condemned	4
Number of sets of lungs	4

Calves Condemned

Number of veals condemned	17
Number of sheep condemned	0

Respectfully submitted,

ASAHEL H. JEWEL.

REPORT OF INSPECTOR OF ANIMALS

To the Selectmen of the Town of Tewksbury:

Gentlemen: Following is the report of the Inspector of Animals from January 1, 1932, to November 30, 1932:

Cows inspected	826
Young cattle inspected	154
Bulls inspected	34
Sheep inspected	14
Hogs inspected	539
Stables inspected	94
Goats inspected	0

I have released for immediate slaughter 18 head of cattle, 4 calves.

For dairy purposes 56 head of cattle.

Eleven dogs were quarantined for rabies, and released at the end of 14 days.

One cow was quarantined.

I have inspected 9 barns where cattle are under State and Federal supervision.

Special Inspection for December, 1932, Only

Cows inspected	750
Young cattle inspected	160
Bulls inspected	25
Sheep inspected	18
Hogs inspected	796
Stables inspected	88
Goats inspected	2

There are 616 cattle under State and Federal supervision.

Respectfully submitted,

ASAHEL H. JEWEL.

REPORT OF AGENT FOR SUPPRESSION OF GYPSY AND BROWN TAIL MOTHS

To the Honorable Board of Selectmen:

Gentlemen:

As Agent for the suppression of the Gypsy and Brown Tail Moths I submit the following:

Up to this time no increase has been noted in Gypsy and Brown Tail Moths. About one-third of the town has been scouted at this time and so far no bad infestations have been found. The whole town will be gone over before the hatching season and bad spots will be sprayed or parasited.

The Satin Moth which feed only on Poplar and Willow, and Tent Caterpillar were held in check by spraying. Although neighboring towns have reported many Elms stripped by the Elm Leaf Beetle none was noticed here. If they should attack our Elms next summer they can be handled quite easily by spraying.

Yours respectfully,

HARRIS M. BRIGGS.

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen:
Gentlemen:

As Park Commissioners we wish to submit the following:

Fertilizer has been applied to the commons, and granite dust to the walks. Edges have been cut and grass mowed as usual. The flagpole has been painted two coats of white lead and oil. We are sorry to report the community tree, so-called, has died owing to the severe drought of last summer. We do not recommend the planting of another. We think it much cheaper to cut one in the woods and set it at Christmas and remove it after New Years. We recommend an appropriation of $200.

We have had numerous requests to care for a lot of land known as Fulton Square but we feel we have no right to expend money until it is legally accepted by the Town.

THOMAS C. McCAUSLAND,
HARRIS M. BRIGGS.

REPORT OF HIGHWAY COMMISSIONERS AND SUPERINTENDENT OF STREETS

Board of Selectmen,
Tewksbury, Mass.
Gentlemen:

The following is the annual report of the Highway Department for the year ending December 31, 1932:

Realizing the importance of having good roads leading from one town to another, we decided that the construction of Chandler Street, between this town and Billerica, was a pressing necessity. Consequently, early in February we began gravelling the stretch extending from Pine Street to the Billerica line, a distance of one mile. The entire length was resurfaced with gravel, graded, rolled and oiled. Through the co-operation of the Tree Warden, dangerous trees were removed, and limbs which might obstruct traffic were cut off. The results obtained on this street were excellent.

Similar work was done in South Tewksbury on State Street, South Street, Shawsheen Street, Whipple Road and Patten Street. In West Tewksbury, on French Street; in North Tewksbury, on Fiske Street, Bailey Road, River Road, and Kendall Street; in East Tewksbury, on East Street, now under construction; and in Tewksbury Center on Summer Street. Whipple Road, Patten Street, and River Road were gravelled too late in the season to be oiled.

On the Highway Department barn and shed, the clapboards were renailed, and all broken ones replaced with new ones. All broken glass was replaced, and the windows puttied. Both the barn and shed were then given two coats of paint, thereby putting the outside surface in good condition. The color scheme is maroon and cream trimmings, and presents a striking appearance. The work was done by our local employees.

Through the courtesy of the Trimount Oil Company, we were loaned a 1,000-gallon Kinney oil heater, which has been erected in our yard. This will tend to eliminate the unsightly oil barrels which of necessity have cluttered up our yard in the past.

At Tewksbury Center, the drainage system was cleaned and flushed through the co-operation of the Fire Department. Four new catch basins were built to conform to standard state specifications. Two of them were built in the same location as the small old basins, a third acts as a junction and cleanout, while the fourth, although located on North Street, replaces an old one, in front of the Manley residence, on East Street. A new line of ten-inch pipe was laid under

North Street to connect up the new basin. The pipe line on East Street, from the Post Office to North Street is out of line, and inadequate to carry off any great volume of water quickly. We will endeavor to take care of this during 1933.

A new corrugated metal culvert thirty feet long, and ten inches in diameter was installed on French Street, near the West School. Another culvert near the old powder house was extended with six feet of corrugated culvert, to increase safety at a curve there. On Marshall Street, a culvert near the Marshall estate, was extended by using a six-foot length of twelve-inch culvert on each side of the street, thereby making the road much safer, and eliminating guard rail.

On Pleasant Street, ledge and rocks were blasted and removed, where they were too close to the traveled way.

MAINTENANCE, CHAPTER 81

The usual maintenance was carried on under the provisions of the Chapter 81 contract.

A dust layer of oil was applied on all streets where it was found necessary, during the early summer months. All oiled roads were patched with bituminous material at various intervals throughout the year, and the usual scraping done on earth and cinder roads.

Gravel, oil, and sand were distributed on the various streets, as shown in the tables covering these items.

MAINTENANCE, CHAPTER 90

This appropriation provides for the maintenance of roads constructed under the provisions of Chapter 90 of the General Laws, or in other words, roads which were built jointly by the State, County, and Town. In Tewksbury, we have Andover Street, Salem Road, East Street, Woburn Street, Billerica Road, and Shawsheen Street.

On Andover Street, grass and weed growths were cut back under guard fences, and at catch basins. Ditches, culverts, and catch basins were cleaned and properly maintained. During the heavy travel of the summer months, the shoulders were oiled, and considerable patching done. At the end of the new construction, a ditch was dug, three hundred feet long, through ledge and clay, to relieve a water condition there.

On Billerica Road, considerable patching was done. The entire surface was then treated with retread tar, covered with sand and pea gravel, and honed.

The shoulders were also oiled on Woburn Street, Salem Road, and East Street, and were dragged at various intervals.

We hope to obtain a similar allotment for 1933.

SHAWSHEEN STREET, CHAPTER 90

1931 Contract

This contract covered that portion of Shawsheen Street extending from the Billerica line (Pattenville), to the Marsh residence (station 45). Much of the graveling was done in December, 1931. Concrete headwalls were built on the culverts, and two large leaching basins constructed near the end of the job. The road was then graded, rolled and oiled. Two applications were given, the first was of 45 per cent asphaltic oil, while the second, applied a few weeks later, was 65 per cent. It was then covered with sand and pea gravel, and was constantly brushed to obtain a good surface. Work under this contract was completed in May.

SHAWSHEEN STREET, CHAPTER 90

1932 Contract

The principal item in the specifications for the improvement of this stretch of highway, was the construction of a culvert, and straightening and widening of a bad curve, at Heath Brook, near the State Highway. Three corrugated metal culverts, asphalt coated, each thirty inches in diameter, and forty feet long were laid in parallel under the roadway. Concrete headwalls were then constructed at each end, and concrete guard fence posts erected on each side of the street. From the culvert to the end of the 1931 job the street was more or less narrow, and the adjoining land higher than the roadway, thereby involving considerable excavation. Many of the low places along the sides of the road were filled with the material thus obtained. The sides of the old road, outside the gravel and oil portion, were excavated and graveled. Practically all of the old road was reclaimed by this procedure. As the portion of the street covered by this contract had many curves, and a dangerous hill, a skidproof surface was sought. The new gravel was given an application of 45 per cent asphaltic oil, then it was graded and rolled. The final treatment was tar, covered with pea gravel, very little sand being used. It was brushed daily, until a hard surface resulted. Two stone walls were relocated, dangerous trees and brush removed, thereby giving to the town a good stretch of new highway. Stone bounds were then put in place under the direction of the County Engineers, from the State Highway to the Billerica line. It was completed October 1st.

EAST STREET, CHAPTER 90

The State and County each allotted the sum of $1,500.00 to be used for the resurfacing with gravel and oil, of that portion of East Street, extending from Maple Street to Kelley's Crossing. The total cost will be $4,500.00, the Town providing the remaining third of this amount.

Work on this project was started early in December. Considerable excavating was done, and a large amount of filling used on the sides of the present road for widening purposes. Graveling has been started, and at present, is well under way. Two new culverts were installed, one near the corner of Cross Street, and the other about half way between Maple and Cross Streets. Each culvert is of corrugated metal, thirty-six feet long, and twelve inches in diameter. Standard concrete headwalls will be constructed on both ends of each culvert, as soon as conditions permit. When the work on this street is completed, it will provide an excellent route from the central part of the town to Andover, Lawrence, and Haverhill. The section under construction is eight-tenths of a mile long, and will be built and oiled twenty-four feet wide.

The process of grading, rolling and oiling will be carried out early in the spring of 1933.

The following table shows the number of gallons of oil or tar, asphaltic percentage, and number of cubic yards of sand, or pea gravel used on each street.

STREET	GALLONS			SAND	PEA GRAVEL
	Tar	45%	65%	Amount	Amount

Gravel pit Road		431	.....	....	"	"	....	" "
Robinson Avenue		250	.....	....	"	"	....	" "

Two thousand four hundred and seventy gallons of 65 per cent Oil was received at the Town yard for mixing patch, and 1,375 gallons of tar were received for the same purpose. We have 300 gallons of Colas on hand.

Thirty and one-half tons of Tricomix were used in patching Andover Street. Sand used for covering ice on streets and walks during the year totalled 174 cubic yards. This includes the sand distributed to schools, and now in stock piles in various sections, throughout the town.

The following table shows the amount of gravel, in cubic yards hauled and spread on the various streets during the year.

Street	Amount	Street	Amount
Chandler	3,744 cu. yds.	Whipple Road	145 cu. yds.
South	871 " "	Marston	51 " "
River Road	647 " "	Pine	23 " "

Patten	156 " "	Cross	2 " "

Stones removed from the gravel pit. and placed on roads as a base, or on the sides as filling, are classed as gravel. No record is kept of the number of cubic yards of material obtained from excavation projects, as it is usually dumped on the same street to fill up low places, etc.

Considerable work was accomplished during the latter part of the year, such as cutting off embankments to eliminate blind corners, widening streets. cutting ditches and waterways, and relocating stone walls, etc. It would have been next to impossible for us to have done so much of the work, had it not been for the large force of men furnished to our department by the Selectmen.

On South Street the roadway was widened considerably from Bridge Street to the Wilmington line; on Shawsheen Street a dangerous embankment was cut off near the Barron residence. On River Road a ditch was dug, four hundred feet long, to relieve a bad water condition. On Astle Street, embankments were cut off, a stone wall relocated, and considerable ledge removed. Chapman Street, one

of the narrowest streets in the town, considering the amount of travel, has been widened, and made much safer. Some of the work on these streets is still unfinished, but will be taken care of in the near future.

For a financial report, we refer you to the Auditor's report of Highway expenditures.

In general, despite the fact that our appropriations, in keeping with the times, were considerably lower than those of the previous year, we believe that our record for the past twelve months has been a brilliant one.

In closing, we wish to thank all who have co-operated with us during the year, and must say once again, that we are deeply grateful to the various State and County officials, and Engineers for their splendid assistance and hope that 1933 will add considerably to our ever increasing mileage of good roads.

Respectfully yours,

JOHN T. GALE,
WILLIAM I. BAILEY,
ASAHEL H. JEWEL,
Highway Commissioners of Tewksbury.

EDWARD J. WALSH,
Superintendent of Streets.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen of the Town of Tewksbury.

Sirs:

I hereby submit the following report of the Sealer of Weights and Measures for the year ending Dec. 21, 1932, the duties of which I have taken care during the illness of your regular Sealer the late Mr. Hugh Cameron.

No. of Scales Sealed

Platform scales, over 5,000 lbs.	2
Platform scales, under 5,000 lbs.	4
Counter scales, over 100 lbs.	1
Counter scales, under 100 lbs.	4
Spring scales, over 100 lbs.	1
Spring scales, under 100 lbs.	24
Beam scales, under 100 lbs.	1
Computing scales, under 100 lbs.	8

No. of Capacity Measures Sealed

Liquid	25
Oil Jars	139

No. of Automatic Measuring Pumps

Gasoline Pumps	34
Kerosine Pumps	4
Molasses Pumps	1

No. of Linear Measures

Yard Stick	1

I have collected and turned over to the Town Treasurer the sum of $30.65 in fees.

Respectfully submitted.

D. J. CAMERON,
Dep. Sealer.

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectmen:
Gentlemen:

As Tree Warden I submit the following:

During the year brush has been cut on all the streets, and most of the curves have been cut further back. There are numerous trees too close to the traveled way, many of which have been cut. We did intend to remove them all but owing to the need of supplying fuel to welfare cases this work was dropped when cold weather started the cutting of wood. Through an agreement with Mr. Phillip W. Rounseville we are thinning his woodland near the East Billerica line. At this writing we have cut and delivered to 32 needy families approximately 100 cords of wood.

Most of the above work has been done by men furnished by the Welfare Department.

As Tree Warden I wish to thank Mr. Rounseville at this time for this fine gift.

Yours respectfully,

HARRIS M. BRIGGS.

REPORT OF CHIEF OF THE FIRE DEPARTMENT

Tewksbury, Mass.,
January 1, 1933.

To the Honorable Board of Selectmen:
Gentlemen:

As Chief of the Fire Department I herewith submit the following total number of fires attended:

Forest fires	69
Grass fires	30
Buildings	17
Chimney	8
Automobiles	2
False alarms	5
Out of town	6

Total value on buildings and contents: Thirty-three thousand, three hundred ten dollars ($33,310). Damage: Eleven thousand, six hundred forty-five dollars ($11,645.00). Insurance paid: Nine thousand dollars ($9,000.00). Personal property of Fire Department: Sixteen thousand, four hundred dolalrs ($16,400.00). Laid 62,800 feet of hose; used 256 extinguishers and 30 chemical tanks. Miles traveled to fires: 1,800 miles.

Yours respectfully,

A. S. HAINES,
Chief of the Fire Department.

REPORT OF THE TRUSTEES TEWKSBURY PUBLIC LIBRARY

The Trustees of the Public Library submit the following report.

The report of the Auditor will give in detail the expenditures of the Public Library.

Regular meetings have been held the first Saturday in each month with the exception of July and August and the second Saturday in September.

Early in the year all books in the Library pertaining to the life of George Washington were placed on the filing cabinet easy of access to all, also a large picture of George Washington sent us by Representative Edith Nourse Rogers, at the request of the secretary, was hung in a conspicious place in the Library.

In a search for early records, 1877 to 1890, a short history of the founding and early days of the Library was found in a 1906 Town Report and filed in the Secretary's book of records for 1932, the only records so far available, for those years.

The report of the Librarian shows that 423 books have been added the past year, also that the circulation is still increasing at the Library as well as the outlying districts, especially in the Wamesit district.

We wish to thank the Librarian and her Assistants for their faithful and courteous service, the donors of books and the patrons of the Library for their co-operation, also the Board of Selectmen for co-operation in repairing of several of the book shelves.

The Trustees respectfully request that the article in the Warrant asking for an appropriation of $750 and the money received from the dog licenses be granted.

Respectfully submitted,

(Signed)

EDGAR SMITH,
REV. E. E. LOUX.
KATE FOLSOM,
GRACE W. DAWSON,
RUTH W. SMITH,
MIRIAM SPAULDING,

Trustees.

LIBRARIAN'S REPORT

To the Board of Trustees of the Tewksbury Public Library:

The following report is respectfully submitted:

The circulation of books both in the districts and at the library has shown a marked increase.

Each month a list of the books recently added will be found in the Tewksbury news of the daily paper.

During the summer the books were put in order on the shelves and many were sent to be rebound.

The librarian and assistants would appreciate the prompt return of all books when due.

The library is open to the public on Wednesday evenings from 7 to 8:30 and on Saturday afternoons and evenings from 2 to 9. Legal holidays and the last two weeks in August excepted.

WARRANT FOR ANNUAL TOWN MEETING

Middlesex ss.

To either of the Constables of the Town of Tewksbury in said County:

Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Tewksbury, qualified to vote in Town affairs, to meet and assemble at Town Hall in said Tewksbury, on Wednesday, Feb. 8, 1933, at 12 noon to act on the following:

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all necessary Town Officers, to choose by ballot a Moderator, a Town Clerk, three Selectmen, three members of the Board of Public Welfare, three members of the Board of Health, a Town Treasurer, an Auditor, a Collector of Taxes, a Tree Warden and Constables, (Three) all to serve one year; one Highway Commissioner to serve three years, one School Committee to serve three years; two Trustees of the Public Library to serve three years; one Park Commissioner to serve one year; one Park Commissioner to serve three years; one Assessor to serve three years; one Commissioner of Trust Funds to serve three years. The polls for the election of Town Officers to be opened at 12 noon and close at 8 P. M. And to act on the following articles, commencing at 7 P. M.

ART. 3. To hear reports of Town Officers and Committees and act thereon.

ART. 4. To see what sums of money the Town will vote to raise by taxation to defray necessary expenses for the current year, and make appropriations for the same.

ART. 5. To see if the Town will vote the money arising from licensing dogs, for the ensuing year, to aid in support of the Public Library.

ART. 6. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

The vote to be as follows:

Voted:—That the Town Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1933, and to issue a note or notes therefor, payable within one year, and debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 7. To see what compensation the Town will vote for the collection of taxes, and what rate and from what date interest shall be charged on taxes of 1933 unpaid after November 1, 1933, or take any other action relative thereto.

ART. 8. To see if the Town will vote to raise and appropriate the sum of $350.00 for the proper observance of Memorial Day, and appoint a committee to expend the money. Said committee to be taken from members of the G. A. R., Spanish War Veterans, American Legion, and Sons of Veterans.

ART. 9. To see if the Town will authorize the Selectmen to institute suits on behalf of the Town or defend any suits that are, or may be brought against the Town, and to sign any contracts or agreements in behalf of the Town.

ART. 10. To see if the Town will vote to accept Sect. 120A of Chapter 94 of the General Acts, Tercentary Edition, relating to license fees for the slaughtering of animals.

ART. 11. To see if the Town will authorize the Selectmen and Collector of Taxes to petition the Land Court for a foreclosure of tax titles held by the Town for more than two years, as provided in Section 65 of Chapter 60 of the General Laws, and to see what sum of money the Town will appropriate therefor.

ART. 12. To see if the Town will vote to raise and appropriate the sum of $1500.00 to remodel the building now occupied jointly by the American Legion, Moth Department, and Sealer of Weights and Measures; so as to enable the Fire Department to use the first floor and basement for a fire station, or take any other action relative thereto.

ART. 13. To see if the Town will vote to raise and appropriate the sum of $800.00 to purchase 2 1-2 inch hose and accessories or take any other action relative thereto.

ART. 14. To see if the Town will vote to raise and appropriate the sum of $307.50 for rental of fire hydrants on Lake Street, and volunteer firemens insurance; or take any other action relative thereto.

ART. 15. To see what sum of money the Town will raise and appropriate as a reserve fund as provided in Section 6 of Chapter 40 of the General Laws.

ART. 16. To see if the Town will vote to establish a Road Machinery Account, to which shall be credited all receipts received for the use or rental of road machinery, the proceeds to be appropriated as voted by the Town for road machinery purposes, or take any action in relation thereto

ART. 17. To see if the Town will vote to appropriate the sum of $1500 to establish a Road Machinery Fund for the purpose of purchasing, repairing and operating road machinery.

ART. 18. To see if the Town will vote to raise and appropriate the sum of $1500.00 for specific repairs on East Street from Kelley's crossing to the Andover town line; providing the State and County appropriate similar amounts, as provided in Chapter 90 of the General Laws, or take any other action relative thereto.

ART. 19. To see if the Town will vote to raise and appropriate the sum of $5,000.00 for oil or other binder for the highways; or take any other action relative thereto.

ART. 20. To see if the Town will vote to raise and appropriate the sum of $1,000.00 for the maintenance of Chapter 90, Highways, providing the State and County each appropriate similar amounts, as provided for in Chapter 90 of the General Laws; or take any other action relative thereto.

ART. 21. To see if the Town will vote to raise and appropriate the sum of $4,500.00 to rebuild Andover street, with bituminous macadam, from the present terminal of new construction, at station 20, westerly, providing the State and County appropriate similar or greater amounts, as provided for in Chapter 90 of the General Laws; or appropriate any other sum, or take any other action relative thereto.

ART. 22. To see what sum the Town will raise and appropriate, by loan or otherwise, for an addition to the Shawsheen Schoolhouse increasing the floor space thereof, and original equipment and furnishings incidental to such addition, or take any action relative thereto.

ART. 23. To see if the Town will appoint a Committee to investigate the advisability of erecting a high school building and making any change in the method of providing high school education for pupils residing in the Town, such Committee to report to the Town at a future town meeting, or take any action relative thereto.

ART. 24. To see if the Town will vote to accept Franklin Street as laid out on plan Silver Lake Park Land Co., recorded Middlesex North District registry of deeds Book 25, Plan 40, as detailed on plan submitted to the Road Commissioners, or take any other action thereto.

ART. 25. To see if the Town will accept Durn Street as laid out on plan Lakeview Park Land Co., recorded Middlesex North District registry of deeds, Book 27, Plan 16, beginning at Bay State Road for a distance of approximately 400 feet to the boundary of the land of the Cottage Park Land Co., Book 29, Plan 12, and detailed on plan submitted to the Road Commissioners, or take any other action thereto.

ART. 26. To see if the Town will vote to take by right of eminent domain the land necessary to extend Durn Street to Vernon Street, and raise and appropriate $1000 to defray damages for such taking, as detailed on plan submitted to the Road Commissioners, or take any other action thereto.

ART. 27. To see if the Town will vote to raise and appropriate the sum of $500 to gravel and make necessary repairs to Heath Street, or take any other action thereto.

ART. 28. To see if the Town will vote to raise and appropriate the sum of $500 to gravel and make necessary repairs to Coolidge Street, or take any other action relative thereto.

ART. 29. To see if the Town will accept section seventy-three of chapter forty-one relative to creating a board of survey, and vote to raise and appropriate the sum of $500 to defray necessary expenses for the current year to enable board in carrying out Sections 73 to 81 inclusive, or take any other action relative thereto.

ART. 30. To see if the Town will vote to raise and appropriate the sum of $3000 if the State and County will give a like amount for specific repairs on South Street as provided in Chapter 90 of the General Laws, or take any other action relative thereto.

ART. 31. To see if the Town will vote to amend the present building laws so as to include that part of Tewksbury south of Shawsheen Street to the Wilmington line according to Section 3 of Chapter 143 of the General Laws, or take any other action relative thereto.

ART. 32. To see if the Town will vote to raise and appropriate the sum of $1000 for the celebration of the anniversary of it's incorporation, or take any other action relative thereto.

ART. 33. To see if the Town will by by-law as provided by section twenty-two chapter thirty-nine of the General Laws, designate the hour at which the annual town meeting shall be called, the hours during which the polls shall remain open for the election of officers, and the hour after which all business except the election of officers and such matters as are required by law to be determined by ballot shall be considered, or take any other action relative thereto.

ART. 34. To see if the Town will by by-law set forth the manner in which notice of the town meeting will be given, as set forth in Section 10, Chapter 39 of the General Laws, or take any other action relative thereto.

ART. 35. To see if the Town will by by-law designate the day of the annual town meeting, according to Section 10, Chapter 39 of the General Laws, or take any other action relative thereto.

ART. 36. To see if the Town will prescribe by by-law the number of voters necessary to constitute a quorum at town meetings, according to Section 13 of Chaper 39 of the General Laws, or take any other action relative thereto.

ART. 37. To see if the Town will by by-law determine the final day and hour for filing articles to be contained in the warrants of all town meetings, and prescribe the manner in which notice shall be given to the voters, as per Section 21 of Chapter 40 of the General Laws, or take any other action relative thereto.

ART. 38. To see if the Town will by by-law amend the law creating the finance committee to include the following:—(The section referred to as the South shall be that district south of the Shawsheen river), or take any other action relative thereto.

Given under our hands, this 14th day of January, in the year of our Lord, one thousand nine hundred and thirty-three.

And you are directed to serve this warrant by posting up attested copies thereof, one at each of the Public Meeting Houses, one at the Town Hall, one at each of the Post Offices, and leave one hundred copies for the use of the citizens at the Post Office in said Town, 8 days at least, and over two Sundays, before the time of holding said meeting.

Hereof fail not and make due returns of this Warrant, with your doings thereon, to the Town Clerk at the time and place of Meeting as aforesaid:—

IRVING F. FRENCH,
EVERETT H. KING,
} Selectmen of Tewksbury.

Annual Report

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF TEWKSBURY

Also Report of
The Superintendent of Schools

For the School Year Ending December 31,

1932

REPORT OF THE SCHOOL COMMITTEE

The work and supervision of the schools have been carried on as usual this year.

No expensive alterations have been made in any of the schools. Minor and necessary repairs have been taken care of. Some roofs will have to be shingled this coming summer.

The City of Lowell advanced the tuition fee for the pupils at the Lowell High School from $100 to $125 per pupil. There are now 150 pupils going to the Lowell High School from Tewksbury, five to Wilmington, three to Billerica, and one to Reading, making the total cost of tuition almost $20,000.

Owing to the overcrowded condition at the Shawsheen School, it has been necessary to move nearly two grades to the Center, this makes an overcrowded condition at the Foster School. To remedy this situation we recommend that a two-room addition be built on the Shawsheen School.

Respectfully submitted,

MAY L. LARRABEE, Chairman,
GUY B. GRAY,
AUSTIN F. FRENCH, Secretary.

The School Committee recommends the sum of $61,152.00 be appropriated for the schools for 1933 based upon the following proposed budget and also show what was spent on schools in 1932.

	Spent in 1932	1933
Superintendent	$ 975.00	$ 975.00
Supervisors	1,413.50	1,330.00
Teachers	16,421.52	16,350.00
Janitors	3,443.20	3,432.00
Transportation	10,490.67	13,000.00
Fuel	1,574.92	1,500.00
Tuition, High School	11,567.97	19,890.00
Books and Supplies	842.58	1,000.00
Health	1,215.82	1,200.00
Insurance	446.09	850.00
District	128.62	125.00
Miscellaneous	867.01	500.00
Repairs	613.08	1,000.00
Totals	$ 49,999.98	$ 61,152.00

In Memory

HENRY M. BILLINGS

Died April 4, 1932

Age, 70 years, 8 months, 5 days

Served on School Committee
from 1900-1908

Served as Moderator at the Town
Meetings for several years
with dignity and honor

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Tewksbury:

Madam and Gentlemen:

My third annual report as Superintendent of Schools is herewith submitted.

For the purpose of economy the report is made as brief as possible. My main endeavor will be to present what I believe is the most important problem facing the town. It is not the most pressing educational need. That is of course the requirement of more room at the Shawsheen School. It is however the most important from the standpoint of town finance.

TEWKSBURY SHOULD BUILD A HIGH SCHOOL

Any extended discussion of the relative merits of a small local High school as compared to the large city school is purposely avoided. The endeavor is to present the proposition of a local high school as a matter of good business proceedure. The purpose is to show that this town can no longer afford to send its children to other communities for their high school education. Up to the past year it was economical to do so, since one half of the cost was carried by the state treasury. The census of 1930 showed that Tewksbury had grown to have in excess of five hundred families. Automatically, state aid for high school expenses were cut off. It immediately changed the whole aspect of the situation.

The situation was aggravated further by two factors over which we had no control. The first of these was the marked increase in the number of children attending high school. This was nearly 40 per cent from last June to September. This factor, taken together with the 25 per cent increase in the rate of tuition put into effect by the City of Lowell during the summer renders the total cost of tuition and transportation much greater than the town can afford to pay for secondary education.

It is possible for the town to bond itself for a sum sufficient to build an adequate high school building and in the first year, after paying every expense connected with financing construction, interest charges, insurance, and every running expense of the school, show an actual saving of better than three thousand dollars from the amount it would have to pay for sending its pupils to other communities in that period.

This would mean that such action, instead of costing the town money, would actually save it from three thousand dollars upward each year. In the twenty-year period usually allowed for such school financing, a definite saving of in excess of seventy thousand dollars could be made. That means that in this time you can not only pay for the building and all running expenses of the school, but you can save over seventy thousand dollars. Taxes could be lowered each year in proportion to the annual saving which would automatically increase as interest charges on the bonds diminished.

This is just the same type of business problem as would be represented by the purchase of road machinery to replace the more expensive hand labor. The difference is in the initial cost, but the saving is proportionally greater.

In an endeavor to make the above statements more convincing, the following financial facts are tabulated.

Pupils in Lowell High School	150
Pupils in Billerica High School	3
Pupils in Wilmington High School	4
Pupils in Reading High School	1
Pupils in Lowell Vocational	24

Tuition

150	Pupils in Lowell High—	@ $125.00		$ 18,750.00
3	Pupils in Billerica High—	@ 120.00		360.00
5	Pupils in Wilmington High	@ 125.00		525.00
1	Pupil in Reading High—	@ 140.00		140.00
24	Pupils in Vocational—	@ 87.50		2,100.00
	Total Tuition			$ 21,975.00

Transportation

150	Pupils to Lowell High—	@ $27.50		$ 4,125.00
3	Pupils to Billerica High—	@ 60.00		180.00
5	Pupils to Wilmington High—	@ 36.00		180.00
1	Pupil to Reading High —	@ 72.00		72.00
24	Pupils to Vocational—	@ 30.00		720.00
	Total Transportation			$ 5,277.00

Total Cost

Cost of Tuition	$ 21,975.00
Cost of Transportation	5,277.00
Total Cost of Secondary Education	$ 27,252.00

That $27,252.00 is the cost now. Let us look ahead to next September.

Next June there will be graduated from Lowell High School about thirty Tewksbury children. At about that same time about forty-five pupils will be graduated from Foster School certified for Lowell High School. We therefore have to make provision for:

Tuition—15 Pupils to Lowell High @ $125.00	$ 1,875.00
Trans. —15 Pupils to Lowell High @ 27.50	412.50
Total	$ 2,287.50
Present Cost	27,252.00
Cost from September 1933 to June 1934	$ 29,539.50

The following summary shows the actual cost of financing an adequate local high school. Such a school would have an initial capacity of approximately 200 pupils and ought not to cost over $100,000. It could be bonded for a 20-year period.

First Year Costs

Sinking Fund	$ 5,000.00
Interest on bonds @ 4%	4,000.00
Insurance	2,000.00
Janitor	1,500.00
Fuel	1,200.00
Books and Supplies	1,000.00
Lights, Power, and Water	500.00
Upkeep	500.00
Building Costs	$ 15,700.00

Cost of Instruction

Principal—Administrative and Teaching	$ 2,500.00
Sub-master—Athletics and Teaching	1,500.00
Latin and French	1,200.00
English and History	1,200.00
Mathematics and Science	1,200.00
Commercial Branches	1,200.00
Music and Art	1,200.00
Total for Instruction	$ 10,000.00
Building Costs	$ 15,700.00
Instructional Costs	10,000.00
Total Costs	$ 25,700.00

These costs are purposely set higher than they would really be. Probably the school could function with at least one less teacher or could offer manuel training and domestic science at the same cost.

Let us note the saving which could be made.

Cost Under Present System	$ 29,378.50
Cost of Local High School	25,700.00
SAVING	$ 3,678.50

Yes actually saving over three thousand dollars the FIRST year. This saving would be increased each year by the amount saved in interest on bonds, probably about $200 a year. It would therefore seem evident that by the time the bonds were retired the building would not only be paid for, with all running expenses, but over seventy thousand dollars ($70,000) would have been saved in addition.

The writer hopes this will not be regarded as another "Educators Dream". It is a matter of cold, hard, financial facts. It is purely a business proposition and is presented as such.

If one were to enter into the realm of other desirable considerations, not the least would be that of keeping Tewksbury pupils in Tewksbury schools and moulding them into Tewksbury citizens with Tewksbury's interests most at heart, so that home would not be merely an adjunct of some nearby city.

There is something wholesome about home life in the small town. There are fewer distractions, fewer contacts with those undesirable elements of social development which of necessity inhere in the larger centers of population.

Among the educational advantages is the closer relation between pupils and teachers in the smaller school. The individual is more of a personality and less a cog in a great machine. It is also possible or at least more probable that the parents will keep in closer touch with their children during this most important adolescent period. It has been the writer's experience that the product of the small high school is as well equipped to face the future as his rival from the larger school. This is remarkably true in the case of the pupil preparing for a college career.

It is of course true that a small school cannot produce a large band, a large orchestra, championship athletic teams, a school regiment, and many other very attractive but nonessential adjuncts to high school education. It is however possible to do all these things in a smaller way, sometimes in a better way.

Shawsheen School

The most pressing problem which appears for solution is that of adequate housing facilities for the children of the South part of the town.

In September this building was hopelessly overcrowded. It was only by removing the sixth grade and part of the fifth to the Foster school that any kind of equality of educational opportunity could be offered to the children of this section.

This transfer of pupils which is the second of its kind in two years, has necessitated a material increase in the cost of transportation. This cost, if continued for a period of years, will amount to a sum which will more than pay for an addition to the building. To be specific, we are transporting 27 children from this section by the Eastern Massachusetts bus at a daily cost of $4.70. In a year this amounts to $893. In addition we spend $95 transporting pupils from this vicinity to the Spalding school. In short it cost nearly one thousand dollars a year to transport children from the Shawsheen school district to the center of the town. In less than nine years this would pay for the addition of two large rooms, and a new heating plant to this school, where numbers are increasing every year.

Here again the town is faced with what is a strictly business proposition. It is another case of paying for a building by what can be saved in transportation. The money will have to be spent in one way or the other. In one way you have nothing but the transportation, while in the other you secure accommodations which are good for many further years of service.

Present indications are that this section will continue to increase in population. This means an ever increasing demand for school accommodations. The building is being used to capacity now so that as population increases more pupils will have to be carried to the Foster school. Sooner or later that school will be filled to capacity. It is near that condition at present. It is evident that sooner or later some construction will have to be done. There will probably be no time in a number of years when costs of labor and materials will be at the low level of the present. Building now will help relieve unemployment and at the same time save money over future cost of the same work.

General Conditions

The general tone of the school system is very good. Classes are large in most schools, in some cases too large for the teachers to be able to give any amount of individual attention. In every case whether the class is large or small the instructors are giving the best they have to their work.

It is a source of some regret that it was found necessary to cease using the Shawsheen school as a training school for Lowell Teachers' College. We regret particularly the loss of two excellent teachers from our staff.

Roster of School Employees

Class	Name	School or Dept.	Address
Teachers	Ethelyn Howard	Foster	Tewksbury
	Ruth Kelly	Foster	Tewksbury
	Katherine Sullivan	Foster	Wamesit
	Evelyn Fuller	Foster	Tewksbury
	Elizabeth Flynn	Foster	Lowell
	Marion Piper	Foster	Lowell
	Doris Blake	Foster	Lowell
	Mary Watson	Foster	Tewksbury
	Dorothy Small	Shawsheen	Tewksbury
	Elizabeth Reynolds	Shawsheen	No. Tewksbury
	Eva Hersey	North	No. Tewksbury
	Ruth Tingley	North	Tewksbury
	Nettie L. Eagles	Spaulding	Tewksbury
	Anne F. Cheney	Spaulding	Lowell
	Anna Sullivan	West	Wamesit
Super.	Marion Adams	Music	Chelmsford
	Vittoria Rosatto	Drawing	Lowell
	Lena Coburn	Sewing	Chelmsford
	Raymond Norton	Manual Tr.	Tyngsboro
Health	Herbert M. Larrabee	Physician	Tewksbury
	Emma McLaren	Nurse	So. Tewksbury
Janitors	Walter Lavelle	Foster-Spaulding	Tewksbury
	Robert Staveley	Shawsheen	Tewksbury
	Irving Bailey	North	No. Tewksbury
	Mrs. M. Anderson	West	Lowell R. F. D.
Trans.	John Furtado		Lowell
	Omer Blanchard		No. Tewksbury
Supt.	Stephen G. Bean		Wilmington

Miss Reynolds occupies the position left vacant when Miss Tingley was transferred to the training school at North Tewksbury. Miss Cheney succeeded Thelma Gale in the Spaulding school when matrimony claimed another of our staff.

The transportation route formally served by Mr. Porterfield of South Tewksbury was consolidated with the North route and the contract awarded to Mr. Omer Blanchard.

With the exception of these three changes the list of school employees is the same as that of last year.

School Costs

The appropriation for schools for the year 1933 will of necessity be materially greater than in the past year due chiefly to the very

marked increase in the cost of high school education. This increase is due to two factors, the greatly increased number now attending high school, and the twenty-five per cent increase in the rate of tuition charged by the City of Lowell. Last year there were up to the end of June about 108 pupils attending Lowell High. In September this number had increased to 150 and in September of the next year, 1933, it will be increased to nearly 170.

The action taken by Lowell which increased the rate of tuition from one hundred to a hundred twenty-five dollars was wholly unexpected. It came without warning and made a very heavy increase in the cost of high school tuition. For the current school year from September 1932 to July 1933 we must pay to Lowell alone $18,750. There is also $1140 due three other towns which gives a total of $19,890 for tuition for one school year. This is a $7,323 increase over the preceding school year in this one department and takes no account of transportation, which has increased proportionally.

Elementary school transportation has also increased due to the necessity for relief of congestion in the Shawsheen school.

Enrollment Facts

The two tables which follow show the number and distribution of the Elementary school pupils in the town's schools. The total number shows an increase of 21 pupils over last year.

Age and Grade Distribution

as of Oct. 1, 1932

TABLE I

	5	6	7	8	9	10	11	12	13	14	15	16	T
I	19	39	7	1									66
II	3	21	40	8	1	1							74
III		1	15	33	17	4	2			1			73
IV				17	31	9	6		1				64
V					31	28	4	6	1				70
VI						14	38	14	1	2			69
VII							17	30	12	2	1	1	63
VIII							1	12	29	9	2	1	54
T	22	61	62	59	80	56	68	62	44	14	3	2	533

Heavy diagonal "steps" show normal ages for the grades.

Arabic numerals indicate age at last birthday.

Roman numerals indicate the grades.

Note that present indications are that we shall have about 175 to 200 high school pupils for at least eight years more. This should be considered in connection with the cost of high school education at home or in other communities. Each pupil cost $152.50 to transport and educate in Lowell. It costs even more in other places.

Teacher-Grade Distribution
as of Dec. 31, 1932

Heavily leaded horizontals show the different schools.

Conclusion

The superintendent wishes to express his appreciation for the fine cooperation rendered by his associates, and to compliment them for their high professional spirit during the past year.

The school committee deserves the appreciation of the community for accomplishing so good a year of education on an impaired budget.

Respectfully submitted,

Superintendent of Schools.

Wilmington, January 9, 1933.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent and School Committee of Tewksbury:

The ultimate aim of school music is to teach the children to love music. Music has an immense and potent appeal to the child and offers a wide opportunity, here and now, for fuller living. All music education should create an appreciation for music. In addition to the appreciation derived from singing, the victrola is used to present some of the best music, to illustrate instruments of the orchestra and for rhythm. We have had a music memory contest in grade seven for the past two years and the Parents-Teachers' Association has given the awards.

The majority of children entering school have had little or no experience in either singing or listening. The teacher begins with ear training. During the early days of the first year, between twenty and thirty per cent of the class show a deficiency in imitating tone. Much individual work must be given. The grade is divided into a singing and listening class. By the end of the first year we hope to have all children in the singing class. This is not always possible. Grade one learns many rote songs, the scale, and has much work in rhythm.

Rote songs are continued through grades two, three and four. Staff reading is given in the latter part of the second year. Grade three begins song reading, learns names of lines and spaces, how to find key note from key signature and first time motion. Grade four has second and third time motions, names of keys, some chromatic work and a little two-part singing. Grade five continues two-part music, more chromatic work and arithmetic in music. Grade six studies three-part music, fourth, fifth, sixth and seventh time motions and compound time. Grade seven learns bass clef, reading tenor part and three-part music. Grade eight continues study of bass clef and has four-part music. This is a brief outline but it gives an idea of the general plan of procedure.

I wish to express my sincere thanks for the hearty co-operation of all who have helped to make my work a pleasure and I hope, a success.

Respectfully submitted,

M. MARION ADAMS,
Supervisor of Music.

REPORT OF SUPERVISOR OF DRAWING

To the Superintendent and School Board of Tewksbury:

Art has been defined in general by many and in many ways, but in the case of the grades from the first thru the eighth the aims can be somewhat more definite.

Art is a graphic expression of the child's feeling about experience. We can conceive then of every child as an artist with different degrees of familiarity with surroundings. The same experience effects individuals differently and the way the individual expresses his feeling about the experience varies according to his familiarity and skill with materials.

In the first grade in the Fall the child scribbles with a pencil, and makes marks with a crayon without any attempt to draw anything. This is all in getting acquainted with the materials. From this stage he advances to the symbolic stage when his drawing may be apparently a scribble but in reality to the child has meaning. He draws for the satisfaction of reliving his experiences and sees in an unintelligible jumble of lines remarkable imaginative or reminiscent pictures. He takes pleasure in explaining this jumble of lines and masses to any sympathetic listener.

Following this period of drawing for his own personal satisfaction the child gradually becomes more desirous that others be able to understand his picture without explanation. Then, he was pleased to be asked what his picture was about, now, he is offended if one cannot readily recognize what is portrayed. He slips his drawing under cover at the approach of the observer. This timidity is the result of a rising standard of technique without a corresponding increase of skill in and knowledge of drawing. The supervisor's problem then, is to supply technique in drawing as fast as the child is ready for it.

The aim is not to make a pretty picture but to supply him with knowledge of drawing so that he may best express himself.

The Seasons and Holidays provide ample material to test the growth of the child.

May I express my thanks to you, Mr. Bean, and the School Board for my opportunity to work with such a fine group of teachers and enthusiastic boys and girls.

Respectfully submitted,

VITTORIA ROSATTO,

Supervisor of Drawing.

REPORT OF SEWING INSTRUCTOR

Mr. Stephen G. Bean,
Superintendent of Schools,
Tewksbury, Massachusetts.

Dear Sir:

The following report is submitted covering instruction in Sewing in the Foster School.

The girls in the seventh grade have made dish towels, sewing bags, and underwear. Learning to do all their own cutting and stitching on the machine.

The eighth grade girls have all made hemstitched towels, underwear, and dresses. Also, in some cases, clothes for younger members of the family.

I feel that the girls will be able to use simple patterns and make their school dresses when they leave the eighth grade.

Respectfully submitted,

LENA M. COBURN.

January 11, 1933.

REPORT OF MANUAL TRAINING DEPARTMENT

Mr. Stephen Bean,
Superintendent of Schools,
Tewksbury, Mass.

Dear Sir:

In this report I wish to state the work of the manual training department progressed very well in the past year.

The boys of the eighth grade have been carrying on rather advanced projects, also making sketches and figuring costs of materials. This gives them the ability to visualize the article when it is begun which I find is a great help.

They have also made a large bookcase for the North school.

The boys of the seventh grade have been doing very good work. Each boy is asked to bring plans or sketches of some article, from their homes which their parents would like them to make. They have completed a sand-table for the Spaulding school.

Respectfully submitted,

RAYMOND A. NORTON.

REPORT OF SCHOOL NURSE

To the Superintendent and School Committee of Tewksbury:

As School Nurse I submit the following report:

I have made two hundred and ninety-eight visits to the schools. Every child has been weighed and measured and a physical record sent home with the report cards. Every child has been examined for pediculosis, cleanliness, skin eruptions, etc.; every two months. Contagious cases have been carefully followed up and everything done to prevent their spread.

I have made eighty-two visits to the homes and the parents have been willing to co-operate with me in every way. I have conducted eighty-four children to the Dentist and obtained corrected vision for twenty-eight children. Nine children have been with me for the removal of tonsils and adenoids, and I have influenced the parents to attend to the matter themselves in many cases.

Dr. Larrabee vaccinated sixteen children and examined five hundred and fourteen children during the year. I assisted him and recorded the defects found and am obtaining corrections. I have done two hundred and six simple dressings in school.

The children in our Tuberculosis clinic have been re-examined and X-Rayed. All show improvement and one was discharged as well.

Respectfully submitted,

MRS. E. P. MACLAREN,
